Disclaimer

CARE's ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE's ratings do not convey suitability or price for the investor. CARE's ratings do not constitute an audit on the rated entity. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE or its subsidiaries/associates may also have other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is, inter-alia, based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors. CARE is not responsible for any errors and states that it has no financial liability whatsoever to the users of CARE's rating.

CARE's ratings do not factor in any rating related trigger clauses as per the terms of the facility/instrument, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and if triggered, the ratings may see volatility and sharp downgrades.

Total Facilities (1.A+2.A) : Rs.40.00 crore

CARE Ratings Ltd.

holding company of APCL. Other notable companies of the group include South India Corporation Private Limited (SICPL, rated 'CARE A; Stable/CARE A1') and Chettinad Logistics Private Limited (CLPL, rated 'CARE A; Stable/CARE A1'). In the past, APCL has received support from its group entities in the form of Inter Corporate Deposits (ICD) and corporate guarantee to its bank facilities from CCCL.

Experienced promoter and synergies of operations between CCCL and APCL

CCCL, the promoter of APCL, was incorporated in the year 1962 and has been in operation for more than five decades with presence across all five southern states and Maharashtra. CCCL owns and operates six cement manufacturing plants with an aggregate installed capacity of 15.5 MTPA (million tons per annum) as on March 31, 2020. CCCL holds 75% stake in APCL and both the companies are in similar line of business. APCL majorly operates in Andhra Pradesh and Telangana, which provides geographic diversification benefits for the holding company CCCL.

With capacity utilization of APCL reaching close to 90% (85% in FY19) and with a view to build one more brand at the group level, APCL started trading of cement since July 2018; wherein, APCL procures cement from CCCL and sells it under "Anjani" brand in Tamil Nadu and Kerala. It is worthwhile to note that in respect of these sales, APCL is adding distributors/dealers on its own and not through CCCL. Similarly, CCCL also procures cement manufactured from APCL and sells it on its own brand name in the states of Andhra Pradesh and Telangana. In addition to trading and management guidance from the promoter, APCL also benefits better terms from suppliers and lenders as being part of Chettinad group.

Integrated nature of operations with presence of captive power plants and limestone mines

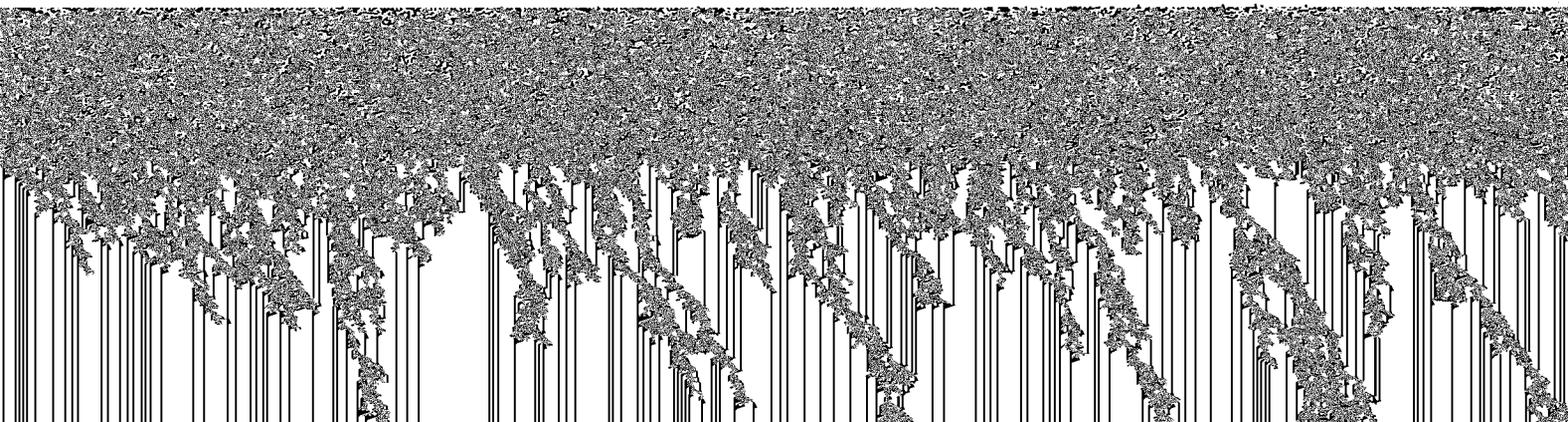

APCL sources limestone (major raw material which constitutes nearly 60% of total raw material cost) from its three captive mines, located within 2-8 km radius from the cement plant. Such backward integration with limestone reserves ensures uninterrupted supply of quality limestone and is expected to provide operational efficiency.

