Sub: Investor Presentation on the Standalone and Consolidated Unaudited Financial Results for the quarter and nine months ended December 31, 2025.

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith a copy of Investor Presentation on the Standalone and Consolidated Unaudited Financial Results for the quarter and nine months ended December 31, 2025.

The above information is also available on the website of the Company at www.advaitgroup.co.in.

You are requested to take the same on your records.

Thanking you,

Yours faithfully,
For Advait Energy Transitions Limited
(Formerly known as Advait Infratech Limited)

Investor Presentation

Q3 & 9MFY26 | February 2026

Contents

- 01** Advait Group - In a Nutshell
- 02** AETL Performance Overview
- 03** AGPL Performance Overview
- 04** Advait Consolidated Performance Overview
- 05** AGPL Strategic Collaboration
- 06** Managing Director Message

Advait Group - In a Nutshell

- Incorporated in 2010, Advait Energy Transitions is **emerging company** mainly focused into **Power Transmission Solution & energy Transitions Sector**.
- Possesses a **niche product portfolio** and a **state-of-the-art manufacturing facility**, providing EPC solutions and services across geographies in both business verticals.
- Operates manufacturing facilities for ACS and OPGW wires, Emergency Restoration Systems (ERS), and manufacturing over **140+ stringing tools** for its power transmission business. The company is **further expanding its existing PTS manufacturing facility to enhance capacity for tools, ERS and high ampacity specialised conductors**. Additionally, in the NRE business, Advait is establishing a **greenfield manufacturing facility with a 300 MW capacity** for indigenous electrolyzers, **manufacturing facility for 2.5 Gwh BESS** and also setting up an assembly line for advanced fuel cell technology
- The Company has a **diversified Carbon Credits and I-RECs portfolio** across **Verra-VCS, UCR and Evident (I-REC)**, spanning **renewable energy, waste management and nature-based initiatives**, with **operational and pipeline projects aggregating 1,200+ MW of RE/I-REC capacity**, including international issuance and large-scale impact projects across India. Based on **onboarded projects**, approximately **5 Mn carbon credits / I-RECs are under issuance**, representing an estimated revenue potential of **INR 35 Crores** over the total crediting period of the Company's carbon credits and environmental attributes portfolio.
- The Company participated in the **Vibrant Gujarat Summit 2025** and executed various **MoUs** with the **Government of Gujarat** aggregating to **₹1,400 crore**.

Vision

To be a global leader in building the future of energy, contributing to the power, transmission & energy industries through cutting-edge solutions - whilst enhancing the quality of life for generations to come.

Mission

To drive the global energy transition by delivering safe, cost-effective, sustainable, and transformative solutions that empower communities impacting thousands of lives while paving the way for a cleaner, greener, and more sustainable world.

