1. The movement in tax amounts between 9ME Dec 25 and 9ME Dec 24 is on account of following:

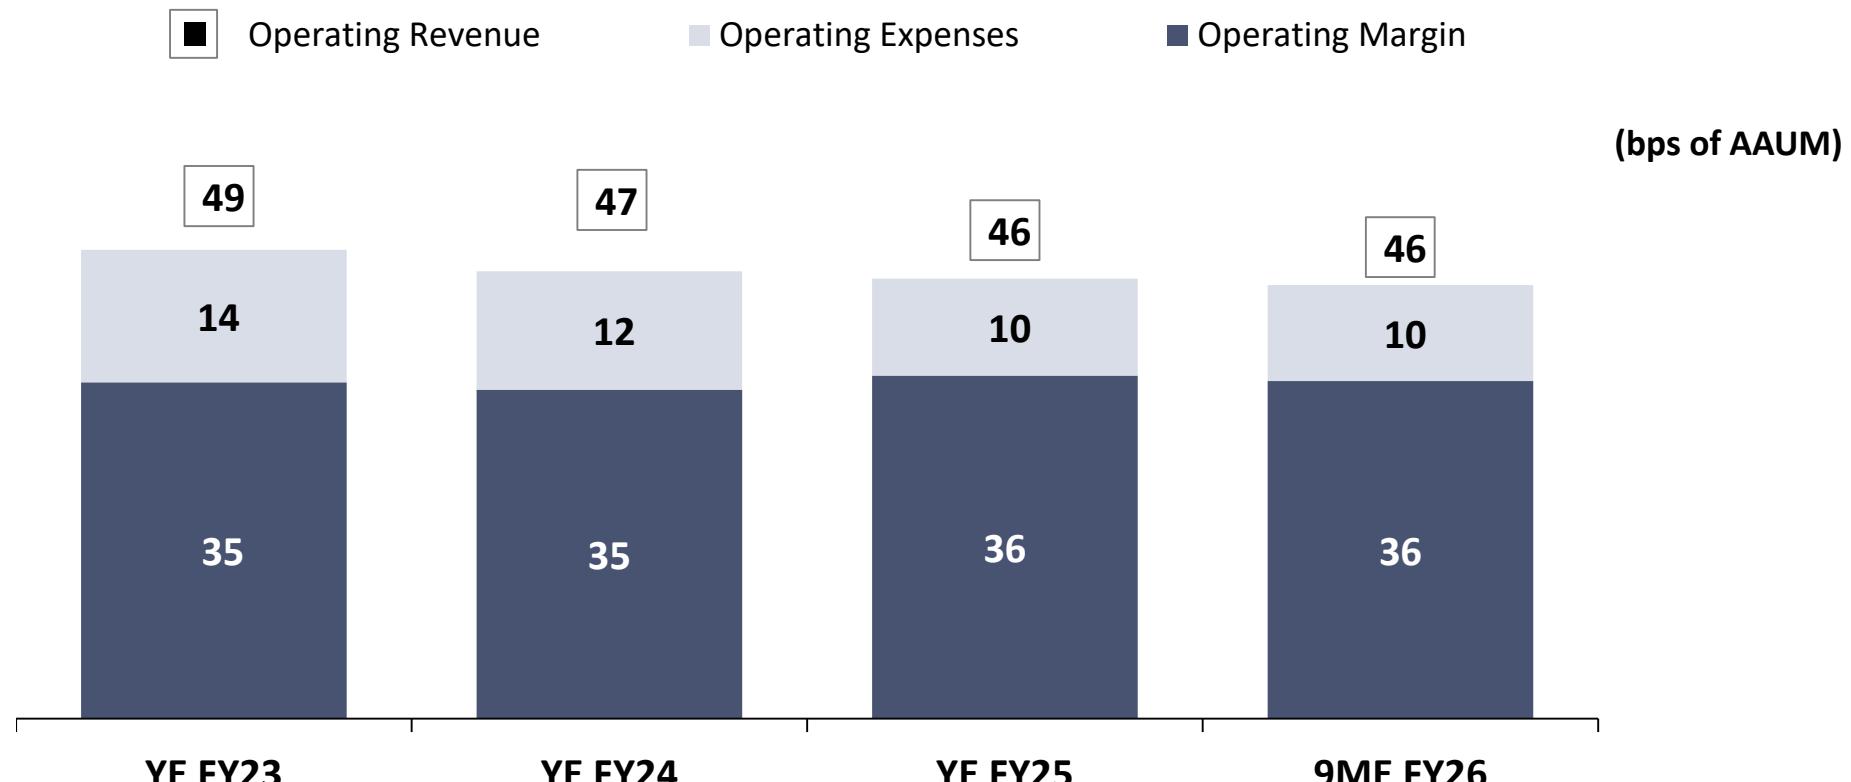

- Considering recent assessments orders, the Company had re-assessed its income tax position during the quarter ended September 30, 2025. As a result of which, the Company had reversed income tax provision for earlier periods amounting to ₹ 468 mns thereby resulting in an additional credit to the Profit After Tax of the Company for quarter ended September 30, 2025 and nine months ended December 31, 2025, and;
- As per Finance (No.2) Act 2024, enacted in August 2024, the rates at which capital gains were taxed had changed and indexation benefit had also been withdrawn while calculating long term capital gains on investments. Consequently, the Deferred Tax Liability recognised by the Company on fair value gains on its investments as on June 30, 2024 had increased by ₹ 698 mns thereby resulting in an additional charge on the Profit After Tax of the Company for quarter ended September 30, 2024 and nine months ended December 31, 2024.
