## MEDIA / PRESS RELEASE

### RM DRIP AND SPRINKLERS SYSTEMS LIMITED ANNOUNCES ~50% MANUFACTURING CAPACITY EXPANSION TO ACCELERATE GROWTH AND MARGIN EXPANSION

RM Drip and Sprinklers Systems Limited (NSE: RMDRIP) today announced a major manufacturing expansion that will increase the Company's overall production capacity by approximately 50%, marking a decisive step in scaling operations, strengthening market positioning, and unlocking long-term shareholder value.

#### Capacity Expansion to Drive Revenue Growth and Operating Leverage

The Board of Directors has approved the establishment of a new, state-of-the-art manufacturing facility through Brahmanand Pipes Private Limited, proposed wholly owned subsidiary, at Sinnar, District Nashik, Maharashtra.

The new unit will have an installed capacity of approximately 12,000 metric tonnes per annum, significantly enhancing RMDRIP's manufacturing footprint.

#### This expansion is strategically aligned to:

- Support higher order inflows across irrigation, infrastructure, and industrial segments;
- Enable ~50% increase in overall manufacturing capacity;
- Improve asset utilization, operating leverage, and margin profile;
- To take advantage of GST reduction, done by the Government of India's in the agriculture sector;
- Strengthen competitiveness in large government and institutional projects.

#### Diversified Product Portfolio Targeting Structural Growth Segments

#### The new facility will manufacture a broad range of products addressing multiple high-growth end markets, including:

- High-speed drip irrigation systems and equipment
- HDPE pipes for government water supply and irrigation projects
- Drainage and sewerage pipelines
- Telecom pipes and ducts
- Industrial piping solutions
- Mulching paper for modern agriculture
- Specialized micro-irrigation moulded products and accessories
- Other value-added agricultural and infrastructure products

This diversification meaningfully reduces product concentration risk while positioning RMDRIP to benefit from strong structural tailwinds in agricultural modernization, water infrastructure, rural development, telecom expansion, and industrial capex.

#### Execution on Track with Focus on Efficiency and Returns

#### Management Commentary

Commenting on the expansion, Mr. Nivrutti Pandurang Kedar, Promoter and Managing Director, said:

"This capacity expansion is a pivotal milestone in RMDRIP's growth strategy. By increasing our manufacturing capacity by nearly 50%, we are building the foundation for sustained revenue growth, improved margins, and stronger execution capabilities. The new facility allows us to address multiple high-growth sectors while improving operating leverage and long-term returns for shareholders. We remain confident about demand visibility driven by government infrastructure spending and agricultural modernization."

#### Strengthening Long-Term Growth Visibility

#### About RM Drip and Sprinklers Systems Limited

Incorporated in 2004, RM Drip and Sprinklers Systems Limited is a leading manufacturer of micro-irrigation systems and components, offering end-to-end solutions including design, manufacturing, and installation.

The Company also operates as an OEM for several irrigation and sub-assembly manufacturers and maintains a strong distribution network across Maharashtra, Madhya Pradesh, Gujarat, Karnataka, Uttar Pradesh, Bihar, Rajasthan, Jharkhand, Tripura, Odisha, Andhra Pradesh, Telangana, Tamil Nadu, and the Seven Sister States.

With vendor enlistment from Maharashtra Jeevan Pradhikaran, RMDRIP has successfully expanded into water supply infrastructure through advanced PVC and HDPE pipe manufacturing, strengthening its presence beyond core irrigation into public infrastructure.
