Services PMI rises to 2-month high of 58.5 in Jan on new orders

STRONG START. Business confidence also climbed to a 3-month high

Shishir Sinha
New Delhi

The services sector performed well in January, as the Purchasing Managers' Index (PMI) rose to a two-month high of 58.5 compared to 58 in December, S&P Global reported on Wednesday. The most notable feature was an improvement in the job scenario during the month.

Highlighting the sustained momentum in the sector, Pranjul Bhandari, Chief India Economist at HSBC said: "Robust output growth was driven by a steady influx of new orders, including increased international demand from South and South-East Asia."

NEW CLIENTS
Further she said that business confidence climbed to a three-month high, supported by efficiency gain.

JOB'S REBOUND. Rising intakes of new work prompted service providers in India to resume hiring in January

According to S&P Global, survey participants reported new business gains from clients in Indonesia, Kenya, Malaysia, Oman, Qatar, Sri Lanka, Thailand and Vietnam.

Rising intakes of new work prompted service providers in India to resume hiring in January.

The pace of job creation

was only marginal, however, as the vast majority of firms opted to leave workforce numbers unchanged amid sufficient resources for current requirements.

"The latest results showed a broadly stable volume of pending workloads across the service economy, with the respective seasonally adjusted index registering only

fractionally above the neutral mark of 50 in January," the report noted.

MAJOR FACTORS

Talking about business confidence rising to a three-month high, the report said that among the factors supporting optimistic forecasts were efficiency gains, marketing efforts and new client wins.

Services firms signalled more costly prices for eggs, electronic items, meat, paper, parts and vegetables. Overall, input costs increased at the fastest pace since last September, while output charges also rose to a greater extent during January, with the rate of inflation at a 3-month high.

"Service providers reportedly sought to better balance cost rises and profitability. The overall increase was nevertheless mild in the context of historical data," the report said.

Force Motors posts best-ever Q3, profit vrooms over 260%

Our Bureau

Pune

Force Motors Ltd reported its strongest-ever third-quarter performance for the quarter ended December 31, 2025, posting record earnings and extending its strong growth momentum in FY25-26.

The Pune-based automaker recorded a 13 per cent year-on-year increase in revenue to ₹2,155 crore in Q3, while EBITDA surged 63 per cent to ₹401 crore, reflecting improved operating leverage and volume-led growth.

Profit after tax, after exceptional items, rose sharply by 266 per cent year-on-year to ₹403 crore.

For the nine months ended December 2025, revenue increased 14 per cent to ₹6,583 crore, while EBITDA grew 43 per cent to ₹1,145 crore. Profit after tax for the period more than doubled to ₹938 crore, up 153 per cent year-on-year. The company maintained a zero-debt balance sheet.

Fractal Analytics sets IPO price band in the range of ₹857-900

About 35% of the capital raised from this IPO is earmarked for AI revenue, R&D and alpha-related investments

cent of the capital raised from this IPO is earmarked for AI revenue, R&D and alpha-related investments.

On Tuesday, the company

reduced its IPO size from ₹4,900 crore to around ₹2,834 crore. Fractal said it lowered pricing in line with stronger investor confidence.

"Based on a lot of good advice from some of the top funds in the country, we agreed on the ₹857-900 price range. Then some of the selling shareholders wanted to stay on instead of selling at that price, because saying they are pretty confident on where Fractal is going," said Velamakanni, Co-Founder, Group CEO & Executive Vice-Chairman, Fractal Analytics.

About ₹355 crore or 35 per

after. Fractal will primarily focus on home-grown Co-genetic platform to build AI solutions for margin expansion like invoice-to-cash solution, customer experience, revenue growth and make the platform a greater contributor to company revenue.

Co-genetic revenues are significantly higher margin than rest of the business, that will improve our margin.

"We have a long way to go in terms of making people understand AI and AI companies, and having a few public AI companies is going to help market understanding," he said.

INDIA AI MISSION

Fractal is planning to build an AI system for the healthcare sector by developing a model that meets or exceeds global healthcare AI benchmarks, and then using it to roll out healthcare AI solutions at scale.

However, those expenses will be not budgeted in the IPO proceeds.

