G20 Member Countries Reaffirm Commitment to Ensuring Education Continuity and Safety for all

(By Press Information Bureau)

Education Ministers of G 20 nations have resolved to work together and share best practices in the area of education so that member countries can ensure inclusive and equitable quality education and promote lifelong learning opportunities for all, even in times of crises. A virtual meeting of G20 Education Ministers was held yesterday to discuss and share experiences of member countries in the three identified areas of Education Continuity in Times of Crises, Early Childhood Education and Internationalization in Education. Yesterday's meeting was the culmination of ongoing discussions on these themes, conducted virtually due to the Covid 19 pandemic.

Representing India, Union Minister of Education Shri Ramesh Pokhriyal Nishank said that these themes are also priority areas that the Government of India has been pursuing. India's commitment for these themes is reflected in the new National Education Policy 2020 that seeks to bring in transformational changes in the education landscape of the country. He said India will continue the efforts it has taken to reform and transform its education system and mitigate the challenge posed by the Covid 19 pandemic. He also said India is committed to collaborate with G 20 member countries in the area of education. The Education Ministers adopted a communique at the end of the meeting. Regarding ensuring education continuity in times of crises, the communique recognizes the value of distance and blended teaching and learning and underscore the importance of enhancing access to high-quality education, professional development for educators, digital infrastructure and content, cybers security awareness, appropriate teaching methodologies and active learning, while recognizing that these approaches complement face-to-face learning.

Over 3,800 Punjab policemen COVID-19 infected so far

Chandigarh, Sept 7 (IPA) : Over 3,800 Punjab policemen have tested positive for COVID-19 since the pandemic began, an official statement said on Sunday. It said senior police officials are calling up COVID-19 infected personnel to motivate them to fight the disease. The Punjab Police is also providing free health kits with a pulse oximeter, sanitisers and medicines to the infected policemen, it said. According to the statement, 3,803 policemen in the state have tested positive for the disease so far. Twenty of them have died, while 2,186 cops have fully recovered. At present, 1,597 policemen are COVID-19 positive, it said. "All COVID positive police personnel are being provided health kits which include a digital thermometer, pulse oximeter, sanitisers, medicines, vitamins etc.

GST second major attack on India's unorganised economy : Rahul Gandhi

New Delhi, Sept 7 (IPA) : Congress leader Rahul Gandhi on Sunday said the NDA's Goods and Services Tax (GST) is not a tax system but an "attack" on India's poor and on its small and medium businesses, and urged all to stand against it. Dubbing the GST as "Gabbar Singh Tax", he said it is the second major attack on India's unorganised economy, and is an "absolute failure". He had earlier said demonetisation was the first attack on the informal sector in the economy. As part of his video series on the economy, the former Congress president alleged that the NDA government has kept four different tax slabs to help

those big industrialists with means and contacts to change the taxes under the GST regime. "This GST is an absolute failure. Not only is it unsuccessful, it is an attack on the poor and on the small and medium businesses," he said in the video series shared on his social media platforms. "GST is not a tax system, it is an attack on India's poor. It is an attack on small shopkeepers, small and medium businesses, farmers and labourers. "We have to recognise this attack and stand against it together," he said. Gandhi shared the under 3-minute video on Twitter and said, "Another major reason for the historic decline in GDP is the Gabbar Singh Tax

(GST) of the Modi government. It has destroyed a lot - lakhs of small businesses, crores of jobs and the future of youth and the financial health of states. GST means economic devastation." This is the third of the four-part series by him on the economy. Gandhi and the Congress have stepped up their attack on the Modi government over the state of the economy after India's economic growth suffered its worst fall on record in the April-June quarter, with the gross domestic product (GDP) contracting 23.9 percent. He claimed that the GST was UPA's idea, which meant "One tax, minimal tax, standard and simple tax".

"NDA's GST is completely different. Four different tax slabs, up to 28 percent, complicated and difficult to understand," he alleged.

The Congress leader said the small and medium businesses cannot pay this tax, whereas the big companies can easily pay it by employing a few accountants to do the job.

"Why are there four different rates? This is because the government wants those who have the means to be able to easily change GST, and those who don't have means, cannot do anything about GST.

"Who has the means? India's biggest 15-20 industrialists. So, whatever tax law they want to change can easily be done in this GST regime," he alleged. Gandhi said the result of the NDA's GST is that today, the Government of India is unable to provide the GST compensation money to the states. The states are unable to give money to state employees and teachers, he said. Gandhi has earlier brought out a similar video series on the situation on the border with China.

Gujarat adds record 1,335 COVID-19 cases in day; 14 die

Ahmedabad, Sept 7 (IPA) : Gujarat on Sunday reported the highest single-day spike of 1,335 new coronavirus cases, taking the total count of infections in the state to 1,04,341, health department said. With 14 more deaths, the cumulative toll went up to 3,108, it said. A total of 1,212 patients were discharged in the day, taking the number of recoveries to 84,758, the department said in a release. With this, the state's recovery rate now stands at 81.23 per cent. A total of 72,561 samples were tested in the last 24 hours, which comes at the rate of 1,116.32 tests per day per million population.

