Dear Sir/Madam,

Subject: Reason for late submission of Intimation and late publication in newspaper under Regulation 30 and Regulation 47(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations)

In accordance with Regulation 30 and Regulation 47(3) of Listing Regulations, the company has to give Advertisements of the Financial Results as specified in Regulation 33 of Listing Regulations within 48 hours of the conclusion of the meeting of the Board of directors at which the financial results were approved.

The meeting was concluded on Saturday evening; therefore, it was not possible to send the extract on the same day. Additionally, the publisher team was unavailable on Sunday, which led to a delay in the publication of the financial results in the newspapers.

We request you to consider aforementioned reason for delay and take this on record.

Thanking you

Yours truly

Hospitality firms see little room for growth in FY26

Revenue growth may be 6-8% after 3 years of double-digit rise

AKSHARA SRIVASTAVA
New Delhi, 9 June

Growth in the Indian hospitality sector is expected to normalise in this financial year FY26 as revenue growth for listed companies is set to settle between 6 per cent and 8 per cent, largely due to the base effect following three years of continuous double-digit revenue expansion seen by the industry from 2022-23 to 2024-25 (FY25).

"We estimate pan-Indian premium hotel occupancy to hold at 72–74 per cent in FY26, slightly higher than the 70–72 per cent levels witnessed in 2023-24 and FY25. The average room rates (ARRs) for premium hotels are projected to rise to ₹8,200–8,500 in FY26, after ₹8,000–8,200 in FY25," credit rating agency Icra said in a new note on Monday, while revising the sector outlook to 'stable' from 'positive'. Supply growth is expected to lag demand over the next 12–18 months.

Several hotels are undertaking renovations, refurbishment, and upgrades. While the near term may see muted foreign tourist arrivals in the aftermath of the terror attacks, the sector is expected to witness gradual recovery thereafter, along with demand driven by domestic tourism and improvements in infrastructure and air connectivity.

Favourable demographics and anticipated growth in large-scale meetings, incentives, conferences, and exhibitions (MICE) events, with the opening of multiple new convention centres in the past few years, among other factors, will support growth over the medium term.

Listed hospitality companies, like Taj parent Indian Hotels Company (IHCL) and the mid-scale chain Lemon Tree Hotels, continue to expect double-digit growth in FY26 while undertaking renovation activities across some of their properties.

"We expect to deliver strong growth with sustained margins and continued portfolio expansion, with a target of opening 30-plus hotels in FY26, three of which will be on our balance sheet. We are well on track to achieve our committed guidance of double-digit growth," Puneet Chhatwal, managing director (MD) and chief executive officer of IHCL, told investors in a post-earnings call after announcing the company's January–March quarter (Q4) results last month.

Companies are likely to report range-bound operating margins of 34–36 per cent for FY26, despite lower revenue growth.

The margins will remain supported by factors like cost-rationalisation measures and asset-light expansions in recent periods.

"However, within the sample, it is likely to be a mixed bag, depending on renovations and increases in employee expenses amidst growing demand," the note added.

In FY25, IHCL spent over ₹1,000 crore towards capital expenditure (capex), of which half was used for renovations, routine maintenance, and digital initiatives. For FY26, the company has earmarked over ₹1,200 crore.

"There's also large renovations planned in some of our assets, including Taj Palace in Delhi, Fort Aguada in Goa, St James' Court in the UK, and Taj Bengal, Kolkata. So essentially, if you put it all together, 60–65 per cent of the capex would get spent on renovations and digital investments," Chhatwal added during the analyst call.

At Lemon Tree Hotels, meanwhile, renovation costs are expected to impact gross ARR and occupancy in the coming year.

Checking in the new normal

- ARRs at premium hotels to rise to ₹8,200-8,500 from ₹8,000-8,200 in FY25
- Occupancies to hold at 72-74%, slightly higher from 70-72% in FY25
- Revenues, margins to be impacted by renovations
- IHCL to spend around ₹600 cr on renovations at Taj Palace, Delhi; Fort Aguada in Goa, among others
- Lemon Tree hotels to see margins impacted by renovations going into FY26 and FY27

Avg apartment loading factor up 40% in top cities

BS REPORTER
Mumbai, 9 June

Amid rising demand for state-of-the-art amenities within housing projects, the loading factor has grown to 40 per cent in the first quarter of the 2025 calendar year (Q1CY25) from 31 per cent in 2019 across the top Indian cities, according to research by Anarock. In residential apartments, the average loading factor is the difference between the super-built-up area and the carpet area. This means that the homebuyers are paying 40 per cent of their total homebuying money for the common areas like elevators, lobbies, clubhouses, staircases, terraces, gyms, and other amenities in Q1CY25, against 31 per cent in 2019.

