**12. Details of Registered Valuer, Merchant Banker, Valuation Methods and Rationale**

- (a) Registered Valuer: Ernst & Young Merchant Banking Services LLP ("EYMBSS"), an IBBI Registered Valuer having registration number IBBI/RV-E/05/2021/155, has issued the Valuation Report dated March 27, 2025. The valuation report is enclosed herewith as **Annexure 10**.
- (b) Details of Merchant Banker Issuing Fairness Opinion: Corporate Professionals Capital Private Limited, an independent SEBI Registered Merchant Banker having registration number INM00001143, has issued a Fairness Opinion dated March 27, 2025, certifying that the Valuation Report in reference to the Scheme is fair and reasonable. The Fairness Opinion on the valuation and share entitlement ratio is enclosed herewith as **Annexure 11**.

**(c) Valuation Methods and Rationale for Using Above Methods:**

For the Proposed Demerger: The Resulting Company is not engaged in any operations and the Demerged Company holds 100% equity shares of the Resulting Company. Pursuant to Scheme all the shareholders of the Demerged Company would become shareholders of the Resulting Company such that the shareholding pattern of the two companies would mirror each other in terms of overall number and inter-se percentage holding. The valuation approaches mentioned in the format prescribed under BSE Circular No. LIST/COMP/02/2017-18 dated May 29, 2017, and NSE Circular No. NSE/CML/2017/12 dated June 1, 2017, are not applicable in terms of SEBI Mater Circular SEBI/HO/CFD/POD-2/PCIR/2023/93 dated 20 June 2023, as there is no change in shareholding pattern of Resulting Company vis-à-vis the Demerged Company.

For the Proposed Amalgamation: The valuation approaches considered are: (a) Asset Approach (given 20% weight); (b) Income Approach (not applicable); and (c) Market Approach (given 80%

weight). Summary of method and rationale is detailed in the valuation report enclosed herewith as **Annexure 7**.

### 13. Basis for Arriving at the Share Entitlement Ratio/Share Swap Ratio

- (a) Share Entitlement Ratio for Proposed Demerger: The Share Entitlement Ratio for the Proposed Demerger is 1 (One) equity share of the Resulting Company of INR 2/- each fully paid up, for every 1 (One) equity share of the Demerged Company of INR 2/- each fully paid up. This ratio is appropriate since: (a) The Resulting Company is not engaged in any operations; (b) the Demerged Company holds 100% equity shares of the Resulting Company; (c) once the Proposed Scheme is implemented, all shareholders of the Demerged Company would also become shareholders of the Resulting Company, and their shareholding in the Resulting Company would mirror their shareholding in the Demerged Company and (d) the Share Entitlement Ratio would also not result in any fractional entitlement and would not have any impact on the ultimate value of the shareholders of the Demerged Company, and the Proposed Demerger will be value-neutral to the shareholders.
- (b) Share Swap Ratio for Proposed Amalgamation: The Share Swap Ratio for the Proposed Amalgamation is 1 (One) equity share of the Transferee Company of INR 2/- each fully paid up, for every 1 (One) equity share of the Remaining Transferor Company of INR 2/- each fully paid up (in exchange of equity shares held in the Remaining Transferor Company). While the calculated Share Swap Ratio based on valuation was 0.5858:1, the recommended ratio is 1:1 to: (a) prevent fractional entitlements for the shareholders; (b) meet the minimum paid-up capital requirement of INR 10 Crore for a listed company under SEBI regulations; and (c) ensure that the economic interests of the existing shareholders of the Demerged Company are preserved without any dilution or modification.
- (c) Since the Remaining Transferor Company is a pure holding company, shareholder economic interest should remain unaffected. To avoid fractional shares and ensure regulatory compliance, the existing capital base of the Remaining Transferor Company is proposed to be maintained. As a result, minority shareholders holding partly paid-up shares would face dilution, for which Identified Employees (*as defined in the Scheme*) will be compensated through issuance of Additional Partly Paid-Up Equity Shares (defined in the Scheme) as detailed in the Scheme.

- (iii) Further, the Transferee Company shall apply for a listing of all its equity shares on Stock Exchanges (as defined in the Scheme) in terms of and in compliance with SEBI Scheme Circular and other relevant provisions as may be applicable.
- (iv) Further, in view of the dilution of shareholding stake of the Existing PPS Holders (*as defined in the Scheme*), pursuant to allotment of the Transferee Company New Equity Shares (*as defined in the Scheme*) to shareholders of the Remaining Transferor Company, the Scheme stipulates that the Transferee Company shall issue Additional Partly Paid-Up Equity Shares (as defined in the Scheme) to the Identified Employees in such proportion as may be required to ensure that the post-Scheme shareholding percentage of the Identified Employees in the Transferee Company remains equivalent to their pre-Scheme shareholding percentage
- (v) The economic interest of all categories of shareholders in Transferee Company remains unchanged and are not affected by the Scheme.

