AI AND MACHINE LEARNING BASED APPLICATIONS TO PLAY PIVOTAL ROLE IN TRANSFORMING INDIA'S POWER SECTOR, SAYS SHRI MANOHAR LAL

Artificial Intelligence (AI) and Machine Learning (ML) based applications will play a pivotal role in building intelligent, consumer-centric, self optimizing distribution networks, said Shri Manohar Lal, Minister of Power. The Minister was addressing the participants of the Two-day National Conference focusing on the use of AI/ML technologies in the power distribution sector, at Bharat Mandapam, New Delhi.

The Hon'ble Chief Minister has consistently emphasised the need to create large and well-planned industrial zones in the state that can grow into fully developed industrial townships. These townships are envisioned to include all essential support services such as manufacturing units, service enterprises, logistics facilities, warehousing systems and comprehensive social infrastructure. With these components, each township will be capable of functioning as a self-sustained centre of economic activity. In line with this vision, the Jodhpur–Palī–Marwar Industrial Area (JPMIA) is being developed across nearly 3600 hectares of land. Once completed, this will emerge as the largest industrial township in Rajasthan and is expected to give strong new momentum to the state's economic development. The project will attract substantial investment and create thousands of employment opportunities, providing significant support to both the local economy and the wider regional growth landscape. To implement the Delhi–Mumbai Industrial Corridor (DMIC) project, the Rajasthan Industrial Corridors Development Corporation Limited (RICDCL) has been established as a Special Purpose Vehicle (SPV). In this SPV, the Rajasthan State Industrial Development and Investment Corporation Limited (RICO) holds a 51 percent equity stake on behalf of the Government of Rajasthan, while the National Industrial Corridor Development and Implementation Trust (NICDIT) holds the remaining 49 percent on behalf of the Government of India. Western Rajasthan is rapidly emerging as one of the fastest growing industrial regions in the country. The upcoming refinery at Pachpadra, the Western Dedicated Freight Corridor (WDFC), and a swiftly expanding logistics network that includes the Amritsar–Jammagar Highway are collectively strengthening the region's connectivity and industrial potential. These developments are positioning the area as an increasingly attractive destination for domestic and global investors.
