**Encl:** As above

**“We at CS Tech AI are happy that the Honourable Finance Minister under the able Visionary leadership of Honourable Prime Minister has delivered a bouquet of excellent initiatives for the sustainable growth and development of the Indian Economy and more so in the infrastructure and Geo Spatial segments.**

While the capex outlay in the budget has exceeded Rs. 10 lakhs crore- which is resounding to provide impetus to the infrastructure growth, the initiatives of the enables like starting a National Geospatial Mission to develop foundational geospatial infrastructure and data. Using PM Gati Shakti, this Mission is proposed to facilitate modernization of land records, urban planning, and design of infrastructure projects.

Similarly, and clarity to continue the Jal Jeevan Mission with greater emphasis is welcome measure. Since 2019, 15 crore households representing 80 per cent of India’s rural population have been provided access to potable tap water connections. To achieve 100 per cent coverage, Honourable Finance Minister was pleased to announce the extension of the Mission until 2028 with an enhanced total outlay. She emphasised that t Mission’s focus will be on the quality of infrastructure and O&M of rural piped water supply schemes through “Jan Bhagidhari”. Separate MoUs will be signed with states/UTs, to ensure sustainability and citizen-centric water service delivery.

We at CS Tech AI have been focussed on the Jal Jeevan mission and this initiative will certainly enable us to dedicate even more efforts to develop enhanced solutions in addition to what we are delivering.

In addition the announcement to set up a Centre of Excellence in Artificial Intelligence for education will be set up with a total outlay of Rs. 500 crore.

The icing on the cake for the general public by providing tax free income for those earning upto Rs.12 lakhs pa was absolutely a pleasant surprise.

We are sure this budget will be a great initiative to fulfil the desire of the Country to grow and develop at even higher speed.

**Mr. Kaushik Khona, the Managing Director of Ceinsys Tech Ltd, replied to the query on his comments on the budget.”**