High taxes on cigarettes may fuel illicit trade, hurt collection

Our Bureau
New Delhi

The hiked rates of cigarettes from this month could lead to a surge in illicit cigarette trade and put pressure on tax collection, a report said.

The revised rates from February 1, as announced earlier, were due to the implementation of the additional excise duty on cigarettes and tobacco products, and a health cess on pan masala, over and above the

highest 40 per cent GST. Cigarette prices have increased by a minimum of ₹22-25 per pack of 10 sticks following the implementation of additional excise duty.

SOCIAL IMPACT
"The current increase in cigarette tax rates will not only likely stimulate illicit cigarette trade and consumption that is already flourishing due to high tax arbitrage, but it will also lead to significant socio-economic impacts,"

TOBACCO FARMERS HIT
The report estimated that

the new tax is likely to reduce the offtake of FCV crops by nearly 20 per cent and cause an additional loss of approximately 2.6 million man-days of employment in farming and affiliated activities.

The report added that the FCV tobacco agrarian sector is under intensifying structural stress and that even before the new tax regime, FCV-based products were taxed disproportionately — over 30-50 times higher per kg than non-FCV tobacco used in bidis and chewing products.

Rising prices are expected to push up demand for illegal tobacco products by nearly 39 per cent, taking total illicit consumption of cigarettes to over 46 billion sticks.

Mamata argues SIR case in Supreme Court personally

PTI, NEW DELHI: Mamata Banerjee became the first serving chief minister to argue in the Supreme Court on Wednesday as she sought an intervention in the SIR (Special Intensive Revision) of electoral rolls, alleging that West Bengal was being "targeted" and its people were being "bulldozed".

The court took note of Banerjee's petition and said genuine persons must remain on electoral rolls.

A bench comprising Chief Justice Surya Kant and Justices Joymalya Bagchi and Dipul M Pancholi issued notices and sought replies to the petition by February 9 from the Election Commission and the chief electoral officer of West Bengal.

The CJI asked the poll panel to instruct booth-level officers and electoral roll officers to be more sensitive while issuing notices on grounds of minor discrepancies such as mismatched spelling of names, etc.

The chief minister referred to the poll panel as "WhatsApp Commission" in an apparent reference to directions being allegedly passed by the Election Commission to electoral officials through the instant messaging app.

Banerjee, dressed in her signature white sari paired with a black scarf to resist the Capital's winter, reached the Supreme Court premises flanked by her lawyers, including Trinamool Congress leader

West Bengal CM Mamata Banerjee reaches the Supreme Court premises, in New Delhi

and senior advocate Kalyan Banerjee, around 10 am.

Several lawyers and litigants jostled to enter the CJI's courtroom to catch a glimpse of the CM making her arguments. At the outset, Banerjee sought permission to argue for five minutes. The CJI responded by saying the court would give her not five but 15 minutes to make her submission.

"The problem is our lawyers always fought our case from the beginning but when everything is finished, we are not getting justice... We are not getting justice anywhere. I am a bonded labourer, sir... I am from a common family and I am not fighting for my party" Banerjee said.

"West Bengal is being targeted," Banerjee alleged, questioning why the same yardstick was not applied to Assam.

"They are targeting West Bengal to bulldoze its people," said the chief minister, who was permitted by the

bench to supplement the submissions of her lawyer and senior advocate Shyam Divan.

Alleging that the state was not getting justice anywhere, Banerjee said she wrote six letters to the Election Commission on the SIR issue but got no response.

At the end of the hearing, she conveyed her gratitude to the bench for the opportunity to argue in person and urged it to "save democracy".

Banerjee has challenged the SIR of electoral rolls in the state and sought a direction to the poll panel to "accept Aadhaar cards as proof of identity especially in cases of 'logical discrepancy' without insisting on any other documents".

Logical discrepancies cited while reconciling the rolls with the 2002 voter list include mismatches in a parent's name or the age gap between a voter and their parent being less than 15 or more than 50 years.

Divan referred to a large

number of unmapped voters and said there was hardly any time left for remedial measures as the process was set to conclude on Feb-

ruary 14.

He said the poll panel had to upload the reasons for putting names in the "logical discrepancy" list.
