Lloyds Engineering Works' Subsidiary Techno Industries Secures ₹19.58 Crore Escalator & AMC Order from Mumbai Railway Vikas Corporation Limited

Signalling a strong and strategic foray into the high-growth railway sector

Lloyds Engineering Works Limited (LEWL) announces that its 88%-owned subsidiary, Techno Industries Pvt. Ltd. (TI), has secured a **₹19.58 crore** order from **Mumbai Railway Vikas Corporation Limited**. The contract covers the **design, manufacturing, supply, installation, testing, commissioning, and maintenance of escalators**.

With this award, TI's confirmed order book now stands at ₹82.86 crore. The Indian Railways sector offers vast and sustained growth opportunities, and this order serves as a significant entry point for TI to establish a strong, long-term presence in this high-potential Railway sector.

The contract, secured outside Gujarat, also reflects the company's strategic focus on broadening its geographical footprint, scaling its escalator and AMC businesses, and tapping into India's expanding institutional infrastructure sector.

This win marks early execution of LEWL's multi-pronged growth strategy for TI—expansion into tier-2/3 markets, diversification into industrial elevators, parking systems, and export markets, and scaling its motors and pumps verticals. Well positioned to capture the rising demand for elevators, escalators, motors, and pumps, TI is fully geared to meet this demand effectively, supported by strong market fundamentals and execution capabilities.
