About IMFA

Indian Metals & Ferro Alloys Ltd (IMFA), incorporated in 1961 and headquartered in Bhubaneswar, Odisha, is India's leading fully integrated producer of value-added ferro chrome with an installed furnace capacity of 190 MVA capable of producing 284,000 tonnes per annum (tpa). The company operates captive chrome ore mines at Sukinda and Mahagiri, along with manufacturing complexes at Therubali and Choudwar. It also has captive power generation comprising 200 MW coal-based and 4.55MWp solar. IMFA's operations are benchmarked to international standards and are ISO 9001 (Quality Management Systems) certified.

The company also signed definitive agreements to acquire Tata Steel Limited's ferro chrome plant at Kalinganagar, Odisha, for a base consideration of ₹610 crore. Ferro Chrome capacity expansion by way of 66 MVA (100,000 tpa) greenfield project and 99 MVA (150,000 tpa) strategic acquisition will take total production capacity to 534,000 tpa, making IMFA the country's largest ferro chrome producer. Chrome Ore requirement for the enhanced smelting capacity will be entirely met from the company's captive chrome ore mines and supported by hybrid renewable power. As part of its diversification strategy, a 120 KLD grain-based ethanol plant is being set up at Therubali, Odisha.
