

Investor Release: 7th August 2021, New Delhi

Amber Enterprises India Ltd. (AEIL) has declared its un-audited Financial Results for the Quarter ended 30th June 2021

Consolidated Financial Highlights (Q1FY22 vs Q1FY21)

Rs. In Crs.

Additional Highlights:
▪ New Customers

The ban on imports with refrigerant filled ACs has opened up new opportunities for the domestic manufacturers and for Amber. The Company has already signed 6 new customers since the notification has been announced

*Before impact of ESOP of Rs. 3.26 Crs in Q1FY22

Q1FY21 performance was impacted due to Covid-19 first wave induced lockdown and Q1FY22 performance was impacted by Covid-19 second wave induced lockdown restrictions of varying degrees across different regions of the country

Commenting on the results and performance for Q1 FY22, Mr. Jasbir Singh, Chairman & CEO of Amber Enterprises India Ltd said:

“The performance during the quarter was interrupted by the resurgence of the second wave of Covid-19. The consequent lockdown like restrictions of varying degrees across different regions of the country disrupted the business during the peak summer season.

As we speak today, the situation is inching towards normalcy with demand gaining traction across our markets. The consumer spending continues to be healthy despite price increases and we expect to witness growth in demand for our products.

The PLI scheme by the government has given manufacturing an impetus. This will help India to be one of the global manufacturing hubs producing world-class products. With the opportunity in hindsight, our constant endeavour would be to increase penetration and increase our wallet share with the existing customers and acquire new customers and increase export penetration as we will become more competitive with this PLI incentive and R&D capabilities.

We believe the structural shift in consumer ecosystem will prove to be a game changer for us as we are present into Room ACs as well as other consumer durable items on the components side.

On our Sidwal Business, with the increased focus of the government for comfortable travel and high-speed movement, we believe the sector has an exciting journey ahead. We continue to remain confident to deliver & maintain healthy order book going ahead.

With the vaccination drive pricking up momentum, we expect the Industry prospects to be encouraging.”