**Notes:**

1. The above unaudited standalone and consolidated financial results of the Company for the quarter and half year ended 30th September 2025 have been reviewed by the Audit Committee and thereafter approved by the Board of Directors at their respective meetings held on 11th November 2025.
2. The Other Income for the half year ended 30th September 2025 on standalone basis, includes dividend received by the Company from Hindware Limited (subsidiary company) amounting to ₹0.49 crore (previous year ₹4.90 crore).
3. In a strategic move to concentrate on its core kitchen appliance business, the Company initiated the discontinuation of certain high-loss product categories viz. air coolers (other than through the e-commerce channel), ceiling and other fans, air purifiers, water purifiers, and furniture fitting (the "Discontinued Product Categories"), a decision formally approved by the Board on 12th August 2025. This led to two financial impacts in the quarter ended 30th June 2025, viz. (i) the recognition of ₹6.00 crore as "Other income" (per Ind AS 116) from an associated warehouse lease termination, and (ii) a provision of ₹49.49 crore as an "Exceptional Item" based on a preliminary assessment of the realisable value of discontinued assets.  
During the quarter ended 30th September 2025, the Company recovered of ₹0.61 crore relating to the Discontinued Product Categories, which has been recorded as an Exceptional Item. Consequently, the net provision for Exceptional Items for the half-year ended 30th September 2025, stand adjusted to ₹48.88 crore. The management does not anticipate further material adverse impact from the final liquidation of assets relating to Discontinued Product Categories.
4. On 27th March 2025, the Board approved a Composite Scheme of Arrangement (the "Scheme") involving the Company, Hindware Limited, and HHIL Limited. The Scheme provides for the demerger of the Company's Consumer Products Business into HHIL Limited and the subsequent amalgamation of the remaining Company with Hindware Limited, with an Appointed Date of 1st April 2025. Pursuant to the approval received from the stock exchanges (BSE and NSE), the Company has filed an application for approval of the Scheme with the Hon'ble Kolkata Bench of the National Company Law Tribunal ("NCLT"). The Scheme is subject to the approval of the shareholders, creditors of the Company and such other necessary approvals as may be required and sanction thereof by the NCLT.
5. The Statutory auditors of the Company have carried out a limited review of the above unaudited results.
6. The previous quarter/period/year figures have been rearranged/regrouped, wherever considered necessary.

2. This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, (Ind AS 34) "Interim Financial Reporting" prescribed under Section 133 of the Companies Act, 2013 as amended, read with Rule 3 of Companies (India Accounting Standards) Rules, 2015 (as amended), and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of the Company personnel and analytical procedures applied to financial data and thus provide less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in all material respects in accordance with the applicable Indian Accounting Standards ('Ind AS') prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other recognised accounting practices and policies generally accepted in India, has not disclosed the information required to be disclosed in terms of the Listing Regulations, including the manner in which it is to be disclosed, or that it contains any material misstatement.

## 7. Rationale of the Scheme

The Demerged Company/Remaining Transferor Company has two distinct business segments:

- (a) Consumer Products Business, engaged in branding and distribution of consumer durables including kitchen appliances, home appliances, water heaters, and online retail through its subsidiaries and joint ventures; and
- (b) Building Products Business, comprising sanitaryware, faucets, tiles, bath fittings, pipes, and related building products, carried through the Transferee Company.

Both the Consumer Products Business and Building Products Business have distinct (a) distribution channels, influencers, competition, challenges and opportunities for its business and products; (b) capital requirements, working capital and associated risk and returns in carrying on their respective business; (c) skill required for manufacturing, technology, installation and customer service and manpower requirements; and (d) strategic and financial investors' interest.

The proposed demerger of the Demerged Undertaking into the Resulting Company and the amalgamation of the Remaining Transferor Company into the Transferee Company will enable:

- (a) unlocking the value in business for shareholders by attracting distinct strategic and financial investors, making it easier to access growth capital for the respective companies, and providing investors with the flexibility to invest in relevant business according to their strategies and risk profiles;
- (b) creation of focused companies, leading to improved management, better visibility on each business's performance, more effective resource allocation for growth, and better risk management; and
- (c) streamlining the corporate structure, resulting in greater operational efficiency and implementing smoother and effective controls and processes.

		the promoters, shareholders (including public shareholders) of the Company before and after the Scheme.
2.	Key Managerial Personnel	The KMPs (as defined under the Act and Rules made thereunder) of the Demerged Company/ Remaining Transferor Company or their relatives (as defined under the Act and Rules made thereunder) do not have any interest in the Scheme, financially or otherwise, except as shareholders or employees of the Demerged/ Remaining Transferor Company.
3.	Creditors	Under the Scheme, no arrangement or compromise is being proposed with the creditors (secured or unsecured) of the Demerged Company/Remaining Transferor Company. The liability of any of the creditors of the Demerged Company/Remaining Transferor Company involved in the Scheme, are neither being reduced nor being extinguished.
4.	Debenture holders, Debenture Trustees, Depositors and Deposit Trustees	The Demerged Company/Remaining Transferor Company, have neither issued any debentures nor taken any public deposits. Hence, there are no debenture holders, debenture trustees, depositors and deposit trustees.

## 9. Share Entitlement Ratio

(a) For purpose of arriving at the recommended Share Entitle Ratio, the Valuation Report was obtained from Ernst & Young Merchant Banking Services LLP ("EYMBs"), a Registered Valuer with registration number IBBI/RV-E/05/2021/155, dated 27 March, 2025. No special valuation difficulties were reported.

(b) Share Entitlement Ratio for Proposed Demerger: The Share Entitlement Ratio for the Proposed Demerger is 1 (One) equity share of the Resulting Company of INR 2/- each fully paid up, for every 1 (One) equity share of the Demerged Company of INR 2/- each fully paid up. This ratio is appropriate since: (a) The Resulting Company is not engaged in any operations; (b) the Demerged Company holds 100% equity shares of the Resulting Company; (c) once the Proposed Scheme is implemented, all shareholders of the Demerged Company would also become shareholders of the Resulting Company, and their shareholding in the Resulting Company would mirror their shareholding in the Demerged Company and (d) the Share Entitlement Ratio would also not result in any fractional entitlement and would not have any impact on the ultimate value of the shareholders of the Demerged Company, and accordingly, the proposed demerger will be value-neutral to the shareholders.

