MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Global economic prospects continue to be uncertain and the latest developments in the financial markets, especially in the advanced economies, have added to this uncertainty. In its April 2023 update of the World Economic Outlook (WEO), the IMF has attempted to clear the path of uncertainty. It has projected global growth to decline from 3.4 per cent in 2022 to 2.8 percent in 2023. Growth is forecasted to marginally improve to 3.0 per cent in 2024, but not enough to beat the growth rate of 2022 while falling significantly short of the 6.4 percent mark attained in 2021. Elevated inflation and financial tightening, which have weakened the growth process, are thus expected to weigh on economic activity for at least three years since the armed conflict broke out between Russia and Ukraine in February 2022. The slowing of global growth, accompanied by pressures from deglobalisation and supply chain disruptions, has also moderated global trade. IMF projects the increase in global trade volume to fall from 5.1 per cent in 2022 to 2.4 percent in 2023 before slightly improving to 3.5 per cent in 2024.

Policymakers the world over are currently facing a predicament. The last two years have seen the global economy struggling to deal with overlapping crises, the latest being the liquidity troubles after a series of global bank crises. While the impact appears to have been contained, these uncertainties continue to undermine the confidence among consumers and businesses to spend, therefore impacting economic growth.

Even as external stability strengthened, factors contributing to internal stability also improved. Fiscal parameters for the centre and the states in FY23 have been robust, as seen in solid revenue generation and improvement in the quality of expenditure. The improvement in expenditure quality is driven by significant capex by the centre and the rationalisation of revenue expenditure consequently.

India's gross domestic product (GDP) at current prices in the first quarter of 2022-23 was estimated to be Rs. 36.85 lakh crore as against Rs. 32.46 lakh crore) in 2021-22, showing a growth rate of 13.5%.

Despite slowdown of world and Indian Economy your Company delivered a strong performance in FY 2022-23 across businesses, leading to delivery of highest ever consolidated profit.

The Company does not anticipate any challenges in its ability to continue as going concern or meeting its financial obligations.

Outlook**Textile Industry**

India's textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, with the capital-intensive sophisticated mills sector at the other end. The fundamental strength of the textile industry in India is its strong production base of a wide range of fiber/yarns from natural fibers like cotton, jute, silk and wool, to synthetic/man-made fibers like polyester, viscose, nylon and acrylic.

The decentralized power looms/ hosiery and knitting sector form the largest component of the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India's textiles industry has a capacity to produce a wide variety of products suitable for different market segments, both within India and across the world.

India's textiles industry has around 4.5 Crore employed workers including 35.22 lakhs handloom workers across the country.

After agriculture, textile in India is the largest industry which generates the highest employment, both skilled and unskilled. The sector contributes ~5% to the country's GDP, 7% of industry output in value terms and 12% of the country's export earnings. India is the 6th largest exporter of textiles and apparel in the world. These points to one reality... the textile industry is critical for India's growth.

The Indian textile and apparel industry is expected to grow at 10% CAGR from 2019-20 to reach US\$ 190 billion by 2025-26. India has a 4% share of the global trade in textiles and apparel.

Challenges: There appears to be a considerable promise for the sustained growth of the sector owing to a plethora of opportunities on the horizon. Likewise, there are challenges too. They are:

The huge spike in raw cotton prices could dent India's competitiveness in the global market despite being the largest producer of cotton in the world

Lack of scale and restricted access to key markets.

The Amended Technical Upgradation Funds (ATUF) scheme, which provides a capital investment subsidy of 10-15% to textile manufacturers, is about to expire. The industry does not have any clarity on the possibility of its extension

Government impetus: The Government is aware of the position of the textile industry and the promise it affords in accelerating the wheels of the economy. It has made important announcements that can draw considerable investments in this sector.

Government allowed 100% FDI in textiles under automatic route.

The Central Government announced Production-linked Incentive (PLI) Scheme worth Rs. 10,683 crore for manmade fibre and technical textiles over a five-year period.

The Indian government has notified uniform goods and services tax rate at 12% on man-made fabrics (MMF), MMF yarns and apparel, which came into effect from January 1, 2022.

Under the Union Budget 2022-23 the total allocation for the textile industry is Rs. 12,382 crore

Huge funds in schemes such as Rs. 900 crore (US\$ 109.99 million) for Amended Technology Upgradation Fund Scheme (ATUFS) have been released by the Government in the union budget of 2023-24 to encourage more private equity investments and provide employment.

