Ather Energy posts highest ever revenue of Rs.995.7 crore in Q3 FY26

Mumbai, Feb 3 (ANS) (ATHERENERG), one of India's leading electric two-wheeler manufacturers, delivered its strongest-ever quarter performance, with robust growth in market share and revenue alongside a sharp narrowing of EBITDA losses. The performance was driven by geographic expansion, portfolio depth, and non-vehicle revenue led by software offerings. During the quarter, the company sold 87,851 units, captured a national market share of 18.8%, and improved EBITDA margin by ~1,600 basis points (bps) year-on-year (YoY) to (-3%), reflecting strong operating leverage, disciplined cost management, and continued investments in research and development (R&D).

Tarun Mehta, Executive Director & CEO, Ather

Energy, said, "Q3 has been a strong quarter for us. Robust festive demand, healthy volume growth, and improving market share together drove our best quarter performance, with revenue growth of 14% YoY. Over the past few quarters, we have stayed very focused on getting the fundamentals right by improving unit economics, margins, and operating leverage, and that effort is now clearly showing in EBITDA. What is particularly encouraging is the strength of our ecosystem. Ather Stack attach rates remain very high, and customer engagement is deepening even as our sales scale. This gives us confidence that the business is structurally prepared for sustainable, long-term growth." For the quarter ended December 2025,

Ather Energy reported total income of Rs.995.7 crore, up 53% YoY, driven by robust volume growth and a rising contribution of non-vehicle revenue, including software subscriptions, charging, and accessories, spares, and service, which rose to 14% of revenue. This strong revenue growth was accompanied by a sharp increase in margins. Adjusted Gross Margin (AGM) reached Rs.251.3 crore in Q3 FY26, up 111% YoY, while AGM excluding incentives improved to 23%. Up ~1,100 bps YoY. This was driven by Ather's value engineering capabilities and the ability to command strong premiums, reflecting continued focus on healthier unit economics and structurally stronger margins.

India-US trade agreement strengthens India's global trade position: Expert

Mumbai, Feb 3 (ANS) Market expert Sunil Shah on Tuesday termed the India-US trade deal a major sentiment booster for the Indian economy and capital markets, saying it has laid a strong foundation for long-term growth and strengthened India's position in the global trade. Reacting to the development, Shah said the agreement has had an immediate positive impact on market sentiment, which was clearly reflected in Tuesday's sharp rally. "After the Budget, the market was slightly weak, but today the Sensex is up by over 2,200 points, and there is only one reason for this, the India-US trade deal," he told IANS. Explaining its economic impact, Shah noted that earlier concerns over high tariffs were limited in scope. "There were no high tariffs on software and services, and pharma was not included in the 50 per cent category. Only sectors like garments, jewellery and a few others were affected, and the impact was not enough to impact overall economic growth," he said, adding that the reduction of

tariffs to 18 per cent is clearly positive. Calling the deal a strong beginning, Shah said bilateral trade agreements should be viewed in relative terms. "Relative to whom? With whom are you comparing? I will leave that aside and say this is a beginning. India has made a deal with the European Union, we have now opened doors with the US," he said. Shah stressed that the more bilateral trade deals a country signs, the more beneficial it becomes for all stakeholders. "Trade deals are always a win-win. In the absence of engagement, challenges arise. Shah said, pointing out that China's extensive trade agreements with several countries are a key reason behind its large trade surplus. Shah cautioned that the benefits may not be visible immediately in hard numbers, but said the agreement has paved the way for future growth. "You may not see instant results, but an appreciation letter from the US for her valuable contribution. She stated, "Skill-based training is a powerful tool to make women self-reliant and economically empowered." Billion Lives Foundation continues to work towards women empowerment and skill development through such impactful initiatives.

Billion Lives Foundation Organised

Jardoshi Skill-Based Workshop

Vadodra, Billion Lives Foundation, Vadodra, successfully organised a skill-based workshop at its office, with participation from more than 10 women. The workshop was conducted by experienced trainer Mr. Trupti Shah, who provided hands-on training and practical insights into the traditional art of Jardoshi embroidery.

On this occasion, Billion Lives Foundation Director and Founder Mrs. Kinnari Hariyani presented an appreciation letter to Mr. Trupti Shah for her valuable contribution. She stated, "Skill-based training is a powerful tool to make women self-reliant and economically empowered." Billion Lives Foundation continues to work towards women empowerment and skill development through such impactful initiatives.

Skoda Kylaq marks new year landmark by celebrating 50,000 sales milestone

Mumbai, Skoda Auto India, after registering its most successful year of sales in 2025 and introducing the new Kushaq, continues to keep its foot on the pedal with its growing product portfolio. The Kylaq has emerged as a strong rival of Skoda Auto's growth story in India. With over 50,000 units sold since its launch, the Kylaq has been a major contributor to Skoda Auto India's best-ever sales performance, into brand's 25th year in the country.

Commenting on the Kylaq's first anniversary, Ashish Gupta, Brand Director, Skoda Auto India, said, "The Kylaq is a strong testament to our long-term commitment to India and saw us enter the market's most competitive segment. Crossing the 50,000 sales milestone is truly humbling and reflects the growing trust in the brand. From the time to build on this momentum, we are expanding the Kylaq line-up with customer-led enhancements, while also making the Kylaq the most accessible vehicle with a re-automated transmission in its segment. These upgrades also demonstrate features that matter most to today's customers, across variants. With a wider and more structured range, and more exciting additions planned later this year, the Kylaq continues to reflect our commitment to offering European technology, strong value and great driving cars for Indian roads."

Godrej Enterprises Projects Strong Wedding-Season Growth as Home Locker Demand Surges

Mumbai, Feb 3 (ANS) The Security Solutions of Godrej Enterprises Group has announced a strong growth outlook for its home locker business this wedding season, with sales expected to grow by 20%, driven by rising consumer preference for secure, long-term gifting solutions amidst India's post-wedding spending spree. The wedding season has emerged as a critical consumption period for home security, driven by rising investments in gold, jewellery, cash, and important documents.
