---

Dear Sir/ Madam,

In continuation of our earlier communication dated February 24, 2025 and June 19, 2025, and pursuant to Regulation 30(6) read with Para A of Part A of Schedule III of the SEBI Listing Regulations we wish to inform you that:

The Company has successfully completed the acquisition of **VIPL**, a company undergoing **Corporate Insolvency Resolution Process ("CIRP")** on July 07, 2015, under the provisions of the **Insolvency and Bankruptcy Code, 2016 ("IBC")**, in accordance with the resolution plan approved by the Hon'ble **National Company Law Tribunal, Mumbai Bench** vide its order dated **June 18, 2025**.

Pursuant to the implementation of the approved resolution plan, Adani Power Limited (the "**Company**") has, among other actions, acquired **100% shareholding of VIPL (on Debt free basis)**. Accordingly, **VIPL has become a wholly owned subsidiary of the Company** effective July 07, 2025 (date of acquisition of VIPL or implementation of Resolution Plan to acquire VIPL).

The details for the above acquisition as required pursuant to Regulation 30 (6) read with Para A (1) of Part A of Schedule III of the SEBI Listing Regulations and the SEBI Master Circular SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 is already intimated *vide* our letter dated June 19, 2025.

A copy of the media release in this regard is attached herewith.

The aforesaid information is also available on the Company's website at [www.adanipower.com](http://www.adanipower.com).

Kindly take our above-referred disclosure on your record.

**Yours faithfully,**  
**For Adani Power Limited**

**Deepak S Pandya**  
**Company Secretary**  
Encl.: As above.

## Media Release

### Adani Power completes the acquisition of 600 MW Vidarbha Power

- Adani Power's operating capacity now stands at 18,150 MW
- Company on track to achieve 30,670 MW capacity by 2029–30
- VIPL is a 2x300 MW operational power project located in Nagpur, Maharashtra

**Ahmedabad, July 8, 2025:** Adani Power Ltd. (APL), India's largest private thermal power producer, has successfully completed the acquisition and resolution plan implementation of Vidarbha Industries Power Ltd. (VIPL) for an aggregate consideration of INR 4,000 crore. VIPL is a 2x300 MW domestic coal-fired power plant located in Butibori, Nagpur district, Maharashtra.

VIPL was undergoing Corporate Insolvency Resolution Process (CIRP) under the Insolvency and Bankruptcy Code (IBC). On June 18, 2025, the Hon'ble Mumbai Bench of the National Company Law Tribunal (NCLT) approved Adani Power's resolution plan. Subsequently, the plan was successfully implemented on July 7, 2025.

APL takes its operating capacity to 18,150 MW with this acquisition. APL is further undertaking the expansion of its base load power generation portfolio through a mix of brownfield and greenfield projects. It is currently constructing six brownfield Ultra-supercritical power plants (USCTPP) of 1,600 MW each at its existing locations at Singrauli-Mahan in Madhya Pradesh, Raipur, Raigarh, and Korba in Chhattisgarh, and Kawai in Rajasthan, in addition to a 1,600 MW greenfield USCTPP at Mirzapur, Uttar Pradesh. Apart from this, it is also reviving the construction of a 1,320 MW Supercritical power plant at Korba that it has acquired previously. With this, APL would cement its position as India's largest private base load power generation company with 30,670 MW of operational capacity by 2030.

### SB Khyalia, Chief Executive Officer, Adani Power Ltd., said:

"The acquisition of VIPL is a key milestone in Adani Power's strategy to unlock value through the turnaround of stressed assets. As we continue expanding our portfolio, we remain committed to supporting India's vision of 'Electricity for All' by delivering reliable, affordable base-load power that fuels the country's sustainable growth."

### About Adani Power

Adani Power Ltd. (APL), part of the Adani portfolio, is India's largest private thermal power generation company. The company has an installed capacity of 18,150 MW across thermal power plants in Gujarat, Maharashtra, Karnataka, Rajasthan, Chhattisgarh, Madhya Pradesh, Jharkhand, and Tamil Nadu. It also operates a 40 MW solar power plant in Gujarat. With a world-class execution team and a focus on technology and innovation, APL is driving the nation's journey toward affordable and reliable energy access.