(c) Share Swap Ratio for Proposed Amalgamation: The Share Swap Ratio for the Proposed Amalgamation is 1 (One) equity share of the Transferee Company of INR 2/- each fully paid up, for every 1 (One) equity share of the Remaining Transferor Company of INR 2/- each fully paid up (in exchange of equity shares held in the Remaining Transferor Company). While the calculated Share Swap Ratio based on valuation was 0.5858:1, the recommended ratio is 1:1 to: (a) prevent fractional entitlements for the shareholders; (b) meet the minimum paid-up capital requirement of INR 10 crore for a listed company under SEBI regulations; and (c) ensure that the economic interests of the existing shareholders of the Demerged Company are preserved without any dilution or modification.

(d) As a result, minority shareholders holding partly paid-up shares would face dilution, for which Identified Employees (*as defined in the Scheme*) will be compensated through issuance of Additional Partly Paid-Up Equity Shares (defined in the Scheme), as detailed in the Scheme.

## 7. Rationale of the Scheme

The Demerged Company/Remaining Transferor Company has two distinct business segments:

- (a) Consumer Products Business, engaged in branding and distribution of consumer durables including kitchen appliances, home appliances, water heaters, and online retail through its subsidiaries and joint ventures; and
- (b) Building Products Business, comprising sanitaryware, faucets, tiles, bath fittings, pipes, and related building products, carried through the Transferee Company.

Both the Consumer Products Business and Building Products Business have distinct (a) distribution channels, influencers, competition, challenges and opportunities for its business and products; (b) capital requirements, working capital and associated risk and returns in carrying on their respective business; (c) skill required for manufacturing, technology, installation and customer service and manpower requirements; and (d) strategic and financial investors' interest.

The proposed demerger of the Demerged Undertaking into the Resulting Company and the amalgamation of the Remaining Transferor Company into the Transferee Company will enable:

- (a) unlocking the value in business for shareholders by attracting distinct strategic and financial investors, making it easier to access growth capital for the respective companies, and providing investors with the flexibility to invest in relevant business according to their strategies and risk profiles;
- (b) creation of focused companies, leading to improved management, better visibility on each business's performance, more effective resource allocation for growth, and better risk management; and
- (c) streamlining the corporate structure, resulting in greater operational efficiency and implementing smoother and effective controls and processes.

## 8. Effect of the Scheme on Stakeholders would be as follows:

## **BASIS FOR RECOMMENDATION OF RATIOS**

### **Share Entitlement Ratio: Proposed Demerger**

We understand that as part of the Proposed Scheme, Demerged Undertaking of Demerged Company is proposed to be demerged into Resulting Company. It can be seen that Resulting Company is not engaged in any operations and Demerged Company holds 100% equity shares of Resulting Company. Once the Proposed Scheme is implemented, all the shareholders of Demerged Company would also become shareholders of Resulting Company, and their shareholding in Resulting Company would mirror their shareholding in Demerged Company. The effect of the Proposed Demerger is that each shareholder of Demerged Company becomes the owner of shares in two companies instead of one company. The percentage holding of a shareholder in Demerged Company (post the demerger) and in Resulting Company would remain unchanged from the proportion of capital held by such shareholder in Demerged Company. This will also result in no fractional entitlement for the shareholders.

Hence, Share Entitlement Ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the shareholders of Demerged Company. Further, as stated in SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated 20 June 2023, valuation is not required in cases where there is no change in shareholding pattern in the resultant company. Therefore, we have not carried out the valuation of Resulting Company or the Demerged Undertaking. Accordingly, the valuation under the valuation approached mentioned in the format prescribed under BSE Circular No. LIST/COMP/02/2017-18 dated 29 May 2017 and NSE Circular No. NSE/CML/2017/12 dated 01 June 2017 are not applicable in the given case.

*< page has been left blank intentionally >*

### Share Entitlement Ratio: Proposed Demerger

Valuation Approach	Demerged Undertaking of Demerged Company		Resulting Company	
	Value per Share of Demerged Company attributable to the Demerged Undertaking (INR)	Weight	Value per Share of Resulting Company (INR)	Weight
Asset Approach	NA	NA	NA	NA
Income Approach	NA	NA	NA	NA
Market Approach	NA	NA	NA	NA
<b>Value per Share</b>	NA	NA	NA	NA
Exchange ratio for Proposed Demerger			NA	

Based on the above, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder before and after the Proposed Demerger would remain the same.

Keeping the same in view, a share entitlement ratio of 1 (One) equity share of Resulting Company for 1 (One) equity share of Demerged Company would be appropriate.

### Share Swap Ratio: Proposed Amalgamation

Pursuant to the Proposed Demerger, Remaining Transferor Company shall amalgamate into Transferee Company. As a result, the equity shares held by Remaining Transferor Company in the share capital of the Transferee Company shall stand cancelled and in consideration Transferee Company will issue its equity shares directly to the shareholders of Remaining Transferor Company.

Further, we have been represented that, post Proposed Demerger, Remaining Transferor Company (i.e., Hindware Home Innovation Limited post Proposed Demerger) would only consist of investment in Transferee Company. As per the shareholding structure as at the Valuation Date, Remaining Transferor Company would hold 98.6% ownership in Transferee Company and the remaining 1.4% would be held by Identified Employees (considering that the partly paid shares are fully exercised).

We have independently applied appropriate approaches / methods to arrive at the value of Remaining Transferor Company and Transferee Company. Refer Annexure A and Annexure B for details.

Valuation Approach	Remaining Transferor Company		Transferee Company	
	Value (INR mn)	Weight	Value (INR mn)	Weight
Asset Approach	4,861	20%	4,861	20%
Income Approach	N.A	N.A	N.A	N.A
Market Approach	16,386	80%	16,386	80%
<b>Total Equity Value</b>	<b>14,081</b>	<b>100%</b>	<b>14,081</b>	<b>100%</b>
<b>Value proportion against value of Transferee Company</b>	Equity value of Remaining Transferor Company is fully derived from equity value of Transferee Company			
<b>Number of shares (in mn)</b>	83.6		49.0	
<b>Value per share (INR)</b>	168.3345		287.3585	
<b>Share Swap Ratio</b>	0.5858:1			

N.A.: Not Applicable

The above share swap ratio will lead to fractional entitlement for the shareholders. Further, as per the aforementioned share swap ratio, Transferee Company shall issue 49,000,000 shares of a face value of INR 2 each aggregating to INR 98.0 mn. As a result, Transferee Company would not be able to meet the minimum paid-up capital requirement of INR 100 mn, as mandated for a listed company under SEBI regulations for IPO.

