said, "Arvind SmartSpaces continues to keep the momentum in its financial performance, quarter on quarter basis since last 4 years of its listing and expects to maintain the growth momentum. We have already delivered seven projects of around 2.8 million sq. ft. and have other seven projects totaling 7 million sq. ft. under various stages of development which would be completed over the next 3-4 years. We have recently entered Pune Market through launch of a new residential project and we are very satisfied with the response to the project. We see Pune as one of the important growth markets for us. We intend to further consolidate Bangalore market where a healthy pipe line of projects is expected to materialize in near future. We are continuously looking at opportunities to invest in new projects to further strengthen of our project pipeline and are planning to add at least another 3-4 projects during the current financial year.

**Mr. Singal added that** "After the successful implementation of various structural reforms in the real estate sector and easing out of liquidity crunch in financial markets, the residential demand seems to be on an upward trend. The same is also indicated in our overall sales performance for FY19 where we have achieved a record pre-sale of Rs. 277 crores.

The government's continuous thrust of giving priority to the real estate sector is making it more attractive to the customer. Initiatives like reduction in GST rates on residential projects, tax incentives for home buyers, gradual easing of interest rates etc are helping further in improving demand for end consumption. However, some medium-term challenges still remain. Liquidity crisis and corresponding interest rates for real estate developers are yet to come down to the pre-crisis level. Demand, although better as compared to a few quarters earlier is yet to fully recover and comparative lower interest of investors in real estate as an asset class are some of the challenges that the industry still faces. Overall, the industry outlook is positive and there are several indicators which point towards further stabilization and improvement in overall demand cycle. The company is poised to take advantages of these positive macro environment indicators and opportunities.

Built on 80 years old legacy of Lalbhai Group and established in year 2008, Arvind SmartSpaces is India's leading real estate development company headquartered in Ahmedabad. With approximately 7 million square feet of real estate development across the country, the company is focused on delivering real estate solutions that add value to the lives of its customers and is fast emerging as a leading corporate real estate player in the country. The company has real estate developments across Ahmedabad, Gandhinagar, Bangalore and Pune. Backed by the strong brand name of Arvind group and the credibility achieved through already delivered projects, the company has aggressive plans to expand and grow further.
