AXISCADES Announces Significant Wins from its US customers post the Indo-US trade deal

Bengaluru, India – 04th Feb 2026: AXISCADES Technologies Limited (BSE: 532395 | NSE: AXISCADES), a chip to product company and a pioneer in Aerospace, Defence, Electronics, Semiconductor and Artificial Intelligence (ESAI) applications, announces new wins from its US customers division by its subsidiary Mistral Solutions.

On a significant day marked by the signing of the historic US–India trade agreement between Donald Trump, President of the USA and Narendra Modi, the Prime Minister of India, AXISCADES is delighted to announce its inaugural design and build order with two of the United States’ leading companies. One of these companies is among the world’s leading homeland security companies, while the other is a global leader in marketing and audience engagement products. These orders build upon a longstanding partnership and signify the first “Make in India” production engagement with an initial order value of approximately 13.5 crores between these companies. This collaboration reinforces AXISCADES’ position as a trusted global engineering and manufacturing partner, enhances long-term revenue visibility, and underscores our ability to capitalise on the evolving US–India strategic and industrial alignment.

Heartfelt congratulations to President Trump and Prime Minister Modi on the US–India trade agreement. By strengthening trade and technology collaboration, this agreement advances Make in India and supports the co-creation of globally competitive, high-technology products.

AXISCADES, as a trusted global engineering and manufacturing partner, will look to capitalise on the evolving US–India strategic and industrial alignment.

About AXISCADES Technologies Limited

AXISCADES is a leading, end-to-end technology, product and solutions provider aiding the creation of innovative, sustainable, and safer products worldwide in the Aerospace, Defence and ESAI domains. Headquartered in Bangalore with subsidiaries and offices worldwide, in France, Germany, Denmark, USA, and Canada. AXISCADES has a diverse team of over 3000+ professionals working across 17 locations across globe, striving to reduce the program risk and time to market.

AXISCADES has long term relationship with Semiconductor, Automotive and Hyperscaler companies, Defence Forces, MoD, Defence Labs and PSUs along with global OEMs. AXISCADES possesses deep domain experience in Weapon Systems, Avionics, Radar, Electronic Warfare, C4I2, Drones, Anti-Drone Systems, Test Solutions, GSE and GHE. AXISCADES has executed several innovative in-house projects and partnered solutions for Land, Naval, Aerospace and Homeland Security.

The comprehensive portfolio of solutions covers the complete product development lifecycle from concept evaluation to manufacturing support and certification.