The Remaining Transferor Company is purely a holding company of Transferee Company, and the economic beneficial interest of the shareholders of the Remaining Transferor Company should remain unaffected following the proposed amalgamation. In order to ensure compliance with the SEBI regulations, and to prevent the issuance of fractional shares to the existing shareholders of Demerged Company, it is proposed that the existing capital base of Remaining Transferor Company be maintained. This approach will ensure that the economic interests of the existing shareholders of Demerged Company are preserved, without any dilution or modification in their entitlements.

Owing to the above, the minority shareholders of Transferee Company, holding partly paid-up shares, would get diluted. As mentioned in the Proposed Scheme, Transferee Company shall issue additional partly paid-up equity shares to Identified Employees to compensate them for any dilution.

Therefore, the Proposed Amalgamation would be value-neutral to the shareholders of Remaining Transferor Company and Identified Employees.

While we have provided our recommendation of the Share Swap Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the same. The final responsibility for the determination of the Share Swap Ratio at which the Proposed Amalgamation shall take place will be with the Board of Directors of the respective companies who should take into account other factors such as their own assessment of the Proposed Amalgamation and input of other advisors.

## **CONCLUSION**

In light of the above and on consideration of all relevant factors and circumstances, we recommend the following Ratios:

### **Share Entitlement Ratio for Proposed Demerger:**

**1 (One) equity shares of Resulting Company of INR 2/- each fully paid up, for every 1 (One) equity shares of Demerged Company of INR 2/- each fully paid up (in addition to, not in exchange of equity shares held in Demerged Company).**

### **Share Swap Ratio for Proposed Amalgamation:**

**1 (One) equity shares of Transferee Company of INR 2/- each fully paid up, for every 1 (One) equity shares of Remaining Transferor Company of INR 2/- each fully paid up (in exchange of equity shares held in Remaining Transferor Company).**

It should be noted that we have not examined any other matter including economic rationale for the Proposed Transaction per se or accounting, legal or tax matters involved in the Proposed Transaction.

## Annexures

### Annexure A: Computation of Equity Value of Transferee Company using Market Approach and Net Asset Approach

**Market Approach:** Within Market Approach, Market Price (MP) Method has been used to arrive at the value of Transferee Company. Under this method, value of shares of a company is determined by taking the average market capitalization of equity shares of the company under consideration.

While the shares of transferee Company are not publicly listed, the shares of Demerged Company (its parent co.) are listed on Bombay Stock Exchange and National Stock Exchange. Further, majority of the operations of Demerged Company are performed via Transferee Company. Therefore, the share price of Demerged Company has been considered as an input for computing the equity value of Transferee Company. Given that Demerged Company also comprises of the Consumer Products Business (which is operated outside of Transferee Company), an adjustment has been made to the market cap of Transferee Company to account for the value of Consumer Products Business.

In order to compute the equity value of the Transferee Company, the volume weighted average price of Hindware Home Innovation Limited has been considered as per SEBI ICDR regulations, (notification no. SEBI/LAD-NRO/GN/2022/63 dated 14 January 2022). As observed below, volume weighted average price of 90 days has been considered, as that is higher. Thereafter, 85% of the market capitalisation is considered based on the sales contribution of the Building Products Business (Transferee Company) over the last two years.

In addition, we have obtained information from public sources/proprietary databases.

During discussions with the Management, we have also obtained explanations, information and representations, which we believed were reasonably necessary and relevant for our exercise.

We have relied on the above while arriving at our opinion on Proposed Transaction.

## APPROACH AND METHODOLOGY

The independent valuer has utilized the Market Approach and the Net Asset Approach to assess the value of the transferee company. As part of our review process for the fairness opinion, we have conducted a thorough sanity check on the valuation calculations to ensure their reasonableness and consistency. An extract of the key valuation computations, along with relevant details, is attached below for reference.

**Market Approach:** Within Market Approach, the Market Price (MP) Method has been used to arrive at the value of Transferee Company. Under this method, value of shares of a company is determined by taking the average market capitalization of equity shares of the company under consideration.

<b>Price considered (INR)</b>	<b>230.5</b>	<b>A</b>
Shares in Mn	83.6	B
<b>M-cap in INR Mn</b>	<b>19,277</b>	<b>C = A * B</b>
Adjustment for Consumer Prod. Biz	85%	(D)
<b>Implied M-Cap</b>	<b>16,386</b>	<b>E = D * C</b>
Number of equity shares (Mn)	49.0	F
<b>Value per equity share (INR)</b>	<b>334.40</b>	<b>G = E / F</b>

**Asset Approach:** Under this approach, the net asset value method is considered, which is based on the underlying value of assets and liabilities. The audited balance sheet as at 31<sup>st</sup> December 2024 has been considered for computing the net asset value of Transferee Company.

The Management has represented that there are no significant changes in business operations and financial position of Transferee Company from the audited financials as of 31<sup>st</sup> December 2024 provided till fairness opinion report date.