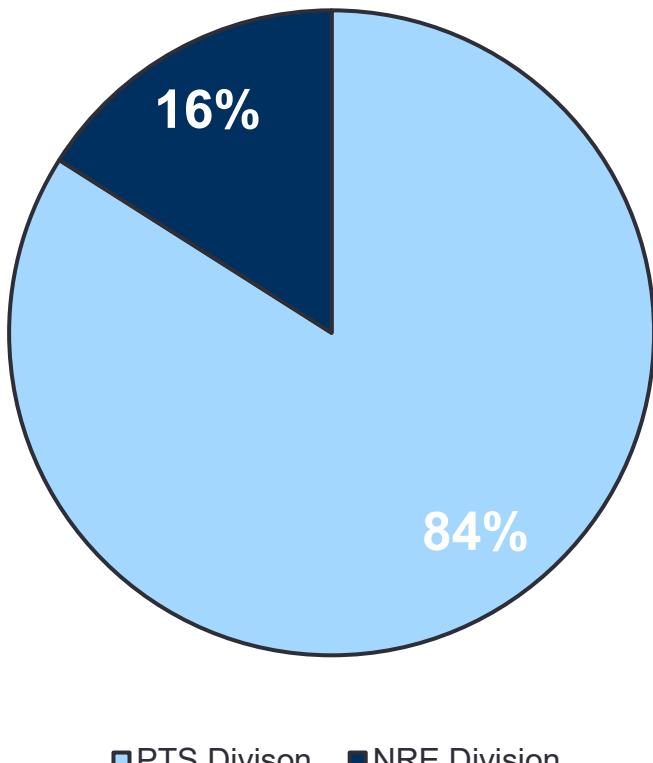

Motto

Transforming Energy,
Transforming Lives

AETL's Key Developments During Q3FY26

Operational Performance

- Have successfully secured **largest EPC order for the company amounting ~ ₹ 216 Cr from PGVCL** for the replacement of old conductor with new MVCC conductor in existing 11kv lines.
- Entered into an **MoU with M/s Yangzhou Guodian General Electrical Power Machinery Manufacturing Co. Ltd. (China)** for **development of a Manufacturing and Supply Centre for tower cranes used in mechanized erection of transmission line towers for the Indian market.** Advait is among the few players in India engaged in development and supply of this product.
- Successfully **supplied over 1,500 conductor stringing rollers for power transmission lines within a single quarter**, marking the highest quarterly supply of transmission tools in AETL's history.
- Successfully **executed and completed ahead of schedule an EPC project for installation of MVCC conductors on 11 kV lines for DGVCL**, covering 800 ckm in record time, with a project value of ₹50 crore under the VKY II Scheme.
- Successfully **executed the Company's first EPC project for installation of underground (UG) cables on 11 kV lines for UGVCL (Himmatnagar Circle)**, completing 105 km in record time, with a project value of ₹36 crore under the ROBUST Scheme.
- Successfully **executed one of the most challenging live-line EPC projects for installation of OPGW cables on 400 kV transmission lines for GETCO (Mundra–Varsana and Kansari–Charnka lines)**, completing 195 km.
- Successfully **erected and commissioned two sets of Emergency Restoration Systems (ERS) for JKPTCL and PGCIL at Udhampur**, executed in highly challenging terrain within a landslide-prone zone.

New/Existing Expansion of Multi-Integrated Manufacturing Facilities

Our upcoming multi-integrated manufacturing facility in Sanand, Gujarat; focused on new product lines and expansion of existing capacities, is currently under construction. We are set to commence operations in the Q3FY27.

EPC- Re-conductoring HTLS Projects

EPC RDSS (Revamp Distribution Sector Scheme)

OFC (Optical Fibre Cables)

Power Transmission Solutions (PTS)

Products	Application	End User Industry	Q3FY26 Revenue, % of Revenue YoY (%)
ACS - OPGW	Input raw material to OPGW Cable, ACSS & AL59 Conductors	OPGW Cable & Conductor Manufacturers	5.31 Cr, 4% +27% YoY
Stringing Tools (Power Transmission)	Pulling & Tensioning, Sag Measurement, Guiding & Support	Private EPC Player Transmission Lines	19.33 Cr, 15% +9% YoY
ERS	Provide immediate solutions for transmitting power in crisis by creating parallel temporary transmission line within 48 hours.	Central & State Utility Cos	
Reconductoring HTLS Projects	Transmit more power than conventional conductors. This facilitates the line to experience high ampacity & low sag when used for high power transmission.	Central & State Utility Cos	6.28 Cr, 5% -50% YoY
Power DISCOM Projects	Strengthening the distribution network and minimizing power losses while ensuring reliable 24x7 power supply.	Government DISCOM's	65.68 Cr, 53% +130% YoY
OPGW – Liveline Projects	Communication & grounding on Transmission Line.	Central & State Utility Cos	20.96 Cr, 17% -33% YoY

The above revenue excludes ₹7.16 crore from NRE Solar EPC (₹5.13 crore) and NRE BESS EPC (₹2.03 crore).

Business Overview: New & Renewable Energy (NRE)

Battery Energy Storage System (BESS)

- Battery Energy Storage Systems (BESS) are designed to store energy in batteries for later use. They are becoming increasingly popular as renewable energy sources such as solar and wind become more common.
- Eyeing on 1 GW of BESS Projects over the period of next 5 years.
- Advait has secured its first BESS project from GUVNL for 50 MWh / 100 MW on a BOO basis. **Project execution commenced in Q3FY26 and is scheduled for commissioning in Q3FY27.** The approx. project cost is Rs. 141 Cr and having concession period of 12 years.

Applications Of BESS

Building Energy Management

BESS can be used to store excess energy produced by buildings with solar panels for later use.

Electric Vehicle Charging

BESS can be used to store energy for electric vehicle charging stations, which helps reduce peak demand on the grid.

Grid Stabilization

BESS can be used to provide ancillary services to the grid, such as frequency regulation and voltage control.

Business Updates

- Advait has been awarded a **100 MW Ground-Mounted Solar EPC project by Adani Green Energy Six Ltd**, located in Khavda.
- The project, part of the Khavda Hybrid Renewable Power Project in Gujarat, involves turnkey solutions including civil works, electrical installations, and module mounting structure, as well as a robotic cleaning system.
- During Q3FY26, AETL successfully commissioned and energized **12.5 MW** out of the 100 MW capacity awarded under Adani's prestigious 30 GW Renewable Energy Park. An additional 37.5 MW is expected to be commissioned by February 2026, with the remaining 50 MW scheduled for March 2026, in line with the project timeline.

Applications

- Cost Efficiency
- Environmental and Strategic Impact
- Flexibility and Scalability
- Utility-Scale Solar Farms
- Remote & Rural Electrification
- Agricultural Sector

Transitions Limited
[formerly known as "Advait Infratech Limited"]

Business Overview: **AGPL** (Subsidiary of AETL)

AGPL New & Renewable Energy (NRE)

Products

Solar EPC

Application

Complete Trunkey solution for including civil work, electrical installation, module mountain structure, connectivity and robotic cleaning system for Solar projects

End User Industry

Public & Private Company into Solar IPP, Solar CPP and various utility boards across the country and outside who are offering work related to Solar EPC

Q3FY26 Revenue, % of Revenue | QoQ (%)

82.80 Cr, 96% | 38% QoQ

Green Hydrogen EPC

Offers comprehensive supply and installation-EPC solutions for green hydrogen projects, covering engineering, procurement, installation and commissioning phases.

