RUPEE PLUNGES TO ALL-TIME LOW OF 77.71 AGAINST DOLLAR

Surging US bond yields dampen appeal of riskier assets; losses in the domestic equities, high crude oil prices and forex outflows also weigh down rupee

New Delhi

The rupee declined by 17 paise to close at its all-time low of 77.71 against the US currency on Tuesday as surging US bond yields dampened the appeal of riskier assets.

Losses in the domestic equities, high crude oil prices and forex outflows also weighed on the rupee.

At the interbank foreign exchange market, the rupee opened lower at 77.65 against the greenback and finally settled at 77.71, down 17 paise over its previous close.

During the session, the rupee touched an intra-day low of 77.71 and a high of 77.62. On Monday, the rupee settled at 77.54 against the US dollar.

This is the fifth straight monthly decline for the rupee amid weak risk sentiments, foreign fund outflows and concerns over high inflation.

The dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 0.5 per cent higher at 101.92.

Global oil benchmark Brent crude futures advanced 1.77 per cent to USD 123.82 per barrel.

According to Dilip Parmar, Research Analyst, HDFC Securities, the rupee has become the worst-performing currency among Asian currencies and clocked the fifth monthly decline in a row in May on the back of foreign fund outflows and slower economic growth.

"Risk sentiments remained weak on worries over hawkish central banks following higher inflation and slower growth prospects," Parmar said.

US Treasury yields surged on Tuesday following a Federal Reserve Governor's comments that the central bank should be prepared to raise interest rates by 50 basis points at every meeting on until inflation is decisively controlled.

"Rupee traded weak as crude prices rise towards USD 120 in WTI making it more expensive for India to import," Jateen Trivedi, VP Research Analyst at LKP Securities, said.

On the domestic equity market front, the 30-share BSE Sensex ended 359.33 points or 0.64 per cent lower at 55,566.41, while the broader NSE Nifty fell 76.85 points or 0.46 per cent to 16,584.55.

In a hectic FII movement in the equities markets, foreign institutional investors sold shares worth Rs 46,741.52 crore while purchased stocks worth Rs 45,737.96 crore, leading to net outflow of Rs 1,003.51 crore on Tuesday.

Religare firms pay Rs 10.5 cr to settle case with market regulator

New Delhi: Religare Enterprises and Religare Finvest on Tuesday settled with markets regulator Sebi a case pertaining to alleged financial mismanagement and diversion of funds after collectively paying Rs 10.5 crore towards settlement fees.

Individually, Religare Enterprises Ltd (REL) and Religare Finvest Ltd (RFL) paid Rs 5.42 crore and Rs 5.08 crore towards settlement amount respectively, the Securities and Exchange Board of India (Sebi) said in a settlement order.

The order came after the two companies filed an application with Sebi proposing to settle the regulatory violations "without admitting or denying the findings" through a settlement order. "The pending enforcement proceedings for the alleged default ...are settled qua the applicants," Sebi said in its order, adding that it will not initiate enforcement action against them for the default.

Stagflationary risk low for India compared to others, says CEA

AGENCIES
New Delhi

Chief Economic Adviser V Anantha Nageswaran on Tuesday ruled out the risk of stagflation for India, saying the economy is better placed than other nations.

Stagflation is the phase when an economy faces moderation in GDP growth as well as high inflation.

"Compared to the experience of many developed and developing countries, India is somewhat better placed and more importantly both central bank and the government are seized of the problem under addressing them. I would at this stage say that stagflationary risks for India are quite low compared to the rest of the world," he said.

The Indian economy grew at its slowest pace in a year during January-March at 4.1 per cent, pulling down the GDP growth in the full fiscal 2021-22 to 8.7 per cent, official data showed on Tuesday.

On the sequential low growth, Nageswaran said it is because of the Omicron wave that the nation experienced in January.

"Considering the fears and concerns expressed by many, the year-on-year growth rate at 4.1 per cent indicating that the momentum is intact and if you look at April numbers on GST, etc, there is considerable momentum in economic activity...," he pointed out. He also ruled out recession hitting India, given its macro-economic fundamentals.

Stressing that the domestic financial sector is in better shape to support growth, he said as recovery gathers momentum, private sector investment would also pick up.

Large companies' credit growth strongest in seven months: RBI

AGENCIES
Mumbai

Corporate credit growth continued to gather steam in April, with loans to large companies growing at the fastest pace in seven months, data released by the Reserve Bank of India today showed.

Credit growth to industry grew 8.1% year-on-year as on Apr 22 compared with a on-year growth recorded since it turned positive in October.