Particulars (INR Mn)	Notes	INR Mn
Enterprise Value as per Net Asset Value method	1	12,631
Less: Net Debt	2	(7,770.00)
<b>Equity Value</b>		<b>4861.00</b>
Number of equity shares (Mn)		49
<b>Value per equity share (INR)</b>		<b>99.20</b>

**Notes:**

1. Enterprise value based on the audited standalone balance sheet of Transferee Company as at 31<sup>st</sup> December 2024
2. Net Debt = Debt (incl. capital creditors and interest accrued but not due on borrowings) less Cash and Cash Equivalents as at 31<sup>st</sup> December 2024.

**Computation of Equity Value of Remaining Transferor Company using both Market Approach and Net Asset Approach**

For Remaining Transferor Company	INR Mn	Note
Equity Value as per Market Approach	16,386	
Equity Value as per Net Asset Value method	4,861	100% * Equity Value of Transferee Company

## **BASIS FOR FAIRENESS OPINION ON RECOMMENDED RATIOS**

### **Share Entitlement Ratio: Proposed Demerger**

We understand that as part of the Proposed Scheme, Demerged Undertaking of Demerged Company is proposed to be demerged into Resulting Company. It can be seen that Resulting Company is not engaged in any operations and Demerged Company holds 100% equity shares of Resulting Company. Once the Proposed Scheme is implemented, all the shareholders of Demerged Company would also become shareholders of Resulting Company, and their shareholding in Resulting Company would mirror their shareholding in Demerged Company. The effect of the Proposed Demerger is that each shareholder of Demerged Company becomes the owner of shares in two companies instead of one company. The percentage holding of a shareholder in Demerged Company (post the demerger) and in Resulting Company would remain unchanged from the proportion of capital held by such shareholder in Demerged Company. This will also result in no fractional entitlement for the shareholders.

Hence, Share Entitlement Ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the shareholders of Demerged Company.

Further, as stated in SEBI Master Circular SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated 20 June 2023, valuation is not required in cases where there is no change in shareholding pattern in the resultant company.

*Keeping the same in view, a **share entitlement ratio of 1 (One) equity share of Resulting Company for 1 (One) equity share of Demerged Company** would be appropriate.*

### **Share Swap Ratio: Proposed Amalgamation**

Pursuant to the Proposed Transaction, pursuant to Proposed Demerger, Remaining Transferor Company shall amalgamate into Transferee Company.

As a result, the equity shares held by the Remaining Transferor Company in the share capital of Transferee Company shall stand cancelled and in consideration Transferee Company will issue its equity shares directly to the shareholders of Remaining Transferor Company.

Further, after Proposed Demerger, Remaining Transferor would only consist of investment in Transferee Company. As per the shareholding structure as at Fairness Opinion Date, Remaining Transferor Company would hold 98.6% ownership in Transferee Company and the remaining 1.4% would be held by identified Employees (considering that the partly paid shares are fully exercised).

<b>Valuation Approach</b>	<b>Remaining Transferor Company</b>		<b>Transferee Company</b>	
	<b>Value (INR Mn)</b>	<b>Weight</b>	<b>Value (INR Mn)</b>	<b>Weight</b>
<b>Asset Approach</b>	<b>4,861</b>	<b>20%</b>	<b>4,861</b>	<b>20%</b>
<b>Income Approach</b>	<b>N.A</b>	<b>N.A</b>	<b>N.A</b>	<b>N.A</b>
<b>Market Approach</b>	<b>16,386</b>	<b>80%</b>	<b>16,386</b>	<b>80%</b>
<b>Total Value</b>	<b>14,081</b>	<b>100%</b>	<b>14,081</b>	<b>100%</b>
<b>Value proportion against value of Transferee Company</b>	<b>Equity Value of Remaining Transferor Company is fully derived from equity value of Transferee Company</b>			
<b>Number of shares (in Mn)</b>	<b>83.6</b>		<b>49.0</b>	

Valuation Approach	Remaining Transferor Company		Transferee Company	
	Value (INR Mn)	Weight	Value (INR Mn)	Weight
Value per share (INR)	168.3345		287.3585	
Share Swap Ratio		0.5858:1		

The above share swap ratio will lead to fractional entitlement for the shareholders. Further, as per the aforementioned share swap ratio, Transferee Company shall issue **49,000,000** shares of a face value of **INR 2 each** aggregating to **INR 98.0 Mn**. As a result, Transferee Company would not be able to meet the minimum paid-up capital requirement of **INR 100 Mn**, as mandated for a listed company under SEBI regulations for IPO.

The Remaining Transferor Company is purely a holding company of Transferee Company, and the economic beneficial interest of the shareholders of the Remaining Transferor Company should remain unaffected following the proposed amalgamation. In order to ensure compliance with the SEBI regulations, and to prevent the issuance of fractional shares to the existing shareholders of Demerged Company, it is proposed that the existing capital base of Remaining Transferor Company be maintained. This approach will ensure that the economic interests of the existing shareholders of Demerged Company are preserved, without any dilution or modification in their entitlements.

Owing to the above, the minority shareholders of Transferee Company, holding partly paid-up shares, would get diluted. As mentioned in the Proposed Scheme, Transferee Company shall issue additional partly paid-up equity shares to Identified Employees to compensate them for any dilution. Therefore, the Proposed Amalgamation

#### Share Entitlement Ratio for Proposed Demerger:

**1 (One) equity shares of Resulting Company of INR 2/- each fully paid up, for every 1 (One) equity shares of Demerged Company of INR 2/- each fully paid up (in addition to, not in exchange of equity shares held in Demerged Company).**

#### Share Swap Ratio for Proposed Amalgamation:

**1 (One) equity shares of Transferee Company of INR 2/- each fully paid up, for every 1 (One) equity shares of Remaining Transferor Company of INR 2/- each fully paid up (in exchange of equity shares held in Remaining Transferor Company).**

It should be noted that we have not examined any other matter including economic rationale for the Proposed Transaction per se or accounting, legal or tax matters involved in the Proposed Transaction.

