PAT Margins (%)	2.5%	2.1%		1.9%		2.0%	1.9%	

Commenting on the Results, Shri Mahendrakumar Kabra, MD said, -

"We are delighted to report yet another quarter of exceptional performance, led by rising demand for copper tubes driven by the growth in the HVAC industry. This segment has seen its contribution to revenues increase from 17% last year to 27% this quarter, driving profitability and underscoring our focus on expanding domestic capacity and reducing import reliance. To further strengthen this segment, Inner Grooved Tube (IGT) manufacturing is currently in progress and at the evaluation stage.

At the same time, copper winding wires continue to benefit from India's electrification push and the rapid expansion of power transmission and distribution infrastructure, resulting in robust growth across our portfolio. Our consolidated revenue for this quarter grew by 43.8% year-on-year, with Operating EBITDA rising 84.9% and Profit After Tax improving 72.5%, reflecting operational excellence and disciplined execution.

Looking ahead, strong demand momentum supported by industry tailwinds and capacity additions will continue to drive growth. In addition, developments in our joint venture and subsidiary are advancing well and will further enhance our growth trajectory. We remain committed to delivering sustainable value for all our stakeholders."

About Ram Ratna Wires Ltd

Founded in 1992, Ram Ratna Wires Ltd. (RRWL) is a prominent part of RR Global, a leading conglomerate in the electrical and copper industry. Ram Ratna Wires Ltd. is a leading manufacturer of super enameled copper winding wires in India that offers a wide range of sizes under its brand, RR Shramik.

RR Shramik is a highly regarded brand, offering a diverse range of products, including copper, aluminum, and submersible winding wires. RRWL is also expanding its portfolio with in-house production of copper tubes and pipes, while venturing into BLDC motors, hub motors, HVLS fans, and wind tower fabrication through its subsidiary and JV companies.
