Subject: Expansion of Manufacturing Operations and Establishment of Next-Generation R&D Centre

Kavveri Defence & Wireless Technologies Limited announced plans to expand its manufacturing operations with the construction of a new facility at its existing site in Surajakkanahalli, Bengaluru.

The new facility will add 10,000 square feet of manufacturing space, with the flexibility to expand up to 50,000 square feet in the future. This investment will enable the company to increase production throughout, streamline supply chain workflows, and strengthen its capability to serve both domestic and international demand across the defence, wireless, and industrial communication sectors.

Following this expansion, the company's current headquarters will be redesigned as a dedicated Research and Development Centre. The headquarters will now house advanced antenna design laboratories, RF testing infrastructure, simulation clusters, and low-volume prototype lines. This transition will create a clear separation between core production and innovation functions, allowing Kavveri to increase design agility while scaling output capacity. The investment also supports the company's broader mission to advance indigenous technologies under the 'Make in India' initiative.

Mr. Shivakumar Reddy, Managing Director of Kavveri Defence & Wireless Technologies Limited, said:

"This expansion at Surajakkanahalli represents an important step forward for the company. It enhances our ability to build more, test faster, and innovate efficiently. The new setup will allow our engineers to innovate in one space while production operates at full scale in another. As our product portfolio grows across defence and wireless communication, creating a larger and more agile production base has become essential. This investment positions Kavveri for its next phase of growth, with a strong focus on technology, quality, and self-reliance."

You are requested to kindly take the same on record for the purpose of dissemination to the shareholders

Thanking You,
Yours faithfully,

FOR KAVVERI DEFENCE & WIRELESS TECHNOLOGIES LIMITED