*"Subject to the above read with the caveats as detailed later, we as a Merchant Banker hereby certify that pursuant to SEBI Master Circular no. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, we have reviewed the proposed Scheme, the Valuation Report dated 27<sup>th</sup> March 2025 of Ernst & Young Merchant Banking Services LLP with respect to the share exchange ratio aspects and consider it to be fair and reasonable".*

### **CASE SUMMARY OF TAX LITIGATION AGAINST THE SOMANY IMPRESA LIMITED**

S.No.	Court/Tribunal	Parties	Brief Summary
1	Commissioner of Income-tax (Appeals)	Somany Impresa Limited filed Appeal against Assessment Order pertaining to AY 2017-2018	<p>The assessee company (Somany Impresa Limited) filed its return of income on 31/10/2017 declaring INR.98,68,980 for AY 2017-18. The case was selected for Limited Scrutiny restricted to three issues: (1) capital gain/loss u/s 111A, (2) share capital, and (3) expenses incurred for earning exempt income. Notices u/s 143(2) and 142(1) were duly complied with by the assessee, providing all required details.</p> <p>However, the Assessing Officer (AO) went beyond the scope of limited scrutiny without any documented approval and started examining matters related to amalgamation effective from 01/04/2017, which pertains to AY 2018-19. The AO incorrectly mixed the issue of bonus shares issued during the current year with amalgamation and invoked Section 56(viia) of the Income Tax Act, which applies to receipt of shares, not issuance. Based on this misinterpretation, the AO calculated FMV for compulsory convertible preference shares and added INR.52,49,53,270 as income under Section 56(viia), treating it as business income.</p> <p>The assessee has filed appeal against Assessment order and contends that the assessment order u/s 143(3) is illegal, erroneous, and contrary to law. Grounds of appeal include jurisdictional error for exceeding limited scrutiny scope, wrong application of Section 56(viia), and incorrect assumption of amalgamation date as 01/01/2017 instead of 01/04/2017. The assessee seeks to quash the assessment order and delete the unjustified addition of INR.52.49 crore. The matter is pending with the CIT(A).</p>

### **CASE SUMMARY OF OTHER MATERIAL REGULATORY MATTERS AGAINST THE HL**

<b>S. No.</b>	<b>COURT/TRIBUNAL</b>	<b>PARTIES</b>	<b>BRIEF SUMMARY</b>
1	Supreme Court	Transmission Corporation of A.P. Ltd. & Ors. Vs. Hindware Limited	The Transferee Company (“Petitioner”) established an industrial unit at Somanyapuram, Brahmanapalli Village, Bibinagar Mandal, Yadadri Bhongir District, Telangana State, engaged in the manufacture of ceramic sanitary ware. Petitioner obtained an H.T. Service Connection bearing No. YDD082 from TSSPDCL (Telangana State Southern Power Distribution Company Limited) at a connected voltage level of 11 KV. The Petitioner purchased 1,34,000 shares of Andhra Pradesh Gas Power

		<p>Corporation Limited (“APGPCL”) from GMR Technologies &amp; Industrial Limited for an amount of INR 1,95,00,000 on October 19, 2002. A Memorandum of Understanding (“MOU-I”) was executed among APGCL, the erstwhile Andhra Pradesh State Electricity Board (“APSEB”), and the shareholders of APGPCL for the establishment of a 100 MW gas-based generating plant under Stage I. Subsequently, a separate Memorandum of Understanding (“MOU-II”) was entered into for Stage II, pertaining to the establishment of a 172 MW gas-based generating plant. Following the enactment of the A.P. Electricity Reforms Act, 1998, the Transmission Corporation of Andhra Pradesh (“APTRANSCO”) was substituted for the APSEB, resulting in the latter's dissolution. The Petitioner contends that they have been adversely affected by the revised billing issued by APTRANSCO in relation to the MOUs executed. These revised bills were issued without prior notice, wherein APTRANSCO has treated the surplus power as appropriated and has billed the Petitioner at its tariff rates. W.P. No 9160 of 2004 was filed against the impugned demand arising from the revised bills given whereby the allocation of surplus power by APGPCL from Stage II under clause 2.6 of MOU-II was not considered. The Learned Single Judge of the Hon’ble High Court passed order party allowing the writ petitions and inter-alia held that the participating industries have no claim on the surplus power in view of Clause 17(a) of MOU-I; however, the participating industries have preference over the surplus power at the rate to be determined between APTRANSCO and APCGPCL. The Petitioner, aggrieved by the Common Order dated December 6, 2004, filed W.A. No. 2153 of 2004 against it. In this matter, the Division Bench of the Hon’ble High Court of Telangana (W.P. Nos. 2153 of 2004) held that APTRANSCO was authorized, pursuant to Clause 11 of MOU-I and Clause 3.2 of MOU-II, to issue revised bills concerning surplus energy supplied by APGPCL to participating industries under Stage II. Furthermore, the Court determined that APTRANSCO is entitled to charge the tariff for such energy in accordance with Clause 11 of MOU-I and Clause 3.2 of MOU-II, thereby modifying the Common Order dated December 6, 2004, of the Learned Single Judge to that extent. The Petitioner, aggrieved by the Common Final Judgment and Order dated August 16, 2023, issued by the Division Bench</p>
--	--	--