This comes at a time when banks are betting on big-ticket corporate credit to help them keep overall credit growth in double dig-its. Total loans in the banking system stood at over 120 trln rupees as on May 6, a growth of 10.8%, another set of data released by the RBI showed.

Most banks expect corporate loan demand to be led by utilisation of sanctioned limits, rise in capital expenditure and companies shifting back to loans from the bond market. Elevated inflation is also expected to keep demand for working

IKEA to open large-format store in Bengaluru on June 22

Mumbai: Swedish home furnishing retailer IKEA India on Tuesday said it will open its large-format store in Bengaluru in Karnataka on June 22, 2022.

"We aim to offer home furnishing solutions that match the aspirations and dreams of many people of Bengaluru for a better everyday life. IKEA Nagasandra will serve as a one-stop destination for all your home furnishing requirements," IKEA India market manager for the Karnataka market Anja Heim

Over 75% of Bitcoin miners' earnings goes in rising electricity costs

New Delhi: Bitcoin miners are spending more than 75 per cent of their earnings in soaring electricity costs, resulting in a significant carbon footprint which is damaging to our environment, a new report revealed on Tuesday.

Bitcoin (BTC) mining is a very electricity-intensive process. A recent study has shown that a single Bitcoin transaction consumes about 2165 kWh of

becomes evident," according to the report from CryptoMonday.de.

"Bitcoin mining is central to the sustenance of the BTC ecosystem as besides enabling verification of transactions, it helps secure the network. The activity is so critical that the BTC network incentivizes miners in the crypto through the miners' reward," said Elizabeth Kerr, a financial content specialist.

Mumbai property registrations fall on month in May as demand normalises

AGENCIES
Mumbai

Property registrations in Mumbai fell for the second straight month in May, in what industry circles said was a normalisation in demand as the rush to get low stamp duty rates was no longer the driver.

From April onwards, the Maharashtra government imposed a 1% metro cess that has effectively taken the stamp duty rate to 6% on all property registration in April were already filed prior to Apr 1, giving buyers the benefit of the lower stamp duty. Also, about 37% of the properties whose registrations were

year ago, however, it is far higher because last year in May, the country was in the grip of the deadly Delta variant of the coronavirus with strict lockdowns imposed in the state.

The fact that people are still buying houses in large numbers, despite price increases by developers in some pockets and a small but significant uptick in mortgage rates should be encouraging for developers, who have a large pipeline of launches lined

कोयनेतील आरक्षित कोट्यापेक्षा अधिक पाणी वापरास परवानगी

वार्ताहर/कराड

महाराष्ट्र, कर्नाटका, तेलंगणा व आंध्र प्रदेश राज्यांच्या कृष्णा नदी पाणी वाटप लवादानुसार आरक्षित पाणी कोट्यापेक्षाही यंदा अतिरिक्त १५ टीएमसी जादा पाणी वापरण्यास शासनाने परवानगी दिली आहे. त्यामुळे कृष्णा नदी पाणी वाटपाचे तांत्रिक वर्ष मंगळवारी ३१ मे रोजी संपुष्टात आले असले तरी, अद्याप कोयना धरणात [illegible] इतका पुरेसा पाणीसाठा शिल्लक आहे.

दरम्यान, या संपूर्ण तांत्रिक वर्षात धरणातून अखंडित वीजनिर्मिती झाली. परिणामी वर्षात कोयनेने महाराष्ट्राला वीज भारनियमनापासूनही मुक्त ठेवले. धरणातील उपलब्ध पाणी साठ्यापुढे जूनअखेरपर्यंत जरी पाऊस झाला नाही,तरी वीजनिर्मिती आणि सिंचनमध्ये कोणतीही अडचण निर्माण होणार नसल्याचा विश्वास धरण व्यवस्थापन सूत्रांकडून व्यक्त करण्यात आला आहे.

कोयना धरणाच्या पाण्यापासून सुमारे [illegible] जाते.त्यासाठी धरणातील ६७.२५ टीएमसी पाण्याचा वापर वीज निर्मितीसाठी तर ३० टीएमसी पाण्याचा वापर सिंचनासाठी केला जातो. यावर्षी अतिरिक्त पंधरा टीएमसी जादा पाणी वापरायला शासनाने परवानगी दिली आहे. कोयना धरणातील सध्याच्या उपलब्ध पाणीसाठ्याचा विचार करता नव्या तांत्रिक वर्षात १५ टीएमसी... त्यामुळे अगदी जून महिना अखेरपर्यंत जरी पाणलोट क्षेत्रात पाऊस झाला नाही, तरीही या पाण्यावर धरणातून अखंडित [illegible] होऊ शकतात, अशी माहिती कोयना धरण व्यवस्थापन सूत्रांकडून देण्यात आली.
