Ather Energy posts highest ever revenue of Rs.995.7 crore in Q3 FY26

Mumbai, Ather Energy (ATHERENERG), one of India's leading electric two-wheeler manufacturers, delivered its strongest-ever quarter performance, with robust growth in market share and revenue alongside a sharp narrowing of EBITDA losses. The performance was driven by geographic expansion, portfolio depth, and non-vehicle revenue led by software offerings. During the quarter, the company sold 67,851 units, captured a national market share of 18.8%, and improved EBITDA margin by ~1,600 basis points (bps) year-on-year (YoY) to (-3%), reflecting strong operating leverage, disciplined cost management, and continued investments in research and development (R&D).

Tarun Mehta, Executive Director & CEO, Ather Energy, said, "Q3 has been a strong quarter for us. Robust festive demand, healthy volume growth, and improving market share together drove our best quarterly revenue and EBITDA so far. Over the past few quarters, we have stayed very focused on getting the fundamentals right by improving unit economics, margins, and operating leverage, and that effort is now clearly showing in the improvement in EBITDA. What is particularly encouraging is the strength of our ecosystem. Ather-Stack attach rates remain very high, and customer engagement is deepening even as our sales scale. All of this gives us confidence that the business is structurally prepared for sustainable, long-term growth." For the quarter ended December 2025,

India-US trade agreement strengthens India's global trade position: Expert

Mumbai, Feb 3 (IANS) Market expert Sunil Shah on Tuesday termed the India-US trade deal a major sentiment booster for the Indian economy and capital markets, saying it has laid a strong foundation for long-term growth and strengthened India's position in global trade. Reacting to the development, Shah said the agreement has had an immediate positive impact on market sentiment, which was clearly reflected in Tuesday's sharp rally. "After the Budget, the market was slightly weak, but today the Sensex is up by over 2,200 points, and there is only one reason for this, the India-US trade deal," he told IANS. Explaining its economic impact, Shah noted that earlier concerns over high tariffs were limited in scope. "There were no high tariffs on software and services, and pharma was not included in the 50 per cent category. Only sectors like garments, gems, jewellery and a few others were affected, and their volumes were not large enough to impact overall economic growth," he said, adding that the reduction of

Business Brief

Billion Lives Foundation Organised Jardoshi Skill-Based Workshop

Vadodara, Billion Lives Foundation, Vadodara, successfully organised a Jardoshi skill-based workshop at its office, with participation from more than 10 women. The workshop was conducted by experienced trainer Ms. Trupti Shah, who provided hands-on training and practical insights into the traditional art of Jardoshi embroidery.

On this occasion, Billion Lives Foundation Director and Founder Ms. Kinnari Hariyani presented an appreciation letter to Ms. Trupti Shah for her valuable contribution. She stated, "Skill-based training is a powerful tool to make women self-reliant and economically empowered." Billion Lives Foundation continues to work towards women empowerment and skill development through such impactful initiatives.

Škoda Kylaq marksome year landmark by celebrating 50,000 sales milestone

Mumbai, Škoda Auto India, after registering its most successful year of sales in 2025 and introducing the new Kushaq, continues to keep its foot on the pedal with its growing product portfolio. The Kylaq has emerged as a strong pillar of Škoda Auto's growth story in India. With over 50,000 units sold since its launch, the Kylaq has been a major contributor to Škoda Auto India's best-ever sales performance, in the brand's 25th-year in the country.

Commenting on the Kylaq's first anniversary, Ashish Gupta, Brand Director, Škoda Auto India, said, "The Kylaq is a strong testament to our long-term commitment to India and saw us enter the market's most competitive segment. Crossing the 50,000 sales milestone is truly humbling and reflects the growing trust in the Škoda brand. To build on this momentum, we are expanding the Kylaq line-up with customer-led enhancements, while also making the Kylaq the most accessible vehicle with a real automatic transmission in its segment. These upgrades also democratise features that matter most to today's customers, across variants. With a wider and more structured range, and more exciting additions planned later this year, the Kylaq continues to reflect our commitment to offering European technology, strong value and great driving cars for Indian roads."

Godrej Enterprises Projects Strong Wedding-Season Growth as Home Locker Demand Surges

Mumbai, The Security Solutions business of Godrej Enterprises Group has announced a strong growth outlook for its home locker business this wedding season, with sales expected to grow by 20%, driven by rising consumer preference for secure, long-term gifting solutions amidst India's peak marriage period.

The wedding season has emerged as a critical consumption period for home security, driven by rising investments in gold, jewellery, cash, and important documents.

With gold prices skyrocketing, the risk profile has gone up and hence the need to secure the jewellery is a pressing need. Weddings are one of those events of household asset creation, and a lot of families today, are prioritising secure in-home storage as part of their wedding planning.

Pushkar Gokhale, Business Head, Security Solutions, Godrej Enterprises Group, said, "The wedding season is now a strategically an important period for us. As families invest significantly in gold and other valuables during weddings, secure storage is becoming an integral part of that purchase decision, creating a strong and sustainable growth opportunity for our business."

Oracle mulls laying off up to 30,000 employees to fund AI infra: Report

Mumbai, Feb 3 (IANS) US tech giant Oracle is planning to cut 20,000 to 30,000 jobs and sell parts of its activities to help finance expansion of its AI data-centre capacity, a new report has claimed. The report from CIO, citing an investment bank TD Cowen, said the company cut about 10,000 jobs in late 2025 as part of a \$1.6 billion restructuring plan. The total potential layoffs would be the largest in Oracle's recent history, while TD Cowen estimated the proposed job reductions could free up \$8 billion to \$10 billion in cash flow.

Both equity and debt investors have questioned Oracle's ability to fund the buildout, and several US banks have recently pulled back from lending for the expansion which led to Oracle taking the route of layoffs, the report indicated.

"Multiple Oracle data-centre leases that were under negotiation with private operators struggled to secure financing, in turn preventing Oracle from securing the data-centre capacity via a lease," it said. Oracle was yet to comment on the report.

The research house put the company's required capital expenditure for the project at roughly \$156 billion, and Oracle is exploring a range of measures to reduce its capital burden. Oracle considered the sale of its healthcare software unit Cerner, which it acquired for \$28.3 billion in 2022.

Samsung SDI remains in red in Q4 on sluggish EV market

Seoul, Feb 3 (IANS) Samsung SDI said on Monday it remained in the red in the fourth quarter of 2025 due mainly to sluggish demand for electric vehicles in the United States, although the performance of its energy storage system (ESS) business limited the losses.

Net profit came to 207.8 billion won (\$142.4 million) for the October-December period, compared with a loss of 242.7 billion won posted in the same period of 2024, the company said in a regulatory filing, reports Yonhap news agency. The company's operating loss for the fourth quarter came to 299.2 billion won, compared with a loss of 256.7 billion won a year earlier.

Sales rose 2.8 percent to 3.85 trillion won. By sector, the battery business posted an operating loss of 338.5 billion won, while the electronic materials sector posted an operating profit of 39.3 billion won. Among batteries, Samsung SDI said the ESS business achieved the highest quarterly revenue on record, while increased benefits from the U.S. Advanced Manufacturing Production Credit (AMPC) contributed to narrowing losses. For all of 2025, Samsung SDI Co. said it posted a net loss of 584.9 billion won, shifting from a net profit of 575.5 billion won a year earlier.

The company added it posted an operating loss of 1.72 trillion won for the year, compared with a profit of 363.3 billion won the previous year.
