Press Release – For Immediate Release

Premier Energies Forms Strategic Joint Venture to Strengthen EPC Capabilities in Renewable Energy

Hyderabad, 10th February 2026

Premier Energies Limited has announced formation of a strategic joint venture with BA Prerna Renewables Private Limited to expand its presence in the Engineering, Procurement and Construction (EPC) segment in the renewable energy sector.

The joint venture will be executed through HeliosAnthos Energies Private Limited, a newly incorporated company, in which Premier Energies will acquire and hold a 51% equity stake, while BA Prerna Renewables Private Limited will hold the remaining 49% stake. HeliosAnthos Energies Private Limited plans to undertake EPC contracts for solar, wind, standalone battery solar-wind-battery hybrid projects across India. The joint venture will offer end-to-end EPC solutions covering land acquisition, transmission connectivity, statutory approvals, detailed engineering, procurement, installation and commissioning.

The formation of this joint venture aligns with Premier Energies' strategy to deepen its downstream capabilities, complement its integrated manufacturing strengths and its business share across the renewable energy value chain.

Commenting on the development, Mr. Chiranjeev Saluja, Managing Director & CEO, Premier Energies Limited, said: "This JV would strengthen our EPC capabilities and expand our footprint across the renewable energy sector. As the renewable energy market evolves, integrated solutions combining manufacturing excellence with execution capabilities will become more critical. Our partner, BA Prerna, brings special expertise in securing land and transmission connectivity, which are critical requirements for solar and storage-led energy infrastructure in India."

About Premier Energies Limited

Premier Energies Limited is a publicly listed company and one of India's largest integrated solar manufacturers, with over three decades of experience in the solar industry. The Company is recognized for its emphasis on technology innovation, sustainability, and operational excellence, and has been certified as a Great Place to Work® for five consecutive years.
