^ The Company acquired 70% of the equity shares of Molsieve Designs Limited on June 19, 2025. Accordingly, the order book of Molsieve Designs Limited has been considered for the first time in this statement.								
For ease of understanding, we have considered the order inflow and execution amount to be the same for this period.								
# The total value of orders executed during the period represents the aggregate amount of invoices raised on customers. However, the revenue recognized under Indian GAAP (Ind AS 115 - Revenue from Contracts with Customers) may differ from the invoiced amount, owing to the application of various Incoterms and performance obligations under respective contracts. Consequently, revenue recognition is aligned with the transfer of control of goods or services to the customer, and not merely based on invoicing milestones. Accordingly, the revenue recognized during the reporting period may be lower than the total invoiced value for the same period.								
## Exchange rates for existing export orders of DEE Thailand considered INR 2.93772 per THB as on 31st October 2025. source link below: https://www.bot.or.th/en/statistics/exchange-rate.html
