Clarification on Recent Media Reports and Investor Queries

With reference to recent media reports and investor queries pertaining to the Government of India's consideration of easing certain restrictions on Chinese companies bidding for government contracts, including within the electrical equipment sector, and the subsequent investor queries received by the Company, **Quality Power Electrical Equipments Limited** ("the Company") wishes to clarify the following:

Quality Power operates in **highly specialised, technology-intensive segments of the power transmission equipment industry**, including HVDC and FACTS related equipments & solutions. These segments are characterised by **stringent technical qualifications, long approval cycles, geopolitical clearances, and high entry barriers**, with limited global competition.

The Company would like to reiterate the following key points for the benefit of investors and stakeholders:

1. Revenue Profile:

A significant portion of the Company's revenues is largely **dollar-denominated**, providing natural diversification and insulation from domestic policy changes.

2. Competitive Track Record:

The Company has consistently competed with Chinese manufacturers for over three decades across domestic and international markets, including industrial and utility-grade applications, with established references in over **100 countries** where global competition is present.

3. Order Book Visibility:

The Company's current order book provides revenue visibility of more than one year, supported by a extremely strong and active global bid pipeline across multiple geographies and customer segments.

4. Business Outlook:

Based on current assessments, the Company does **not foresee any adverse impact on its growth strategy, revenues, or operating margins in the short to medium term**, and no negative guidance is anticipated for the same period.

5. Manufacturing Strength and Cost Position:

The Company's Make in India manufacturing base serves both domestic and export markets. The upcoming Global Coil Manufacturing Facility, expected to be commissioned during the year, is designed to be **highly efficient, vertically integrated, and globally cost-competitive**, enabling superior control over quality, cost, and delivery timelines.

Quality Power continues to focus on technology leadership, execution excellence, and global diversification, which remain central to its long-term strategy. The Company remains confident in its ability to deliver on its stated business objectives and create sustainable value for all stakeholders.

The Company will continue to engage transparently with investors and the market, in accordance with applicable regulatory requirements.
