# Hotels nearly sold out for long August 15 weekend

Airfares for popular destinations surge sharply

AKSHARA SRIVASTAVA  
New Delhi, 5 August

With just a handful of long weekends in the second half of the year, hotels are already reporting near-full occupancy starting from the upcoming Independence Day (I-Day) on August 15, extending through the weekend until August 17.

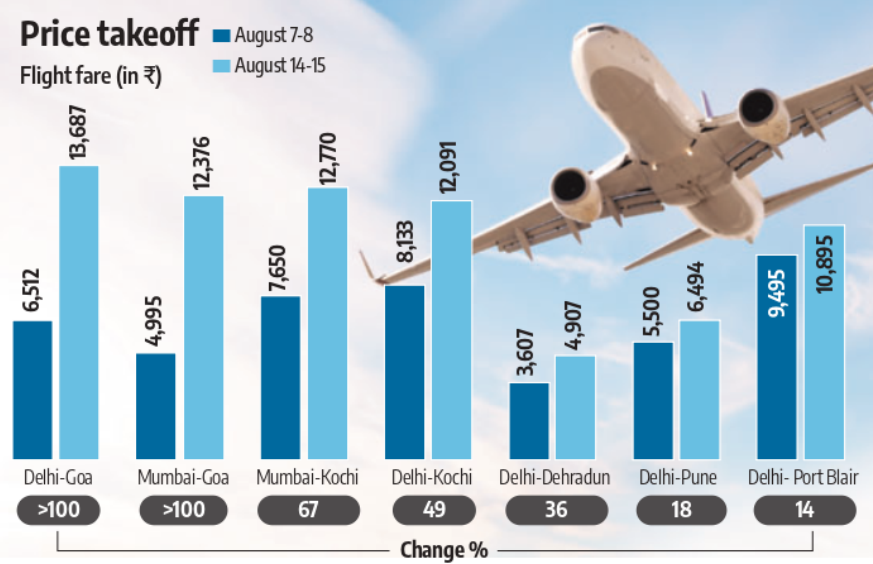

Luxury villa rental firm StayVista has recorded 100 per cent occupancy for the long weekend across its portfolio. "We are sold out across destinations, which is a strong validation of the shift towards meaningful getaways and trusted stays," said Pranav Maheshwari, cofounder of the platform, which is seeing full occupancy in destinations like Maharashtra, Goa, Ooty, and Coorg.

ITC Hotels has also seen a strong uptick in demand for the long weekend and is curating special experiences for its Club ITC members. Both city hotels and hill properties have seen healthy advance reservations. Welcomhotel-branded properties in Jim Corbett, Chail, and Shimla are reporting near-full capacity, while the Sheraton New Delhi is witnessing increased demand for staycations and restaurant visits.

"The upcoming long weekend has ignited strong travel intent, with robust bookings across leisure, spiritual, and wellness destinations — many of which are already nearing full occupancy," said Atul Bhalla, vice-president of operations for ITC Hotels' North & West region.

Meanwhile, ITC Rajputana and Mementos in Jaipur, ITC Grand in Goa, and Mementos in Udaipur are also nearing sold-out positions.

At Sarovar Hotels & Resorts, too, occupancy levels are expected to be high, especially at leisure destinations like

Note: Flight fare is average one-way fare for non-stop flights booked 7-15 days in advance Source: ixigo

Goa, Agra, Dalhousie, Udaipur, and Jaipur.

"We're witnessing a strong resurgence in domestic travel around the I-Day long weekend, with occupancy levels pacing 8-10 per cent higher than the same period last year. We're also seeing strong pickup in Tier-II and drive-in destinations, signalling a clear shift towards accessible, experiential getaways," said Akshay Thussu, senior vice-president, commercial, at the chain.

To sustain this momentum, the company has introduced a range of offers for guests, including complimentary late check-outs until 4 pm and free stay and dining for children under 12.

"The I-Day long weekend is shaping up to be a strong period. We are seeing encouraging signs of early bookings across key leisure destinations, reflecting growing confidence and a desire for quick, premium getaways," said Nikhil Sharma, managing director and chief operating officer, South Asia, at Radisson Hotel

group, where some resort properties have already secured over 75 per cent occupancy a month in advance.

"All our resort hotels are witnessing high demand for the long weekend, with particular interest in destinations across Rajasthan, Goa, Uttarakhand, Himachal, and Maharashtra. People are increasingly willing to spend more on premium experiences and amenities, with average stay durations ranging from two to two and a half days," he added.

It's not just hotel occupancies — flight bookings and fares have also climbed for the weekend.

"We've seen a significant surge in flight bookings for the I-Day long weekend this year, with travel to popular leisure destinations up by 25-30 per cent year-on-year (Y-o-Y). Demand for beach getaways like Goa has especially spiked, driving fares on routes such as Delhi-Goa and Mumbai-Goa up by over 100 per cent week-on-week," said Rajnish Kumar,

group co-chief executive officer at ixigo.

Other scenic destinations like Dehradun and Kochi are also seeing strong traction, with airfares rising by 35-40 per cent week-on-week.

"Among the top domestic destinations booked this year are Dehradun, Port Blair, Goa, and Coimbatore," Kumar added.

