## **Infosys and AWS Collaborate to Accelerate Enterprise Adoption of Generative AI**

*Leveraging Infosys Topaz™ and Amazon Q Developer to redefine software delivery and client value across industries globally*

**Bengaluru, India – January 07, 2026:** [Infosys](#) (NSE, BSE, NYSE: INFY), a global leader in next generation digital services and consulting, today announced its strategic collaboration with [Amazon Web Services](#) (AWS) to accelerate enterprise adoption of generative artificial intelligence (AI). The initiative focuses on combining [Infosys Topaz](#), an AI-first set of services, solutions, and platforms using generative AI (gen AI) technologies, and [Amazon Q Developer](#), AWS's generative AI-powered assistant, to enhance Infosys' internal operations and drive innovation for customers across sectors such as manufacturing, telecom, financial services, and consumer goods.

Infosys is harnessing the power of Infosys Topaz to drive AI-powered transformations across key functions, such as software development, HR, recruitment, sales, and vendor management. For example, in the Software Development Lifecycle (SDLC), the integration of Infosys Topaz with Amazon Q Developer enables automated documentation and provides tailored support for tasks like code generation, debugging, testing, and legacy code modernization, significantly enhancing workflow efficiency and accuracy. Through its collaboration with AWS, Infosys integrates advanced AI capabilities to streamline complex tasks, accelerate project timelines, and enhance employee experiences while driving productivity.

Infosys is also leveraging AWS generative AI services to deliver cutting-edge solutions across industries. These include advanced end-user engagement capabilities for sports and entertainment, powered by Infosys Topaz and [Amazon Bedrock](#), enabling dynamic, real-time personalized experiences to enhance engagement for millions of fans worldwide.

**Sandeep Dutta, President, Amazon Web Services (AWS) India and South Asia**, said, "Infosys is setting a new benchmark for enterprise transformation through the strategic adoption of generative AI at scale. The combined strengths of Amazon Q and Infosys Topaz will help organizations innovate, achieve operational agility, and unlock differentiated value for their clients. Through this collaboration, Infosys and AWS are committed to delivering solutions rooted in technical excellence and tailored to address the unique demands of global industries."

**Balakrishna D. R. (Bali), Executive Vice President, Global Services Head, AI and Industry Verticals, Infosys**, said, "Our collaboration with AWS is fundamentally reshaping how enterprise value is created and delivered. By integrating Amazon Q Developer with Infosys Topaz, we are not just transforming our internal functions, such as development cycles, but also enabling our clients to

reimagine critical functions like HR, recruitment, and vendor management. Together, we are building an AI-first ecosystem that empowers enterprises to navigate their next business transformation with agility and precision. This is about amplifying human potential to drive innovation and deliver impact at an unprecedented scale.”

### **About Infosys**

Infosys is a global leader in next-generation digital services and consulting. Over 320,000 of our people work to amplify human potential and create the next opportunity for people, businesses, and communities. We enable clients in 59 countries to navigate their digital transformation. With over four decades of experience in managing the systems and workings of global enterprises, we expertly steer clients, as they navigate their digital transformation powered by cloud and AI. We enable them with an AI-first core, empower the business with agile digital at scale and drive continuous improvement with always-on learning through the transfer of digital skills, expertise, and ideas from our innovation ecosystem. We are deeply committed to being a well-governed, environmentally sustainable organization where diverse talent thrives in an inclusive workplace.

### **Safe Harbor**

Certain statements in this release concerning our future growth prospects, or our future financial or operating performance, are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results or outcomes to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence (“AI”), generative AI, the complex and evolving regulatory landscape including immigration regulation changes, our ESG vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity, capital resources, our corporate actions including acquisitions, and cybersecurity matters. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2025. These filings are available at [www.sec.gov](http://www.sec.gov). Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
