PRESS RELEASE

Castrol India launches upgraded MAGNATEC engine oil range with latest global API SQ specification

- Proudly pioneering API SQ made in India, for India

Mumbai, 1 August 2025: Castrol India has pioneered to launch engine oils in India meeting the world's newest API SQ specification, setting a benchmark in passenger car lubrication. What makes this milestone even more special – the upgraded Castrol MAGNATEC range is being produced right here in India, reinforcing the Company's commitment to Made in India, for India.

The API SQ standard, introduced globally from April 2025, is the most advanced engine oil specification by the American Petroleum Institute. Castrol India has brought it to Indian drivers within months of its global debut, showcasing its ability to move fast and deliver cutting-edge technology locally.

“Indian drivers expect more from their cars—better fuel efficiency, lower maintenance, and performance they can count on in every condition. With the new Castrol MAGNATEC range meeting API SQ standards, we are giving them exactly that—a world-class product, made in India, and made for India. From start-up protection to long-term reliability, this is another first from Castrol, bringing a global innovation to Indian roads almost immediately after its launch worldwide,” said **Saugata Basuray, Wholetime Director, Castrol India.**

The upgraded MAGNATEC range offers:

- Stronger wear protection for modern engines
- Better fuel efficiency
- Enhanced defence for catalytic converters
- Compatibility with India's E20 fuel environment

It will be available in popular viscosities – 0W-20, 5W-30, and 5W-40 – meeting API SQ, ACEA C2 or C3, and future-ready performance needs.

The new MAGNATEC range will be rolled out across retail outlets and workshops across India in the coming weeks.

About Castrol India Limited:

Castrol India Limited, part of the bp group, is a leading lubricant company with a 115-year presence in India. Known for its innovation and high-performance products, Castrol offers trusted brands like Castrol CRB, Castrol GTX, Castrol Activ, Castrol MAGNATEC, Castrol EDGE, and Castrol POWER1. Serving various sectors including automotive, mining, machinery, and wind energy, Castrol India operates three blending plants and a wide distribution network, reaching over 150,000 retail outlets nationwide. Globally, Castrol has been driving technological advancements for 125 years. For more information, please visit www.castrol.co.in