			<p>of the Hon'ble High Court of Judicature for the State of Telangana at Hyderabad, has filed a Special Leave to Appeal in the Hon'ble Supreme Court of India. This appeal pertains to the Common Final Judgment and Order dated August 16, 2023, rendered in W.A. Nos. 2153 of 2004 by the Division Bench of the Hon'ble High Court of Telangana. The matter is pending and amount involved in present case is INR 7,59,15,146 (Indian Rupees Seven Crore Fifty-Nine Lakh Fifteen Thousand One Hundred Forty-Six Only).</p> <p>Considering that the Transferee Company will be one of the surviving entities pursuant to the Scheme, the aforesaid proceedings will continue against the Transferee Company and will not be transferred under the Scheme.</p>
2	Telangana High Court	Andhra Pradesh Gas Power Corporation Limited vs. Hindware Limited (Formerly HSIL Limited)	<p>Hindware Limited (formerly HSIL Limited) transferred its Building Products Division to Hindware under a Business Transfer Agreement dated 04.03.2022, effective 31.03.2022. HSIL was earlier a shareholder of Andhra Pradesh Gas Power Corporation Ltd. (APGPCL) and consumed power under Memoranda of Understanding with APGPCL and AP Transco. The Supreme Court judgment dated 29.11.2019 upheld APERC's jurisdiction to fix wheeling charges, reversing earlier High Court orders. Consequently, AP Power Coordination Committee invoked a bank guarantee of ₹103.20 crores furnished by APGPCL, leading to litigation (W.P. No. 104/2019) still pending before the Andhra Pradesh High Court. Despite Hindware not availing power from APGPCL currently, the company received a notice dated 01.07.2020 from TSSPDCL demanding ₹3,82,36,354/- towards differential wheeling charges as per APERC tariff orders, threatening recovery through monthly bills. Hindware asserts that it has no statutory liability for these charges, as the obligation rests with APGPCL. To safeguard its interests, Hindware filed W.P. No. 13807/2020 before the Telangana High Court challenging the demand notice and obtained interim relief on 26.08.2020. Further, Hindware has sought impleadment as Respondent No. 7 in W.P. No. 104/2019 before the Andhra Pradesh High Court to ensure that liabilities arising from disputes between APGPCL and AP Power Coordination Committee are not imposed on the company. The matter is subjudice.</p> <p>Considering that the Transferee Company will be one of the surviving entities pursuant to the</p>

			Scheme, the aforesaid proceedings will continue against the Transferee Company and will not be transferred under the Scheme.

<b>S. No.</b>	<b>COURT/TRIBUNAL</b>	<b>PARTIES</b>	<b>BRIEF SUMMARY</b>

AVATO Class-II vs. Hindware Limited	For FY 2004–05 to FY 2017–18, various assessment proceedings (In Counts "9") are pending before the Special Commissioner / Additional Commissioner (VATO) under the Delhi VAT Act. The matters pertain to non-submission of C-Forms and mismatch of Input Tax Credit (ITC). Each financial year is being adjudicated separately. The total disputed demand amounts to approximately INR. 2,72,19,433/-. The cases are pending for adjudication before the higher authority.
2	Adjudication pending before the AVTO-Class II	AVATO Class-II vs. Hindware Limited	In August 2025, a Notice was received from the State VAT Officer, Delhi, demanding payment of tax for various assessment years from 2007–08 to 2013–14. The notice directs the company to deposit the demanded amount, failing which the tax liability shall be treated as finalized and recoverable. The company is in the process of evaluating the notice and preparing an appropriate response for further action. The Amount involved is INR. 3,68,75,000/-
3	Adjudication pending before the Ghaziabad VAT Authorities, Uttar Pradesh.	VAT Officer, Ghaziabad vs. Hindware Limited	For FY 2016–17, adjudication is pending before the Ghaziabad VAT Authorities under the Uttar Pradesh VAT Act, 2008, in connection with the non-submission of C & F Forms. The company has submitted a detailed reply, clarifying that all relevant C & F Forms were duly furnished, but the department did not consider them while framing the assessment. The matter is awaiting final adjudication. The Amount Involved is INR. 3,49,19,108/-.
4	State Tax Officer of Gujarat Tax.	State Tax officer, Ghatak-21, Ahmedabad, Gujarat vs. Hindware Limited	the State GST Department issued a Show Cause Notice (SCN) under Section 73 of the CGST/GGST Act dated 09.04.2024 for FY 2019–20, alleging non-payment of GST on transfer of land and raising a demand of INR. 2,89,51,528. The company challenged this demand before the Hon'ble Gujarat High Court, which delivered its judgment in January 2025 in favour of the company, holding that the transaction was not liable to GST. Subsequently, the GST Department has filed a Special Leave Petition (SLP) before the Hon'ble Supreme Court, which is pending adjudication.
5	Joint Commissioner of Central Tax.	Joint Commissioner of Central Tax,	A Show Cause Notice (SCN) under Section 74 of the CGST Act was issued by the Joint

		Vadodara-II vs. Hindware Limited	<p>Commissioner of Central Tax on 30.09.2025 for FY 2019–20, alleging liability to pay GST on the sale of land, with a proposed demand of INR.6,52,75,458. The company has submitted a detailed written reply, contending that the SCN is invalid on multiple legal grounds, including lack of jurisdiction, bar of limitation, and contradiction to binding judicial precedents.</p>
6	Commissioner of Income-tax (Appeals)	Hindware Limited filed Appeal against Assessment Order dated 27.09.2022	<p>The assessee company (Transferee Company) filed its return of income for Assessment Year 2020-21 on 15.02.2021, declaring a total income of INR.71,67,76,450/- . The return was processed under section 143(1) of the Income Tax Act, and an intimation was issued on 20.12.2021 wherein certain adjustments were made for the following items:</p> <p>Disallowance of gratuity payment – INR.1,22,71,861/- ICDS adjustment – INR.7,50,49,400/- Delay in depositing employees' PF – INR.72,108/-</p> <p>Upon receipt of the intimation, the assessee applied for rectification but was informed that the case was under scrutiny and the rectification would be handled by the Jurisdictional Assessing Officer (JAO). During the scrutiny proceedings, the assessee reiterated these facts and requested that the adjustments made in the intimation be addressed while passing the order under section 143(3).</p> <p>The assessment order under section 143(3) was subsequently passed, wherein the AO specifically stated (vide para 3.1.3 and 4) that no variation to the returned income was proposed. However, while computing the assessed income, the AO erroneously adopted the income as per the intimation (INR.80,41,69,820/-) instead of the returned income (INR.71,67,76,450/-). This resulted in an incorrect assessment, inherently carrying wrong adjustments aggregating to INR.8,73,93,369/- comprising the three items mentioned above, despite the matter being resolved during assessment.</p> <p>The Transferee Company filed the appeal on the following grounds:</p> <p><b>1. Section 143(3) – Wrong Assessment</b> The learned AO erred in not adopting the computation of income as per the return of INR.71,67,76,450/- and instead wrongly</p>