In January 2017, APCL commissioned a 16 MW captive thermal power plant (CPP), with most of APCL's power requirement being met through this CPP. Around 95% of the company's total power requirement during FY20 was met from CPP. The presence of captive power capacity has enabled the company to be self-sufficient to cater to its power requirements.

Comfortable financial risk profile characterized by nil bank debt

The company has exhibited continuous improvement in the capital structure during the last 3 years ended March 31, 2020. Overall gearing improved from 0.33x as on March 31, 2017 to 0.01x as on March 31, 2020. Since March 31, 2019, the company has nil long-term borrowings from banks and only occasional utilization of its working capital limits. As on March 31, 2020, long-term debt stood in the form of lease liabilities of Rs.2 crore. Similarly, the company's debt metrics and coverage indicators have improved continuously in the last 3 years. Total debt/GCA improved from 0.76 years for FY18 to 0.03 years for FY20, while interest coverage improved from 9.66x in FY18 to 440.00x in FY20. The company has sufficient gearing headroom and financial flexibility, to raise debt for any capex plans.

Continuous improvement in the financial position of the company for past three years ended March 2020 and relatively stable cash accruals

in FY19. The net cement sales realization (after freight costs) improved 6% y-o-y. From cement trading, the company's sales volume increased 26% y-o-y to 0.22 million tonnes in FY20.

During FY20, APCL reported PAT of Rs.40 crore on a total income of Rs.413 crore as against PAT of Rs.23 crore on a total income of Rs.438 crore for FY19. Overall sales volume (manufactured + traded) of the company decreased 9% y-o-y to 1.05 million tonnes from 1.16 million tonnes in FY19. PBILDT

1.22 crore in FY20 as against 1.16 crore in FY19, driven by higher

announce a nation-wide lockdown, 25th March 2020 onwards also affected the domestic cement production during FY20 and during current year. Cement production has fallen by 25.1% during H1FY21. The macros of the cement industry seem strong in the long term even though now it is riddled with the COVID-19 pandemic and issues associated with it. The industry could benefit with the pent up demand phenomena as the economy has been on an unlock mode but on the flipside as the second wave of the contagion is hitting the economy, this could be a detriment to the entire demand-supply of the industry.

Liquidity: Strong

Liquidity is marked by healthy accruals against nil bank term obligations for FY21. Current lease obligations for FY21 stand at Rs.0.42 crore. Further, the company's total cash & bank balance (lien-free) stood at Rs.107.81 crore as on September 30, 2020 (with majority being in the form of term deposits with banks), as against Rs.25.55 crore as on March 31, 2019 and Rs.65.39 crore as on March 31, 2020. The company has sanctioned working capital limit of Rs.30 crore and the utilization has remained negligible with average utilization of ~0.77% for the past 12 months ended September 2020.

Analytical approach:

Standalone and also factoring in linkages with its holding company Chettinad Cement Corporation Pvt Ltd, which has cement production capacity of 15.5 MTPA with presence across southern region.

About the Company

Established in the year 1983, Anjani Portland Cement Limited (APCL) was incorporated as Shez Chemical Limited and promoted by Syed Badruddin Shez and Naseerudin along with two NRI's. During the year 1985, the name of the company was changed to Shez Cements Limited. The company was acquired by K.V. Vishnu Raju during the year 1999 and the name of the company was changed to the current name APCL. On March 2014, Chettinad Cement Corporation Private Limited (CCCL) acquired 75% of the total shares of APCL. APCL manufactures three types of cement: Ordinary Portland Cement (OPC), Portland Pozzolana Cement (PPC) and Composite Cement (CC). During FY20, OPC (43 & 53 grade) accounted for around 78% of the total sales followed by PPC (14%) and CC (8%). As on March 31, 2020, the installed capacity of APCL stood at 11,60,000 TPA in its manufacturing facility at Suryapet district of Telangana. The company also has captive thermal power plant with an aggregate capacity of 16 MW as on March 31, 2020. APCL sells its cement under the brand name of "Anjani" and has a dealer network of around 1,500 with presence across the southern states. From Q2FY19, APCL has also started trading of cement.
