MRF is ranked among the worlds' top 20 Tyre Manufacturers and 2018 marks the year where the company enters the 31st year of its leadership of the Indian Tyre industry.

In the last fiscal, the introduction of the landmark Goods and Services Tax (GST) brought in some uncertainties as businesses adjusted to the new tax regime. However a good monsoon resulted in a healthy upswing in the agrarian economy and stoked a recovery in rural demand. Heavy spending on infrastructure by the government helped support long-term growth.

The Indian Automotive sector clocked significant growth in the 2018 fiscal, buoyed by healthy volume growth across segments. The Commercial Vehicle category witnessed robust growth, especially during the second half of the last financial year, which augurs well for the Tyre industry.

Escalation in the cost of crude based inputs remains a concern and will add pressure to the bottom-line. At the same time the competitive intensity in the industry continues to remain at fever-pitch due to anticipated 'on-streaming' of several Greenfield and Brownfield capacities by many players in the months ahead.
