MANAGEMENT DISCUSSION AND ANALYSIS — H1 FY26

Kwaliti Pharmaceuticals Ltd ("KPL") delivered a strong performance in the first half of FY26, with consolidated revenue rising 32% year-on-year, from ₹170 crore in H1 FY25 to ₹224 crore in H1 FY26. The growth was driven by robust sales of registered products across key international markets, supported by the expanding product portfolio and enhanced geographic reach.

EBITDA increased by 35% year-on-year, from ₹37 crore in H1 FY25 to ₹50 crore in H1 FY26, reflecting improved scale and mix optimization. EBITDA margins improved to 22.5% from 22.0% last quarter, Net profit rose from 17 cr in H1FY25 to 26 cr in H1FY26 supported by operational efficiencies and disciplined cost management initiatives.

During the period, KPL accelerated its R&D and clinical initiatives, initiating multiple Bioequivalence (BE), Pharmacoequivalence (PE), and clinical trial programs across both injectables and oral solid dosage (OSD) segments. These efforts aim to strengthen the company's global product pipeline and fast-track regulatory filings for select high-barrier molecules.

The company also advanced its strategic capex program, with expansion underway at its Biologics and Oncology facilities to address increasing demand from ongoing registrations and development programs. Additionally, construction and validation work for the Hormone manufacturing facility are progressing as scheduled, with completion targeted by August 2026.

All capital expenditure and development investments during H1 FY26 have been entirely funded through internal accruals, underlining KPL's strong cash generation and balance sheet discipline. The company generated a cash surplus of approximately ₹30 crore during the quarter, reaffirming its financial strength and capacity to self-fund growth initiatives.

KPL also received multiple new product registrations during the quarter, expanding its commercial footprint across key regulated and semi-regulated markets. This progress reinforces the company's trajectory toward achieving its ₹500 crore revenue target for FY26, with stronger performance expected in H2 FY26 as new products gain traction.

KPL continues to strengthen its international regulatory footprint, focusing on differentiated, high-margin, and complex products that create sustainable value. With five state-of-the-art manufacturing facilities approved by leading global regulators including PIC/S (ANVISA and SFDA), INVIMA, DIGEMID, and EU-GMP, the company remains a research-driven leader in complex and niche molecules.

Outlook — Q3 FY26 and Beyond

KPL expects continued growth momentum in Q3 FY26, driven by higher order inflows, new product launches, and scale-up across international markets.

- Revenue for Q3 FY26 is expected to be around ₹140 crore, supported by strong traction in regulated market sales.
- EBITDA is projected to increase sequentially, reflecting improved capacity utilization, enhanced product mix, and operational efficiency.

As the company enters the second half of FY26, management remains confident of sustaining its growth trajectory and exceeding the ₹500 crore revenue target for the full year, while maintaining double-digit profitability and robust cash generation to fund ongoing expansion.

3. We conducted our review of the statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India.