In order to attract private equity and employee more people, the government introduced various schemes such as the Scheme for Integrated Textile Parks (SITP), Technology Upgradation Fund Scheme (TUFS) and Mega Integrated Textile Region and Apparel (MITRA) Park scheme.

FMCG

M.K. Exim (India) Limited is part of the Fast-Moving Consumer Goods (FMCG) industry which continues to be one of the biggest long-term sustainable business opportunities that our country offers. Despite being one of the fastest growing markets globally for FMCG products, India's per capita FMCG consumption is still amongst the lowest in the world. Rural markets account for more than 60% of our country's population and contribute to just about 30% of FMCG consumption; thus, offering significant headroom for growth. Rising affluence, large working population, nuclear family structures, urbanization and rapidly increasing adoption of technology will positively impact the growth of FMCG industry in the country. The operating environment this year continued to remain volatile and challenging. India witnessed a devastating second wave of Covid-19 during the year 2019 to 2022 with a significant humanitarian and economic impact. Due to the disruption in global supply chains, inflation in many key commodities like crude oil derivatives and packaging rose to historic highs. The latter half of the year witnessed a marked moderation in the FMCG market growth with volumes being impacted due to high inflation. As we gradually emerged from the challenging phase of the pandemic, the consumption of hygiene products moderated. Consumers are also increasingly choosing brands which they see as making a positive impact on the world. India is undergoing rapid digital transformation, new-age technologies are transforming the landscape of consumer goods market, bringing opportunities for brands, consumers, and customers alike. E-Commerce continues to gain traction as more consumers shop online and with more digital-first brands entering the market. With a technology-focused approach, retailers are reinventing their business models to stay more connected in the digital world. The two years of pandemic and Russia and Ukraine war has made us a stronger, better business which is much more resilient and responsive. As the economy, consumer and channel landscapes rapidly evolve, we continue to be agile to leverage our strengths, capture opportunities and navigate through the challenges.

Our strategy is constantly evolving in line with the trends and forces shaping our markets and impacting our multi-stakeholders. We remain committed to delivering 4G growth - growth that is consistent, competitive, profitable, and responsible.

We are growing our core business by investing in our purposeful brands and delivering superior products. India is a diverse country - with different climatic conditions, varied skin and hair types and even differing quality of water. We are bringing to life our product philosophy of designing for India and Winning in Many Indias (WiMI).

We have a long-standing relationship with our customers that are based on trust and mutuality of interest. We continue to work with all our partners to serve the evolving needs of our shoppers. Our Endeavour is and has always been to ensure that our brands are easily available wherever shoppers choose to shop.

Partnering for growth:

As the customer landscape continues to evolve, we have been taking several steps to ensure that our partners and distributors remain future-fit.

This financial year was unpredictable and challenging with continued pressure from Covid-19 and unprecedented cost inflation. As global supply chains were disrupted, firstly, due to the pandemic and then later due to the geopolitical crisis, inflation in many commodities like crude oil derivatives, vegetable oils, packaging, etc. rose to historic highs resulting in significant input cost pressures. High inflation also resulted in a marked moderation in FMCG market growth with volumes declining in second half of the year.

Our performance in a challenging environment, we have shown resilience and agility to deliver strong all-round performance. We have gained market shares in all our divisions, across price segments and across regions. In Hair Care and personal care division performing well on a strong base comparator. Our dynamic financial management, a strong savings programme and calibrated pricing actions helped protect our business model against rising input costs.

3. Risks and Concerns

The both textile and FMCG industries are facing the issues of lack of skilled labour, inflexible labour laws, lack of modernization and infrastructure bottlenecks. Due to fragmented nature of the industry, there are higher logistic costs, higher lead time and lack of economies of scale. Also, global volatility can put any business to the risk of unforeseen inflationary pressures and affect demand for its products. Disturbances in geopolitics can affect the operation of supply chains and cost of other factors of production. Your company has a systematic process of material procurement and has a robust framework for continuous monitoring, identification and redressal to meet unforeseen challenges.

