2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Cars24 forays into new car sales with super app **RAGHAV AGGARWAL**

New Delhi, March 10

USED CAR MARKETPLACE Cars 24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers. The platform would offer cus-

new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things. This is a part of the company's broader strategy to consolidate

tomers with information of the

gle super app. Gajendra Jangid, co-founder of Cars 24, said that their main aim is to improve the customer journey

for buying a new car.

the car buying process under a sin-

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans 24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL New Delhi, March 10

USED CAR MARKETPLACE Cars 24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers. The platform would offer cus-

tomers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things. This is a part of the company's

broader strategy to consolidate the car buying process under a single super app. Gajendra Jangid, co-founder of

Cars 24, said that their main aim is to improve the customer journey for buying a new car. The platform's differentiating factor, according to him, would be

its focus on videos and customer

experience on the website. It will

also collaborate with influencers for car reviews and walkthroughs. "If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency,

and control to new car buying, the

way it should be," he said. In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the

personal loan space with Loans 24. The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL New Delhi, March 10

USED CAR MARKETPLACE Cars 24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars 24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans 24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

He said the rural recovery is driven by welfare spending by the central and state governments, along with some statelevel consumption-focused initiatives.

Godrej subsidiary mulls more gradual price hikes for soaps

Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Godrej subsidiary mulls more gradual price hikes for soaps

GODREJ CONSUMER **PRODUCTS** will keep raising prices of its soaps gradually to protect margins amid rising palm oil prices, the consumer goods maker's top

official said on Monday. Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. It would take 2-to-3 quarters to widen margins, but the company will not push up prices suddenly, he said. —**REUTERS**

Spread across 27 acres, the Chengalpattu plant is GCPL's largest single investment in manufacturing expansion. It will manufacture some of its best-selling brands, including Cinthol, Godrej No.1, Good-Knight, Godrej Aer, and Godrej Expert Hair Colour, catering to both domestic and export

2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

Cars24 forays into new car sales with super app **RAGHAV AGGARWAL**

New Delhi, March 10

USED CAR MARKETPLACE Cars 24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers. The platform would offer cus-

city, features, influencer reviews, and the used options for the model, among other things. This is a part of the company's broader strategy to consolidate

tomers with information of the new cars, including their price in a

the car buying process under a single super app. Gajendra Jangid, co-founder of Cars 24, said that their main aim is to improve the customer journey

for buying a new car. The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers

for car reviews and walkthroughs. "If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the

personal loan space with Loans 24. The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to **UNCERTAINTY LOOMS**

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

NARAYANAN V Chennai, March 10

GODREJ CONSUMER PROD-UCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

appears to have eased sharply in O4 (FY25)," Sitapati said. He noted that while urban

demandwas an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some statelevel consumption-focused initiatives.

Godrej subsidiary mulls more gradual price hikes for soaps

GODREJ PRODUCTS will keep raising prices of its soaps gradually to protect margins amid rising palm oil prices, the consumer goods maker's top official said on Monday.

Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

CONSUMER including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. It would take 2-to-3 quarters to widen margins, but the company will not push up prices suddenly, he said. —**REUTERS**

Spread across 27 acres, the Chengalpattu plant is GCPL's largest single investment in manufacturing expansion. It will manufacture some of its best-selling brands, including Cinthol, Godrej No.1, Good-Knight, Godrej Aer, and Godrej Expert Hair Colour, catering to both domestic and export

markets. Sitapati said the factory has a revenue-generating potential of ₹2,000 crore once all planned production lines are fully operational. In the first phase, it will have two production lines each for soap, hair color, and GoodKnight, along with one line for Godrej Aer brand of air fresheners.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

THE OPENING OF the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

2W dealers anxious as new norms from Apr 1; no clarity on old stock

100CC BIKES SETTO BE AT LEAST ₹1,200 COSTLIER

SWARAJ BAGGONKAR Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kickstart on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V Chennai, March 10

GODREJ CONSUMER PROD-UCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000

direct and indirect jobs. Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

Godrej subsidiary mulls more gradual price hikes for soaps

GODREJ CONSUMER **PRODUCTS** will keep raising prices of its soaps gradually to protect margins amid rising palm oil prices, the consumer goods maker's top

official said on Monday. Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. It would take 2-to-3 quarters to widen margins, but the company will not push up prices suddenly, he said. —**REUTERS**