PSUs, Private companies from cement, steel, O&G, fertilizer and speciality chemical sector

1.42 Cr, 2% | -4% QoQ

BESS EPC

Store electricity to improve grid stability, support renewable energy integration, and reduce costs. They enable applications such as frequency regulation, peak shaving, energy arbitrage, and backup power across industrial, commercial, and utility-scale projects.

Power Transmission and Distribution Companies and Utilities Companies

2.18 Cr, 3% | 100% QoQ

AGPL Key Milestones Q3FY26

A) 50 Mwh/100MW Installation of BESS for AETL's GUVNL Project – Radhanpur, Gujarat – Under Construction

- Schedule completion in Nov 2026
- IPP Developer mode project assigned by GUVNL
- To Set up Project Battery Energy Storage System (BESS) involves the establishment of a large-scale energy storage facility with a contracted capacity of 50 megawatts for 2 hours duration (100MWh) for 12 years of concession as per GUVNL Phase-IV procurement requirements.

B) 1 MW GH2 Plant (KPI Green Hydrogen Pvt. Ltd.) – Matar, Gujarat - Completed

- Commission for Trials in Dec 2025
- Dual applications
- Hydrogen: Cascade filling at 200 bar pressure
- Oxygen: Ultra-pure cylinder filling at 200 bar pressure

C) 67.1 MWp Grounded Mounted Solar Installation for KPI Green – Khavda, Gujarat - Completed

- Likely to be commissioning in March 2026
- IPP Developer mode project assigned by Coal India
- The project installed with next tracker – Sun Tracking System which will boost the annual generation of the project

AGPL Key Milestones Q3FY26

D) Completion of ToT for manufacturing Electrolyser

- Have successfully completed the design and engineering of the 5MW electrolyser stack and balance of plant (BoP) in coordination with Jiangsu Guofuheli, leading hydrogen equipment manufacturer from China

E) Licensing agreement between AVL List GmbH, Austria and Advait Technologies, India

- During Q3FY26, company has entered into licensing agreement with one of the leading fuel cell technologies player for manufacturing fuel cell in India to cater the upcoming demand of Hydrogen Fuel Cell for various application like mobility, train power, marine and stationery.

Strong Strategic Collaboration – MoUs Executed at India Energy Week 2026

Advait Energy
Transitions Limited
[formerly known as "Advait Infratech Limited"]

AGPL has signed an MoU with VJ Industries to collaborate on hydrogen storage systems for green hydrogen projects in India, with Advait leading EPC execution and bidding, and VJ supplying storage and gas systems. The partnership covers EPC, BOO and PPP projects, enabling coordinated bidding, faster execution readiness and strengthening Advait's hydrogen infrastructure capabilities.

AGPL has signed an MoU with CENMAT to deploy PEM and AEM electrolyser technologies for green hydrogen projects in India, with Advait leading EPC execution and system integration, and CENMAT providing electrolyser systems and OEM support. The collaboration enables coordinated development and execution of pilot and commercial-scale hydrogen projects, with project-specific terms to be finalised separately.

AGPL has signed an MoU with Power to Hydrogen, Inc. to collaborate on AEM electrolyser-based green hydrogen projects in India, combining P2H2's Hybrid AEM technology with Advait's EPC and balance-of-plant integration capabilities. The partnership enables joint evaluation and execution of pilot and commercial hydrogen projects, with project-specific terms to be finalised separately.

From The Founder & Managing Director's Desk

“ Recent Union Budget 2026-27 in India focuses on strengthening energy security through a record capital expenditure, aiming to boost renewable energy (RE) capacity, enhance grid infrastructure, and improve the financial health of distribution companies (DISCOMs) , I am confident in our ability to continue gaining market share and delivering value to all our stakeholders.

Shri Shalin Sheth
MD & Founder
Advait Group of Companies

- As of Q3FY26, Advait's order book has surpassed **₹1,048 Cr**, marking a significant milestone that underscores the company's strong execution capabilities and sustained growth momentum, in line with the robust CAGR achieved over the past three years. Company is aiming to add more orders in coming months of financial year.
- At end of Q3FY26, Order book has increased by **132% YoY** and out of that PTS division is 84% and NRE division is 16%.
- During 9MFY26, the group reported revenue from operations of **₹ 486.3 Cr**, increased by 138% YoY. EBITDA during same period was at ₹ 55.2 Cr, increased by 74% YoY. EBIDTA margins were at 11.4% v/s 15.6% in 9MFY26.
- Advait Group has demonstrated strong growth, reflecting its success and diversified capabilities across the Power Transmission and Energy Transition sectors.
- Advait continues to focus on developing new product solutions under the Power Transmission Solutions (PTS) division and is actively working toward building a robust product portfolio for the coming years.
- In the Energy Transition space, Advait is committed to becoming a key player across the entire New and Renewable Energy ecosystem. The company has already partnered with world-class technology providers to develop indigenous electrolyzers and fuel cells using proven global technologies.
