## Press Release

### **FAST India Collaborates with Indegene to Make Indian Biotech Ecosystem Future-Ready**

**New Delhi, July 3, 2025:** The Foundation for Advancing Science and Technology (FAST) India today announced a strategic, long-term partnership with Indegene to scale up India's biotech ecosystem. The partnership will focus on expanding research and collaboration between academia and the industry, helping accelerate innovation from the ground up.

FAST India, a non-profit organization (NPO), is committed to positioning India among the world's top three science and technology nations within the next decade. The NPO's key initiatives include the flagship India Science Festival, national science competitions, platforms to showcase R&D from India and abroad, and research that promotes translational science and effective industry-academia collaboration.

FAST India undertakes nationwide efforts to gauge public interest in science and technology, with a focus on students, young professionals, and the broader public. These studies also explore perceptions of translational research and successful industry-academia collaborations. Insights are compiled into research reports and case studies that help strengthen India's science and technology ecosystem.

"A vibrant science ecosystem is crucial to India's economic growth and human development", said Sheel Kapoor, CEO, FAST India. "We are thrilled to join hands with Indegene on this journey. Their commitment to science and healthcare innovation aligns with our vision of enabling science-led development in the region. We look forward to working together closely to scale our programs and deepen our impact."

"We are committed to accelerating biotech innovation in India, and enabling policy modernization," said Manish Gupta, CEO, Indegene. "Our collaboration with FAST India is another meaningful step in this journey. Together, we look forward to advancing India's biotech prowess and helping build a science-first, future-ready innovation ecosystem."

#### **About FAST India**

The Foundation for Advancing Science and Technology (FAST India), registered as the Center for Development and Promotion of Science, is a non-profit institution dedicated to building capacity and advancing policy solutions that foster scientific enquiry and research, and facilitate the creation, dissemination, and translation of new scientific knowledge. The foundation will work with a variety of stakeholders to develop and strengthen the science ecosystem in India to advance scientific research and its translation into economic value and social good.

Please visit <https://www.indiasciencefest.org> for further details on India Science Festival 2025.