The extended break, which closely coincides with Raksha Bandhan, has lifted travel sentiment, triggering a notable surge in bookings and reflecting strong pent-up demand for short-haul and leisure travel, said Ravi Gosain, president of the Indian Association of Tour Operators.

"Popular destinations like Udaipur, Candolim (Goa), Lonavala, Jaipur, and Mysuru are seeing robust Y-o-Y growth, with some cities reporting over 500 per cent increases in hotel bookings. At the same time, we are encouraged to see rising interest in offbeat and emerging regions, especially across Northeast India," he said.

# SAP Labs opens 2nd campus in Bengaluru amid AI push

AVIK DAS  
Bengaluru, 5 August

SAP Labs on Tuesday inaugurated its second campus in Bengaluru, with an investment of 194 million euros, as the research and development division (R&D) of the German software company doubles down its presence in India at a time when artificial intelligence (AI) is changing the technology landscape.

The second campus on the city's outskirts, complements the existing one in Bengaluru's technology hub, and has a capacity of 15,000 people, Sindhu Gangadharan, managing director of SAP Labs India said while inaugurating the new office space. SAP Labs already has about 14,000 employees in Bengaluru and the latest addition would ramp up the headcount to about 29,000. The firm also has offices in Hyderabad, Pune, and Mumbai.

SAP Labs India is SAP's largest R&D location outside the headquarters in Walldorf, Germany. It is innovating key AI use cases and drivers across the entire solution base, from S/4 HANA to HXM and the latest sustainability suite of solutions. AI will

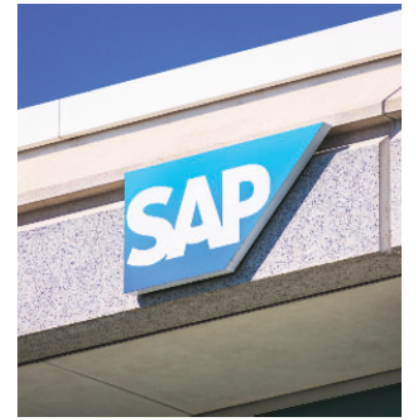

be at the centre of SAP's product portfolio as the company attempts to not only improve client efficiency and productivity, but also that of its own developers.

"Every developer will be an AI developer and they need the talent to understand deep domain expertise," added Gangadharan. Thomas Saueressig, board member of SAP SE, said that 75 per cent of SAP engineers have been given dedicated AI training, while 90 per cent use some AI tools to improve their productivity.

SAP Labs told *Business Standard* earlier this year it was looking to double its customers' productivity gains to 40 per cent from 20 per cent, by using generative AI by the end of this year.

For SAP Labs, 40 per cent of its global R&D workforce is based out of India, while 25 per cent of the global patents are filed from here. It works with professors to help employees write technical papers or make entries in science journals.

SAP, Saueressig said, is also looking to build its own foundational large language models based on its data, which will complement the ones from Open AI, Mistral, and Anthropic.

## Campus view

**194 mn euros** The building cost

Diluted (In absolute ₹ terms)	0.56	0.69	2.00	4.17	0.56	0.67	2.00	4.17

**NOTES:**

- The Un-Audited Standalone and Consolidated Financial Results for the First Quarter ended 30<sup>th</sup> June 2025 were reviewed by the Audit Committee and approved by the Board of Directors of the Company at their meetings held on Tuesday, 05<sup>th</sup> August 2025.
- The Standalone and Consolidated figures of the last quarter ended 31<sup>st</sup> March 2025 are the balancing figures between Audited figures in respect of the full financial year and published year-to-date figures up to the third quarter of the financial year, which were subjected to limited review by the Statutory Auditors.
- These unaudited Standalone and Consolidated Financial Results have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 ("the Act") read with the relevant rules issued thereunder, other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of Regulation 33 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended).
- The Group operates in a single reportable segment, viz. Retail and Wholesale sales of consumer durables and electronics products through its retail stores and online platforms. The Chief Operating Decision Maker ("CODM") reviews the results as a whole when making decisions about allocating resources and assessing the performance of the Group.
- On 29<sup>th</sup> May 2025, a fire incident occurred in one of the Company's Godown, resulting in significant damage to inventory stored at the location. Based on the Group assessment, the estimated loss of inventory is ₹81.72 million, for which an insurance claim has been lodged with the insurance company. Accordingly, the Group has recognized a provision of ₹81.72 million as an exceptional item in the Statement of Profit and Loss for the quarter. The corresponding insurance claim will be accounted for when the recognition criteria are met.
- In the current quarter, the Group has reclassified sell-out scheme incentives and cash discounts received from suppliers from 'Revenue from operations - Other operating income' to reduction from 'Purchases of Stock in Trade' in the Standalone and Consolidated Statements of Profit and Loss in accordance with the applicable accounting standards, since such incentives and discounts are directly associated with inventory purchases and is not in exchange for any distinct goods or services by the Group to such suppliers. The consequent adjustments made to the comparative financial information are not considered material to these Standalone and Consolidated financial results.
- EPES for quarters is not annualised.
- The detailed Un-Audited Standalone and Consolidated Financial results are available on the websites of the Stock Exchanges ([www.nseindia.com](http://www.nseindia.com) and [www.bseindia.com](http://www.bseindia.com)) and the website of the Company at <https://investors.electronicmartindia.com/>.
