Dear Sir/Madam,

Sub: Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Award of NHAI Project Mandate for Solar Highway Lighting at 104 Locations (Phase 1)

Ref: M/s. **Lord's Mark Industries Limited**; Scrip code -501261

We wish to inform you that **Lord's Mark Industries Limited** has secured a mandate from the **National Highways Authority of India (NHAI)** for implementation of **solar highway lighting across 104 MoRT&H- identified accident-prone and blackspot locations in Phase 1** along key national highway corridors in the **Vijayawada region**.

The mandate has been awarded following a competitive commercial bidding process, wherein **Lord's Mark Industries Limited, in partnership with Signify Innovations India Limited (formerly Philips Lighting India Limited), emerged as the successful bidder for the survey, design, manufacturing, and implementation** of the project.

The project represents a technology-led intervention in road safety using a **data-driven methodology integrating accident analytics, visibility diagnostics, and intelligent solar lighting design** aimed at addressing structural safety gaps at blackspots. The solution is engineered to deliver measurable highway safety outcomes by improving visibility parameters including glare, contrast loss, approach angles, and driver reaction zones.

### **Project Coverage – Key Highway Stretches**

The scope of work includes the following stretches:

- Km 741.255 to Km 1022.494 on the Anakapalli–Annavaram–Diwancheruvu section of NH-16
- Diwancheruvu–Siddhantham–Gundugolanu section of NH-216
- Gundugolanu–Devarapalli–Kovvuru stretch from Km 15.320 to Km 85.204 on NH-16
- Kathipudi to start of Kakinada Bypass from Km 0.000 to Km 27.500 on NH-216

The Vijayawada mandate constitutes Phase 1 of a larger pan-India programme proposed to be executed over a four-year period across national highways in multiple states in subsequent phases.

Commenting on the development, **Mr. Sachidanand Upadhyay, Managing Director**, stated that securing this mandate validates the Company's data-driven approach and execution capability and represents a strategic step towards technology-enabled road safety solutions in partnership with **Signify Innovations India Limited**. This award marks a strategic milestone for the Company and is in line with its business focus on public infrastructure, sustainable solutions, and technology-enabled safety systems.

This disclosure is being made pursuant to **Regulation 30 of SEBI (LODR) regulations, 2015**. Further details, if any, as required under applicable regulations will be submitted in due course. You are requested to kindly take the above on record.

Thanking you,

Yours faithfully,

For **Lord's Mark Industries Limited**

(Formerly known as Lords Mark India Limited and Kratos Energy & Infrastructure Limited)
