China used conflict with Pak as 'live lab': Deputy Army Chief

PHS TRUST OF INDIA
New Delhi, 4 July

Singh said on Friday. In an address at Industry chamber PCCI, the senior official said China also used the India-Pakistan conflict like a "live lab" available to test various weapon systems. Lt Gen. Singh also highlighted China's ancient military strategy of "36 stratagems" and filling the adversary with a "borrowed knife" to buttress the point that Beijing extended all possible support to Pakistan

to harm India. India was actually dealing with three adversaries, he said, suggesting that besides Pakistan and China, Turkey was also playing a major role in supplying military hardware to Islamabad. The Deputy Chief of Army Staff, who looks after the Indian Army's capability development and sustenance vertical, said Beijing's support to Islamabad was not surprising as 81 per cent of the military hardware of the Pakistani armed forces are from China. "He (China) would rather use the neighbour to cause pain to India than getting involved in a mudslinging match on the northern border," Lt Gen. Singh said.

"Pakistan was the front face. We had China providing all possible support. And there was no surprise because, if you look at the statistics in the last five years, 81 per cent of military hardware that Pakistan is getting is all Chinese," he said. "We saw numerous drones coming and landing in the face of war, during the war, along with the individuals who were there," he said. The Deputy Chief of Army Staff said the "strategic messaging" by the Indian leadership was unambiguous, adding that the planning and selection of targets in Pakistan and Pakistan-occupied Kashmir (PoK) was based on a lot of data. India launched Operation Sindoor on May 7, targeting terrorist infrastructure in territories controlled by Pakistan in response to the April 22 Pahalgam terror attack.

The strikes triggered four days of intense clashes that ended with an understanding on stopping the military actions on May 10.

Natural gas may soon become cheaper

PNGRB clears 2 national tariff zones, new reserve fund to develop pipelines

SUNSHINE QUADRANTARY
New Delhi, 4 July

The Petroleum and Natural Gas Regulatory Board (PNGRB) has brought down the number of unified tariff zones in the country to two, from the earlier three, a move which is expected to increase the accessibility of natural gas across the country, including the underserved regions, and make it more affordable for urban households.

As part of the Second Amendment to the Natural Gas Pipeline Tariff Regulations, 2025, released on Friday, the PNGRB has extended the benefits of the Unified Zonal Tariff of Zone 1 nationwide to Compressed Natural Gas (CNG) and Piped Natural Gas (PNG) domestic segments.

This is expected to make natural gas more affordable for urban households and transport networks, thereby supporting broader clean energy adoption. Unified tariffs were calculated using a levelised approach, considering factors like transportation costs and distance. The levelised unified tariff for 2024-25 was ₹80.97 per million British thermal units (mmbtu).

Gas shippers including marketers, importers, and City Gas Distributors (CGD) companies, book pipeline capacity and pay transportation tariffs to pipeline operators. In 2023, PNGRB implemented the Unified Tariff (UT) system standardised natural gas transportation charges across India's expanding natural gas grid. Now, the regulator has also called for a new pipeline development reserve, to be funded with 50 per cent of the post-tax earnings of operators with high pipeline utilisation rate of 75 per cent. Half of the net-of-tax earnings above this threshold will be reinvested in infrastructure development, while the other half will be returned to consumers via tariff adjustments. This creates a performance-linked, sustainable model for future growth.

₹700 cr EV Park may come up in Kanpur

VERINDRA SINGH RANANT
Lucknow, 4 July

Uttar Pradesh has planned to develop an EV Park in Kanpur, flanking the Dedicated Freight Corridor to leverage its pan-India position in the sales of electric vehicles (EV).

generate substantial local employment," the official remarked.

A dedicated research and development (R&D) centre will be a vital part of the project, driving innovation and facilitating advanced product development.

The proposed EV Park will also strengthen the local supply chain and promote indigenous manufacturing under the 'Make in UP' and 'Made in UP' ecosystem. The EV Park will be a symbol of industrial innovation, thus positioning Kanpur on the global electric vehicle manufacturing map, he noted.

Kanpur constitutes among the six nodes of the UP Defence Industrial Corridor (UPDIC). The other five nodes are Lucknow, Agra, Aligarh, Chitrakoot and Jhansi.

The EV Park will comprise manufacturing units for electric motors, chassis, seat parts and lithium-ion cells, apart from plants for assembling lithium-ion batteries, chargers, controllers and electronic components. The EV value chain will also reduce carbon emissions

Traders end strike as govt relents on fee for transaction

ANIL SHARMA
Jaipur, 4 July

A statewide strike by commodity traders in Rajasthan was called off on Wednesday night, hours after it began, following talks with Chief Minister Bhupendra Patel Sharma.

The protest was triggered by the state government's imposition of a 1 per cent Kd-shak Kalyan Fee on commodity transactions starting July 1. The Rajasthan Kalyan Pradarth Vyapar Sangh, which led the agitation, demanded that the levy be waived.

The breakthrough came during a meeting with Chief Minister Sharma on Wednesday night, where he accepted the key demand and appealed to traders to end the strike.

Following the CM's assurance, we withdrew the four-day strike call the same night," Gupta said. The strike, which disrupted business across 247 mandis, impacted around ₹10,000 crore worth of trade in a single day, according to industry estimates. Operations at 800 oil mills, 1,300 dal mills, 1,000 flour mills, and about 50 spice units came to a standstill.

Normal trading resumed across mandis (commodity markets) and processing units on Thursday morning.

"We urged the government to reduce the fee to 0.5 per cent, and the Chief Minister agreed," said Babul Gupta, president of the Sangh.

Traders also pressed for a cut in mandi cess on agricultural goods brought in from outside the state and an increase in commission on coarse grains from the current 1 per cent to 2.25 per cent. Talks on these demands are still underway, Gupta added.

Originally slated to run from July 2 to July 5, the strike was marked by widespread protests and complete shutdown of trading activity. Agricultural goods from other states did not enter Rajasthan during the day, and most shops in mandis remained shuttered.

This is not the first time traders have raised objections to these levies. A similar week-long strike was staged in March over the same issues.

While that protest was suspended after assurances from the agriculture department, the latest move came after the government implemented the new fees without resolving pending concerns.

The EV Park project, encompassing an investment of ₹700 crore, will materialise under the public private partnership model.

Spanning 500 acres, the project will be anchored by the UP State Industrial Development Authority (UPSIDA) as part of the Kanpur Metropolitan Development Vision 2030.

"The ambitious project aligns with the grand vision of UP chief minister Yogi Adityanath to establish Kanpur as a major EV hub in India," a senior official said.

The EV Park aims to position Kanpur as an EV manufacturing hub, and also boost the state's overarching \$ one trillion economy goal. "The EV Park project will create fresh opportunities for local entrepreneurs, startups and

State unveils draft policy to boost logistics, exports

RISHIWA DAS
Raipur, 4 July

The Chhattisgarh government has approved a draft policy aimed at developing the state's logistics and export infrastructure.

The Chhattisgarh State Logistics Policy, 2025, is expected to attract investment from domestic and multinational companies in the logistics and e-commerce sectors, a government spokesperson said.

Additionally, the policy is projected to enhance the state's warehousing capacity, and offer cost-effective storage solutions to industries, businesses and farmers. It will also promote dry ports and inland container depots, providing micro, small and medium enterprises (MSMEs) and local producers greater access to export markets.
