

- 1) A senior citizen faints while standing in a queue to get new notes
- 2) As cash turned sparse, even vegetable vendors embraced digitisation, accepting payments through digital wallets
- 3) A large proportion of automated teller machines remained cashless as the size of notes changed and the machines needed to be recalibrated, and also because the acute shortage of cash meant that banks were unable to fill cash
- 4) Old notes being deposited at a bank branch
- 5) An elated "cash-rich" customer
- 6) The nation got a quick lesson on the logistics of cash
- 7) Serpentine queues became a way of life at bank branches