Dr Prashant Thakur, regional director & head - Research & Advisory, Anarock Group, said, "While Rera now requires developers to mention the total carpet area provided to homebuyers, no law currently limits the loading factor in projects. Q1 2025 readings show that 60 per cent of the total space within their apartment homebuyers in the top seven cities pay for is now liveable space, and the remaining 40 per cent is common areas - elevators, lobbies, staircases, clubhouses, amenities, terraces, and so on. The average loading percentage was 31 per cent back in 2019."

Bengaluru has seen the highest percentile jump in average loading over the last seven years, from 30 per cent in 2019 to 41 per cent in Q1CY25. In 2022, the increasingly higher saturation of modern amenities that developers now include higher lifestyle ask in the IT hub, the report noted.

TaMo eyes mkt share gains in CV, PV biz

Outlines up to ₹35K crore capex for PV segment over FY26-FY30

SOHINI DAS & ANJALI SINGH
Mumbai, 9 June

Tata Motors (TaMo) is aiming to gain market share across its passenger vehicle (PV) and commercial vehicle (CV) businesses — targeting a 40 per cent share in CVs and a 16 per cent share in PVs by 2027. Meanwhile, it has already achieved earnings before interest, tax, depreciation, and amortisation (Ebitda) break-even in its electric vehicle (EV) business at 1.2 per cent (up 830 basis points), ahead of its target of 2025–26 (FY26).

The company is already a market leader in CVs, with a 37.1 per cent share in 2024–25 (FY25). In PVs, however, it aims to overtake its Korean peer Hyundai, with a long-term target of an 18–20 per cent share. Currently, TaMo has a 14 per cent share of the PV market.

It has also lined up sizeable investments to this end — it aims to spend 2–4 per cent of its CV business revenues as capital expenditure/capex (₹1,500–3,000 crore) over the next few years. It has also outlined a capital allocation of ₹30,000–35,000 crore for the PV business over FY26 through 2029-30 (FY30), most of which will be sharply focused on electric mobility. In FY25, TaMo spent 2.8 per cent of its CV revenues, or ₹1,900 crore, on capex, and 5.8 per cent of its PV revenues, or ₹2,800 crore, as capex.

The carmaker said it aims for the EV business to have a 20 per cent penetration in its portfolio by 2026-27 and take that up to 30 per cent by FY30, with continued improvements in margins. The EV business is well-funded for the next three years, TaMo said in its investor presentation, adding that it is aiming to lead the transition towards software-defined vehicles in India. The company has committed to a capex of ₹16,000–18,000 crore between FY25 and FY30 for its EV portfolio.

The company has also benefited from government production-linked incentives, which amounted to ₹102 crore for 2023-24 and ₹250 crore for FY25. Two existing models — Tiago.ev and Punch.ev — qualify for benefits under domestic value addition norms. Additional models like the Nexon.ev and Harrier.ev are expected to qualify for certification in FY26.

Tata Motors added that it plans to "converge" its cost structure for EVs with internal combustion engine vehicles and deliver positive Ebitda.

The EV business has maintained over 55 per cent market share, but it has been losing ground in the electric space in recent years.

Overall, it remains optimistic that the Indian PV industry will grow to 6 million units by FY30. By then, it plans seven new launches and 23 facelifts and refreshes.

As for CVs, the industry is expected to grow at a 3–5 per cent compound annual growth rate (CAGR) through FY30, supported by rising freight demand and infrastructure spending. Road freight movement (in billion tonne-kilometre) is expected to grow at a 5–7 per cent CAGR.

Bhargava: No impact of rare earth magnet shortage on us

Maruti Suzuki India Chairman R C Bhargava (*pictured*) on Monday said there was no impact on the company's production due to the shortage of rare earth magnets as of now.

His comments come against the backdrop of restrictions imposed by the Chinese government since April 4 on the export of rare earth elements and related magnets. China has mandated special export licences for seven rare earth elements and related magnets. It controls over 90 per cent of global processing capacity for the magnets, used across sectors including automobiles, home appliances and clean energy.

"There is no impact at the moment," Bhargava told *PTI* when asked if the firm is facing any production issues due to the global shortage.The production at the country's largest carmaker is going on as planned, he added. PTI

Airtel, Ericsson sign multi-year contract for network operations

PRESS TRUST OF INDIA
New Delhi, 9 June

Ericsson on Monday said it has secured a multi-year NOC Managed Services (MS) contract from telecom major Bharti Airtel.

The agreement covers management of Airtel's pan-India network through Ericsson's centralised network operations centre (NOC), supporting 4G, 5G NSA, 5G SA, fixed wireless access (FWA), private networks, and network slicing technologies, according to a company statement.

The company, however, did not disclose the financial details of the order.

"By leveraging intent-based NOC operations, we will enable Airtel to unlock wider service diversification to meet customer needs, thereby enabling new revenue opportunities for Airtel," Andres Vicente, head of market area Southeast Asia, Oceania and India, Ericsson said.

Bharti Airtel and Ericsson hold a longstanding partnership of 25 years.