Spread across 27 acres, the Chengalpattu plant is GCPL's largest single investment in manufacturing expansion. It will manufacture some of its best-selling brands, including Cinthol, Godrej No.1, Good-Knight, Godrej Aer, and Godrej Expert Hair Colour, catering to both domestic and export

markets. Sitapati said the factory has a revenue-generating potential of ₹2,000 crore once all planned production lines are fully operational. In the first phase, it will have two production lines each for soap, hair color, and GoodKnight along with one line for Godrej Aer brand of air fresheners.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL New Delhi, March 10

USED CAR MARKETPLACE Cars 24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars 24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans 24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

विधानसभा में नेता प्रतिपक्ष की करीबी विधायक ने दिया भाजपा को झटका

विधायक तापसी तृणमूल में शामिल

कोलकाता, १० मार्च (भाषा)।

ch chala

पश्चिम बंगाल के हल्दिया से भारतीय जनता पार्टी (भाजपा) की विधायक एवं विधानसभा में नेता प्रतिपक्ष शुभेंदु अधिकारी की करीबी सहयोगी तापसी मंडल सोमवार को राज्य में सत्तारूढ़ तृणमूल कांग्रेस पार्टी में शामिल हो गईं।

मंडल के तृणमूल कांग्रेस में शामिल होने के फैसले से न केवल पूर्वी मैदिनीपुर में भाजपा को झटका लगा है बल्कि पार्टी के विधायक दल को भी इससे नुकसान होगा क्योंकि राज्य में अगले साल की शुरुआत में होने वाले विधानसभा चुनाव के लिए उन्हें महत्त्वपूर्ण जिम्मेदारी दी गई थी।

पूर्वी मेदिनीपुर अधिकारी का गढ़ माना जाता है और यहां बंदरगाह शहर हिल्दिया स्थित है। वह राज्य के ऊर्जा मंत्री अरूप बिस्वास की उपस्थित में कोलकाता स्थित तृणमूल कांग्रेस के मुख्यालय में पार्टी में शामिल

मंडल ने कहा कि मैंने मुख्यमंत्री की विकासात्मक पहल का हिस्सा बनने का फैसला किया है।

भाजपा राज्य में सांप्रदायिक तनाव को बढाने की कोशिश कर रही है। वह विभाजनकारी राजनीति कर रही है, इसलिए राज्य के लोगों ने बार-बार उसे नकारा है।

हईं। मंडल ने बार-बार पार्टी बदलने के अपने फैसले को सही ठहराते हुए कहा कि मैंने मुख्यमंत्री की विकासात्मक पहल का हिस्सा बनने का फैसला किया है। भाजपा राज्य में सांप्रदायिक तनाव को बढाने की कोशिश कर रही है।

वह विभाजनकारी राजनीति कर रही है, इसलिए राज्य के लोगों ने बार-बार उसे नकारा है। मेरे लिए ऐसी राजनीति को स्वीकार करना मुश्किल हो रहा था। तृणमूल ने सोशल मीडिया मंच 'एक्स' पर एक पोस्ट

में कहा, 'हल्दिया से भाजपा की विधायक तापसी मंडल का तुणमूल कांग्रेस परिवार में स्वागत है। उनका हमारे साथ जड़ना भाजपा की राजनीति से बढ़ते मोहभंग का प्रमाण है। मुख्यमंत्री ममता बनर्जी के नेतृत्व में लोगों के कल्याण के लिए अथक प्रयास करेंगी।'

मंडल ने कांग्रेस समर्थित मार्क्सवादी कम्युनिस्ट पार्टी (माकपा) के उम्मीदवार के रूप में 2016 में हिल्दिया सीट से चुनाव जीता था। पश्चिम बंगाल में 2021 के विधानसभा चुनावों से पहले अधिकारी द्वारा तृणमूल से भाजपा में शामिल हो जाने के बाद मंडल भी दिसंबर 2020 में भाजपा में शामिल हो गई थीं। उन्होंने 2021 के चुनाव में भाजपा उम्मीदवार के रूप में हिल्दिया सीट से चुनाव जीत लिया था। मंडल द्वारा बार-बार पार्टी बदलने पर टिप्पणी करते हुए अधिकारी ने कहा कि लोग ऐसे राजनीतिक मौका परस्तों को खारिज कर देंगे। उनके साथ एक भी भाजपा कार्यकर्ता तृणमूल में शामिल नहीं हुआ है।