		<p>proceeded on the basis of income determined in the intimation under section 143(1) amounting to INR.80,41,69,820/- . This resulted in an unjustified assessment, contrary to the AO's own finding that no variation to the returned income was proposed. The error led to an inbuilt wrong adjustment of INR.8,73,93,369/- on account of three items as per the intimation.</p> <p><b>2. Section 40A(7)/145A – Wrong Computation</b></p> <p>Without prejudice to the above, the AO grossly erred in not reducing INR.1,22,71,861/- being the provision for gratuity (which remains paid) and INR.7,50,49,400/- as ICDS adjustment, which ought to have been considered while making the scrutiny assessment. The Appeal is pending.</p>

#### INTERNAL RISK FACTORS

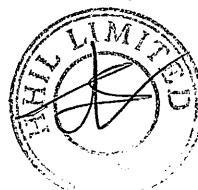

The below mentioned risks are the risk factors:

**1. Our dependence on suppliers and fluctuations in freight rates may adversely affect our business, operations, and financial condition.**

We will be dependent on various suppliers, both domestic and international, for the procurement of goods for trading and raw materials. Any disruption at the supplier's end, including operational issues, regulatory restrictions, import bans, or delays in obtaining necessary clearances, could adversely affect our ability to procure these goods in a timely manner. Any increase in freight costs or restrictions on imports could lead to higher procurement costs or delays in product availability, which may negatively impact our business operations, profitability, and overall performance.

**2. Risk of Product Defects, Warranty Claims and Customer Service Issues**

Our business may be adversely affected by risks arising from product defects, warranty obligations, product recalls and customer service-related issues. Any defects in our products could result in significant warranty claims, require us to undertake corrective actions or product recalls, and may negatively impact customer confidence in our brand. Further, any failure to maintain consistent

product quality or provide effective customer service may result in customer dissatisfaction, loss of business, damage to our market reputation and a shift of customers to competitors.

**3. *We face competition in our business from domestic & international competitors. Such competition would have an adverse impact on our business and financial performance.***

The industry, in which we will be operating, is highly and increasingly competitive and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations.

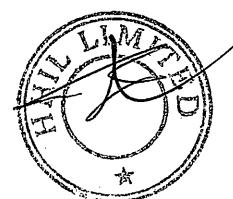

**4. *Our inability to maintain an optimal level of inventory may impact our operations adversely.***

We estimate our sales based on the forecast, demand and requirements. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively and to maintain a full range of products at our stores. We may not be able to procure an alternate source of supply of products in time to meet the demands of our customers, or we may not be able to procure products of equal quality or on equally competitive terms, or at all. Such disruption to supply would materially and adversely affect our business, profitability and reputation.

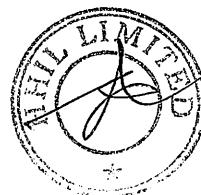

**5. *Our insurance coverage may not be sufficient or may not adequately protecting us against all material hazards, which may adversely affect our business, results of operations, financial condition and cash flows.***

We are exposed to various risks inherent in our operations, including potential losses from fire, burglary, accidental damages, and cyber-attacks, as well as claims arising from accidents or injuries sustained by employees or third parties on our premises. Difficulties, delays, or rejections in recovering insured losses, or any loss exceeding our coverage, could significantly and adversely affect our results of operations, cash flows, and financial performance.

### INTERNAL RISK FACTORS

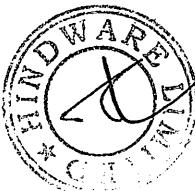

- 1) **Our inability to manage our operations, production and supply chain may adversely affect our business.** - Our operations are significantly exposed to Production and Supply Chain Risks, stemming primarily from the potential inability to secure a sufficient, timely, and consistent supply of key raw materials (like cement, steel, or wood) at competitive prices, especially given our dependence on a limited number of or single-source suppliers, which could lead to production halts or cost increases.
- 2) **Our international operations expose us to economic, regulatory, social and political risks, any of which could have an adverse effect on our business, results of operations and financial condition.** - Operating internationally subjects us to substantial risks, including the onerous and costly requirement to comply with complex and continually amended local business, environmental, safety, and corporate laws.
- 3) **Our dependence on suppliers, import restrictions, and fluctuations in freight rates may adversely affect our business, operations, and financial condition.** - Any increase in freight costs or restrictions on imports could lead to higher procurement costs or delays in product availability, which may negatively impact our business operations, profitability, and overall performance.
- 4) **We rely heavily on our brands and negative publicity, or dilution of these brands could adversely affect our business, results of operations and financial condition.** - Any damage to our brands or reputation could arise from various events, including litigation, employee misconduct, operational failures, regulatory investigations, press speculation, or negative publicity whether founded or unfounded.
- 5) **Our inability to service our debt in a timely manner may have an adverse effect on our results of operations and financial condition.** - Our inability to service our debt on time may have other consequences for our business results & operations, requiring us to dedicate a portion of its cash flow from operations to servicing the indebtedness, limiting our ability to borrow additional amounts and materially impacting the Company's ability to invest in future growth opportunities.