Risk management is integral to your Company's strategy and to the achievement of Company's long-term goals. Our success as an organization depends on our ability to identify and leverage the opportunities generated by our business and the markets we operate in. In doing this we take an embedded approach to risk management which puts risk and opportunity assessment at the core of the Board's agenda, which is where we believe it should be. Company's appetite for risk is driven by the following: • Our growth should be consistent, competitive, profitable, and responsible; • Our actions on issues such as plastic and climate change must reflect their urgency, and not be constrained by the uncertainty of potential impacts; • Our behaviours must be in line with our Code of Business Principles (Code) and Code Policies; • Our ambition to continuously improve our operational efficiency and effectiveness. Our ap-

proach to risk management is designed to provide reasonable, but not absolute, assurance that our assets are safeguarded, the risks facing the business are being assessed and mitigated and all information that may be required to be disclosed is reported to Senior Management and Board & Board Committees including, where appropriate, the Chief Executive Officer and Managing Director, Audit Committee. For each of our principal risks we have a risk management framework detailing the internal controls we have in place and who is responsible for managing both the overall risk and the individual controls mitigating that risk. Our assessment of risk considers short and long term as well as internal and external risks including financial, operational, sectoral, sustainability (particularly Environment, Social and Governance related risks), information, legal & compliance and any other risks as may be determined by the Company Leadership teams.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company and its associate in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated Ind AS financial statements and our auditor's report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for Consolidated Financial Statements

The Company's Board of Directors is responsible for preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Company's Board of Directors is also responsible for ensuring accuracy of record including financial information considered necessary for the preparation of Consolidated Financial Statements. The respective Board of Directors of the companies including its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group, its associate and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which has been used for the purpose of preparation of the consolidated financial statements by Directors of the company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the Companies are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors are also responsible for overseeing the company's financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise

from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the companies to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the companies to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the business activities within the Group and its associates and joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such business activities included in the consolidated financial statements of which we are the independent auditors. For the business activities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the associate company included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The financial statements for the year ended March 31, 2023 were approved for issue by Company's Board of Directors on 30.05.2023.

2. PRINCIPLES OF CONSOLIDATION AND EQUITY ACCOUNTING

The consolidated financial statements relate to M.K. EXIM (INDIA) Limited ("the Company") and its associate company.

Associate is an entity over which the company has significant influence but not control. This is generally the case where the holding is between 20% and 50% of the voting rights. Investment in associate is accounted for using the equity method of accounting.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint venture are recognised as a reduction in the carrying amount of the investment. When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealised gains on transactions between the group, its associate and joint venture companies are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group. The carrying amount of equity accounted investments are tested for impairment.

3. Preparation and Presentation of Financial Statements**3.1 Basis of preparation and measurement****a. Basis of preparation:**

The Consolidated Financial Statements of the Company have been prepared in accordance with, and in compliance, in all material aspects, with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013 and presentation requirements of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable. The financial statements have been prepared under the historical cost convention on accrual and going

concern basis. The accounting policies have been consistently applied by the company are consistent with those used in the previous year.

The Company's Consolidated Financial Statements are presented in Indian Rupees, which is also its functional currency.

b. Basis of measurement:

The preparation of financial statements are in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

3.2 Significant Accounting Policies:

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

a. Property, plant and equipment:

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Borrowing costs relating to acquisition of tangible assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Assets under installation or under construction as at the Balance Sheet date are shown as Capital Work in Progress.

b. Intangible Fixed Assets:

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

The estimated useful lives for main categories of intangible assets are as below:

Major Class of Asset	Estimated Useful Life
Computer Software	10 years

c. Impairment of Assets:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

d. Depreciation:

Depreciation is provided on assets to get the initial cost down to the residual value. Land is not depreciated. Depreciation is provided on a straight-line basis over the estimated useful life of the asset or as prescribed in Schedule II to the Companies Act, 2013 or based on a technical evaluation of the asset. Cost incurred on assets under development are disclosed under capital work in progress and not depreciated till asset is ready to use i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Estimated useful life of items of Property, Plant and Equipment are as follows:

Major Class of Asset	Estimated Useful Life
Building	60 years
Plant & Machinery	15 years
Furniture & Fixture	10 years
Electric Appliance	10 years
Vehicles	8 years
Computer	3 years

The residual values and useful lives for depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the

asset's carrying amount is greater than its estimated recoverable amount. Recoverable amount is higher of the value in use or exchange.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amount and are recognised in the Statement of Profit and Loss.

e. Foreign Currency Transaction

All Foreign currency transaction are recorded at the rates prevailing on the date. Foreign Currency transaction remaining unsettled at the Balance Sheet date are translated at the exchange rate prevailing at the Balance Sheet date or at the rate which is likely to be realized in certain specific cases. The exchange difference on settlements / conversion are credited / charged to profit. The Company has not entered into any forward exchange contract during the period.

f. Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises the purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired by the issue of shares or the other securities, the acquisition cost is the fair value of securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

Current investments are carried at the lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in

the value of the long term investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

g. Employee Benefits:

