Wisely Ai Sets a New Impact Benchmark Protecting 100 Mn Indosat Users from 2 Bn+ Scam and Spam Communications in Indonesia

Indosat hosted an impact celebration event in the presence of Indonesia's Minister of Communication and Digital Affairs

HYDERABAD, February 6, 2026 – Tanla Platforms Limited today announced a major impact milestone for Wisely Ai, its AI-native platform, following an impact celebration event hosted by Indosat Ooredoo Hutchison (Indosat or IOH) in Indonesia.

At the event, Indosat showcased the real-world outcomes delivered by Wisely Ai within the first six months of deployment:

- **11+ billion** communications analyzed across **100 million users**
- **2+ billion** spam and scam interactions identified
- **2+ million** malicious senders and CTAs (including URLs) detected
- **Estimated USD 500 billion** in financial losses prevented
- **99% AI model efficacy**, with decision made in milliseconds

Wisely Ai is powering Indosat to build a safe digital ecosystem validated by over 95% customers feeling more protected and **industry-leading customer experience** scores from independent market research.

Wisely Ai serves as the AI nerve center powering multiple solutions. Indosat launched two solutions, anti-spam and anti-scam integrating Wisely Ai both at the network and the mobile application on the handset. At the event, Indosat announced the launch of new features making the network scam free and extending channel coverage to VoIP. This enables proactive, real-time protection across all communication channels.

Vikram Sinha, President Director and CEO, Indosat Ooredoo Hutchison, said:

"We see that mobile phones have become an essential part of daily life for Indonesians. Through collaboration with technology partners like Tanla, we are delivering more proactive and adaptive protection. AI technology in our network helps filter threats before they can impact our customers"

Uday Reddy, Founder, Chairman and CEO, Tanla Platforms Limited, said:

"Wisely Ai is a first of its kind AI-native platform deployed at this scale. We are excited by the results Indosat is witnessing is driven by our AI technology, deep telco expertise, and close ecosystem collaboration. The success of customers like Indosat is translating into strong interest from other telcos across Southeast Asia and EMEA"

Tanla's partnership with Indosat shows how AI at national scale can secure communications in real time, setting a benchmark for trust, resilience, and growth in telecommunications.

About Tanla

Founded in 1999, Tanla Platforms Limited is an AI-native platform company transforming digital interactions through innovative SaaS solutions. With a strong enterprise- and user-centric approach, Tanla advances data security, privacy, and protection against spam and scams.
