# L&T Secures (Large\*) Contract for Heavy Civil Infrastructure Business

**Mumbai, January 14, 2026:** The Heavy Civil Infrastructure business vertical of L&T has secured the large order from Torrent Energy Storage Solutions Pvt Ltd (earlier known as Torrent PSH 3 Pvt Ltd) for the construction of India's biggest pumped storage project - the 3000 MW Saidongar-1 Pumped Storage Project (PSP) in Raigad, Maharashtra. The PSP will comprise ten units of 300 MW each.

The scope of the contract includes design, engineering and execution of all civil and hydro-mechanical jobs associated with the project. With this order, L&T will play a pivotal role in bringing to life a project of immense significance - expected to enhance grid reliability and energy security for Maharashtra and beyond.

This order is a testament to L&T's unmatched capability in delivering complex hydroelectric/pumped storage projects of national importance. With a track-record of engineering excellence, timely execution and world-class safety standards, the Saidongar-1 PSP reinforces L&T's position as a trusted partner for large-scale, high-capacity pumped storage solutions.

Pumped storage projects like Saidongar-1 are vital to ensuring grid stability and meeting peak power demand. By storing surplus energy and releasing it during high-demand periods, they provide a reliable and flexible solution that will strengthen India's energy security and supports the long-term decarbonisation goals.

### Background:

Larsen & Toubro is a USD 30 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing, and Services, operating across multiple geographies. A strong, customer-focussed approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

### \* Order Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 10,000	10,000 to 15,000	> 15,000
