executive officer when he steps down this year.

The bulk of earnings at the world's largest entertainment company are delivered by the live shows and cruises unit led by fresh D'Amato, a leading candidate to replace Iger. Still, Disney cautioned that it's experiencing only "modest" growth in the segment in the current quarter, due to a combination of factors.

Sitharaman defended the proposed hike in securities transaction tax (STT) on future and option (F&O) trades, describing it as a determined and necessary step. The Budget proposed raising STT on futures contracts to 0.05% from 0.02%, and on options premium and exercise to 0.15% and 0.18% respectively. Citing studies by Sebi showing that over 90% of retail investors in the F&O segment incur losses, she said the move aims to discourage un informed trading. "We have only started the highly speculative F&O segment. Many participants have reached out about severe losses faced by their children," she noted.

Addressing gold price volatility, Sitharaman attributed recent trends to global uncertainty and rising central bank purchases of gold. This, she said, reflects "waning investor confidence in any single currency and a flight to physical safe assets."

She also confirmed that the government plans to introduce the Insolvency and Bankruptcy Code (Amendment) Bill, 2025, in the second half of the Budget session, beginning March 9, following submission of the parliamentary committee's report.
