Detailed Rationale

Crisil Ratings has continued its ratings on the bank facilities and debt instruments of Entertainment Network (India) Ltd (ENIL) on 'Rating Watch with Developing Implications'.

The rating was placed on Watch with Developing Implications on October 8, 2025, following the disclosure by ENIL (subsidiary of BCCL) to the stock exchange on September 26, 2025, regarding its parent, Bennett Coleman and Company Ltd (BCCL; 'Crisil AAA/Watch Developing') and Times Horizon Pvt Ltd (THPL, a wholly owned subsidiary of BCCL), preparing to file a scheme of arrangement, under which the non-publishing business of BCCL (which includes education, investment, broadcasting, media, entertainment and other allied activities) (EIBME Business) was proposed to be demerged into THPL. For the same, BCCL and THPL entered into a group reorganisation agreement on September 23, 2025, and the scheme of arrangement regarding the proposed split was filed in NCLT on October 8, 2025.

Once implemented, THPL will cease to be a subsidiary of BCCL, and BCCL's shareholders will become the shareholders of THPL. Further, the parent of ENIL will change from BCCL to THPL.

The reorganisation is subject to, *inter alia*, approvals from the National Company Law Tribunal (NCLT) and other statutory authorities.

Crisil Ratings will remain in contact with the group's management and continue to monitor developments and their materiality to the credit risk profile of ENIL, especially regarding operational and financial support from the new parent, THPL along with its credit profile. Further till the time the restructuring does not conclude, BCCL will maintain its current stance of financial and operational support towards all group entities, including ENIL.

The ratings will be removed from watch and a final rating action will be taken once Crisil Ratings has more clarity on the impact of the proposed demerger on the business and financial risk profiles of BCCL and THPL and the extent of support to ENIL, post the reorganisation.

The ratings reflect ENIL's market leadership position in the FM radio broadcasting industry, its comfortable financial risk profile, backed by robust liquidity and nil debt, and strong parentage of BCCL. These strengths are partially offset by impact on operating profitability due to diversification, significant dependence on advertisement (ad) revenue, which is susceptible to economic downturns, and exposure to intense competition and inherent risks in the radio industry.

Analytical Approach

Crisil Ratings has combined the business and financial risk profiles of ENIL and its subsidiaries, Alternate Brand Solutions (India) Ltd, Entertainment Network, Inc (EN, INC), Global Entertainment Network Ltd WLL and Mirchi Bahrain WLL, which have business and financial linkages with ENIL. ENIL's US operations are housed under EN, INC.

Crisil Ratings has also applied its parent notch-up criteria to factor in the extent of support expected from BCCL.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers - Strengths

Healthy business risk profile, backed by market leadership position: ENIL is the market leader, in terms of revenue and active channels, in the Indian FM radio broadcasting industry. The business risk profile is also supported by strong presence across states (63 cities) and a wide bouquet of channels. The flagship channel, *Radio Mirchi*, has significant brand equity, which is reflected in the highest revenue share in the industry.

Higher focus on solutions and digital products has helped ENIL gain a larger market share and diversify its business. Presence in the solutions business enables the company to cater to non-radio consuming advertisers, and with the

acquisition of *Gaana*, ENIL has emerged as the pioneer among its peers to have moved into the digital audio OTT space. The business risk profile will be supported by diverse customer base and established market position over the medium term.

Strong financial risk profile: The financial risk profile is supported by a healthy networth, nil debt and adequate liquidity. Debt protection metrics remain robust in the absence of any external debt, and cash and equivalents were healthy at Rs 345 crore as on September 30, 2025. Moderate cash accrual and the absence of any major capital expenditure (capex) plans will continue to support the financial risk profile.

Strategic importance to the parent: ENIL remains strategically important to BCCL, which has a strong presence across all media platforms. ENIL derives high operational synergies through the dominant market position of the parent, and will continue to receive timely and need-based support from the latter.

Key Rating Drivers - Weaknesses

Investments on account of business diversification, leading to subdued operating profitability: ENIL's operating profitability has been impacted due to increasing revenue from non FCT and the digital segment, where margins are typically lesser than the core FCT business. The company reported operating margin of 19.9% in fiscal 2024 which declined to about 14.4% in fiscal 2025 and further expected to remain around 13-14% in fiscal 2026 due to investments in the non-radio businesses. However, with strong revenue growth expected in *Gaana*, influencer marketing and non-FCT business, along with cost rationalization initiatives in the radio business, the margins are expected to move closer to 20% from fiscal 2027 onwards.

Susceptibility to economic activity and intense competition: Operating performance of radio operators remains vulnerable to economic downturns as ad revenue is linked to the overall macroeconomic scenario. Recessionary cycles and uncertain market conditions tend to curb spending, thereby constraining the ad revenue for the radio industry. Moreover, limited scope to differentiate offerings results in price-led competition among radio players for the available advertising revenue. Due to intense competition from radio and other media platforms, the company recorded a YoY decline of ~5% in FCT revenue from Rs ~318 crore in fiscal 2024 to Rs ~302 crore in the previous fiscal.

Exposure to risks inherent in the radio business: Radio operators face risks arising from technological advancements and changing consumer consumption patterns. For instance, the growing popularity of OTT music platforms, supported by low data cost, pose a threat in the long run. With limited product differentiation, the radio industry is highly competitive, comprising few operators, OTT music platforms and other music streaming applications.

Liquidity Strong

Cash and equivalents stood at Rs 345 crore as on September 30, 2025. The company remains debt-free. Moderate capex and incremental marketing spends to promote *Gaana* should be funded through accrual and existing cash and equivalents.

Rating sensitivity factors

Upward factors

- Strong growth in turnover and profitability, along with diversification in revenue from other segments
- Sustained improvement in return on capital employed to over 15%, and material growth in revenue from current levels

Downward factors

- Sustained decline in operating revenue and margin below 14%, and/or weakening of financial risk profile
- Any downward revision in the credit rating of BCCL by one or more notches with the current support stance from BCCL and / or change in support stance from BCCL.

About ENIL

ENIL, incorporated in June 1999, has acquired FM radio licenses across 63 cities. It is a 71% subsidiary of BCCL and is listed on the National Stock Exchange and the Bombay Stock Exchange. The company has 73 frequencies located in 63 cities across India. After 19 years, the Radio Mirchi brand has been renamed as Mirchi.

The company is also present in the USA, Qatar, Bahrain and the UAE. ENIL launched the Mirchi Digital App in international markets and remains the only indigenous company in the audio OTT space.

About BCCL

BCCL, incorporated in 1913, is the flagship company of the largest media conglomerate in India, the Times group, which is a family-owned business, operated by the sons of the late Ms Indu Jain - Mr Samir Jain and Mr Vineet Jain, along with their families. BCCL, along with its group companies, has diversified into various media and entertainment businesses (print, television, radio, music, OOH advertising, and the Internet). Newspaper publishing is the largest business segment of BCCL.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