August sees fastest growth of COVID-19 cases in Maharashtra

Mumbai, Sept 7 (IPA) : Maharashtra reported the fastest growth is coronavirus infection in August, registering over 3.70 lakh cases, a senior state health official said. According to data of the Maharashtra health department, the state reported 3,76,587 COVID-19 cases last month, 2,41,820 cases in July and 1,04,748 cases in June. "On August 1, the total number of COVID-19 cases in the state was 4,31,719, which jumped to 8,08,306 on September 1. This is probably the fastest growth of cases in the state since January," the health official said. One of the reasons for the growth in number of positive cases is the increased number of tests, he said, adding that last

month, the state carried out 20,16,809 tests. "The number of tests conducted till August 1 was 21,94,943, which rose to 42,11,752 on September 1. The state is aggressively testing which is helping in detection of the infected people," the official said. The official informed that the number COVID-19 cases and deaths is continuously going up in the state. Between August 1 and 5, the number of COVID-19 cases rose by 36,546, and between September 1 and 5, the number went up by 75,556, the official said. Besides, the state reported 15,316 deaths due to the disease till August 1 and the number went up to 24,903 on September 1, as per the data.

"Between August 1 and 5, 1,160 people died due to COVID-19 and between September 1 and 5, 1,373 people died," the official said.

Leader of Opposition in the Maharashtra Assembly Devendra Fadnis has said the state needs to conduct more tests. "Out of the daily tests, a sizable number is of the antigen tests which are not completely reliable. The RT-PCR tests, which are more reliable, should be done on a large scale, which will be able to tell the ground reality about the coronavirus," he said. However, the health official said the antigen tests are comparatively cheaper than the RT-PCR tests and hence, conducted more as a precautionary measure.

Sushant case : NCB questions Rhea for about 6 hours

Mumbai, Sept 7 (IPA) : Actress Rhea Chakraborty was on Sunday questioned for about six hours by the Narcotics Control Bureau (NCB) in the drugs case linked to the death of her live-in partner and actor Sushant Singh Rajput. The 28-year-old arrived at the agency's office in the Ballard Estate area at 12 noon and left shortly after 6 PM. She was escorted by police personnel. Officials said she has been asked to appear again on Monday for questioning and recording of her statement like today. A team of the agency had early morning visited her home to serve summons to her for joining the probe. A team led by NCB joint director Sameer Wankhede had visited Rhea's house located in

Santa Cruz (west) area accompanied by local police and some women personnel. The team left after visiting her flat. The agency has said it also wants to confront Rhea with her younger brother Showik Chakraborty (24), Rajput's house manager Samuel Miranda (33) and his house staffer Dipesh Sawant in order to ascertain their individual roles in this alleged drug racket after it obtained mobile

phone chat records and other electronic data that suggested some banned drugs were allegedly procured by these people. The NCB has, over the last two days, arrested these three men in this case. Officials said the actor was questioned on these lines on Sunday. Rhea, in interviews given to multiple TV news channels, has said that she has never consumed drugs herself. She had, however, claimed that the late actor used to consume mari-

juana. It is claimed that Miranda told NCB investigators that he used to procure bud or curated marijuana for the late actor's household. A total of eight people have been arrested till now by the NCB with six being directly linked to this probe while two were arrested by it when the probe was launched under criminal sections of the Narcotic Drugs and Psychotropic Substances (NDPS) Act. When the probe in the case began, the agency had arrested two men, Abbas Lakhani and Karan Arora, for alleged drug peddling and officials have claimed that through them they reached Zaid Vilatra and Abdel Basit Parihar who are allegedly linked to this drugs case as they were in touch with Miranda.

Peak power demand in Delhi surges

New Delhi, Sept 7 (IPA) : The peak power demand of Delhi has increased by over 50 percent with resumption of normal activities due to easing of COVID-19 related lockdown restrictions, discom officials said. Peak power demand in the city has been muted this year as compared to the last year due to lockdown and weather conditions.

"However, since easing of restrictions on May 18, 2020, Delhi's peak power demand has increased by over 50 percent. If we compare the peak power demand since April 2020, it has already increased by over 87 percent," said the discom officials.

After the end of the lockdown 3.0 on May 17 and the easing of restrictions, Delhi's peak power has started increasing and the gap narrowed, they said.

"Infact, in July and August, Delhi's peak power demand surpassed last year's peak power demand on corresponding days on 13 occasions seven in July and six in August- by up to 19 percent."

Cooling load is the main factor behind the increase in Delhi's power load, said an official of BSES discoms BYPL and BRPL. Commensurate with Delhi's growing appetite for power, its electricity infrastructure must also keep pace. BSES will continue to successfully meet the ever increasing power demand and as always, be an active partner in the future development of the city, he said. During the lockdown, BSES strengthened its network and energised two 66/11 KV grids, that will benefit over two lakh residents in the city, he added.

With 478 fresh cases, overall tally rises to 17,032 in Puducherry

Puducherry, Sept 7 (IPA) : A total of 478 fresh COVID-19 cases and 16 deaths took the infection count to 17,032 and the toll to 314 in the union territory on Sunday, the government said. The 16 people who succumbed included five women and were in the age group ranging from 54 to 85. Most of the deceased had comorbidities,

a release from the Health department said. A total of 1,701 samples were tested, taking the total number of specimens examined so far to 83,142, Director of Health and Family Welfare S Mohan Kumar said. The overall COVID-19 cases in the union territory stood at 17,032 (after transfer of 12 cases to Tamil Nadu), he said.