Employee benefits include provident fund, employee state insurance scheme and gratuity fund. The company has taken a policy from Life Insurance Corporation of India for the payment of gratuity. The gratuity has been provided in books on accrual basis.

h. Inventories:

Raw materials, work in progress, traded and finished goods are stated at the lower of cost and net realisable value on FIFO Basis, net realisable value represents the estimated selling price less all estimated cost of completion and selling expenses. Stores and spares are carried at cost. Provision is made for obsolete, slow-moving and defective stocks, where necessary.

i. Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest, exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost and other costs that an entity incurs in connection with the borrowing of funds.

j. Revenue Recognition:

- i. **Revenue from Operations:-** Sale and operating income includes sale of products, services, etc. Sale of goods are recognised net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer. Sale of services are recognised when services are rendered and related costs are incurred.
- ii. **Other income:-** Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same. In the case of uncertainty income is booked in the year of receipt or when it becomes certain. Interest income is recognised on time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognised when right to receive is established. Rent income is booked as per terms of contracts.

k. Income Tax:

a. Current Income Tax:-

Current Income Tax is measured at the amount expected to be paid to the tax authorities in accordance with local laws of various jurisdiction where the Company operates.

b. Deferred Tax:-

Deferred tax is provided using the Balance Sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against

which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The tax rates and tax laws used to compute the tax are those that are enacted or substantively enacted at the reporting date.

Current and Deferred Tax are recognized in the Statement of Profit and Loss except to items recognised directly in Other Comprehensive income or equity in which case the deferred tax is recognised in other comprehensive income and equity respectively.

I. Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

m. Provisions, contingent liabilities and contingent assets

A provision is recognized when there exists a present obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to present value and are determined based on best estimates required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is a possible asset arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized till the realisation of the income is virtually certain. However, the same are disclosed in the financial statements where an inflow of economic benefit is possible.

n. Cash and cash equivalent:

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short term deposits with banks.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and

procedures that

- i. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- ii. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- iii. Provide reasonable assurance regarding prevention of timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under section 143(3)(i) of the Act adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to the branch at Mumbai, is based on the corresponding report on the auditors of Mumbai branch of the company. Our opinion is not qualified in respect of this matter.

2. Preparation and Presentation of Financial Statements

2.1 Basis of Preparation and measurement

a. Basis of preparation:

The Financial Statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013 and presentation requirements of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable.

b. Basis of measurement:

The financial statements have been prepared on accrual basis and in accordance with the historical cost convention, unless otherwise stated. All assets and liabilities are classified into current and non-current generally based on the nature of product/activities of the Company and the normal time between acquisition of assets/ liabilities and their realization / settlement in cash or cash equivalent. The Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

2.2 Significant Accounting Policies:

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

i. Property, plant and equipment:

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses if any. Cost comprises the purchase price and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Borrowing costs relating to acquisition of tangible assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use. Assets under installation or under construction as at the Balance Sheet date are shown as Capital Work in Progress.

ii. Intangible Fixed Assets:

Intangible assets are recognized when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

The estimated useful lives for main categories of intangible assets are as below:

Major Class of Asset	Estimated Useful Life
Computer Software	10 years

iii. Impairment of Assets:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

iv. Depreciation:

Depreciation is provided on assets to get the initial cost down to the residual value. Land is not depreciated. Depreciation is provided on a straight-line basis over the estimated useful life of the asset or as prescribed in Schedule II to the Companies Act, 2013 or based on a technical evaluation of the asset. Cost incurred on assets under development are disclosed under capital work in progress and not depreciated till asset is ready to use i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by management. Estimated useful life of items of Property, Plant and Equipment are as follows:

Major Class of Asset	Estimated Useful Life
Building	60 years
Plant & Machinery	15 years
Furniture & Fixture	10 years
Electric Appliance	10 years
Vehicles	8 years
Computer	3 years

The residual values and useful lives for depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Recoverable

amount is higher of the value in use or exchange.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amount and are recognised in the Statement of Profit and Loss.

v. Foreign Currency Transaction

All Foreign currency transaction are recorded at the rates prevailing on the date. Foreign Currency transaction remaining unsettled at the Balance Sheet date are translated at the exchange rate prevailing at the Balance Sheet date or at the rate which is likely to be realized in certain specific cases. The exchange difference on settlements / conversion are credited / charged to profit. The Company has not entered into any forward exchange contract during the period.

vi. Investments:

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises the purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired by the issue of shares or the other securities, the acquisition cost is the fair value of securities issued. If an investment is acquired in exchange for another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.
