Leading Through Innovation

ACME Solar secures 301 MW/ 1,204 MWh assured peak supply SECI FDRE Project

Overall contracted portfolio crosses 8 GW across solar, wind, FDRE, RTC and hybrid solutions

GURUGRAM, FEBRUARY 6, 2026: ACME Solar Holdings Limited (ACME Solar) has secured a 301 MW/ 1,204 MWh assured peak supply SECI FDRE-VII project in an e-reverse auction conducted on February 05, 2026. Following this win, ACME Solar's diversified portfolio stands at 8,071 MW contracted capacity spanning solar, wind, storage, hybrid, FDRE and RTC solutions. The formal Letter of Award is expected soon.

The bid requires supply of 4 MWh per MW of contracted capacity for any four hours each day only during the non solar hours, while ensuring availability of 70% on monthly and 85% on annual basis. The project would integrate Solar and Battery Energy Storage System (BESS) technology to meet the supply requirements and would utilize the night-time connectivity already available with the company.

About ACME Solar: ACME Solar Holdings Limited is a leading integrated renewable energy player with a diversified portfolio of 8,071 MW spanning solar, wind, storage, FDRE and hybrid solutions and an operational contracted capacity of 2,962 MW and under construction contracted capacity of 5,109 MW including ~17 GWh of BESS installation. The under construction PPA signed portfolio stands at 2,668 MW. With an in-house EPC and O&M division, the company does end-to-end development and O&M of the plants, thereby delivering projects in a time & cost-effective manner while ensuring best in class operating performance evident in its industry leading CUF and operating margins.
