Subject: Temporary Suspension of Factory Operations – Regulation 30 of SEBI (LODR) Regulations, 2015

Ref: Scrip Code: 517166 | ISIN: [INE252A01019]

Dear Sir/Madam,

This communication is made in compliance with Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, read with the Company's Code of Practices and Procedures for Fair Disclosure of Unpublished Price Sensitive Information.

1. Announcement of Factory Temporary Suspension

The Board of Directors of SPEL Semiconductor Limited has, in its Meeting held on Jan 14, 2026 taken the difficult but necessary decision to voluntarily suspend Manufacturing Operations at its factory located at [Full Factory Address, ie) Plot Nos. 1, 2, 5 & 6, CMDA Industrial area, Maraimalai Nagar, Chennai – 603209], with effect from the close of business on Jan 14, 2026.

The primary reason for this decision is the persistent constraint in working capital and funds required to procure Raw Materials, pay for critical utilities, and meet operational overheads.

2. Impact and Current Status

- The temporary suspension pertains only to the **manufacturing operations** at the aforementioned facility. Administrative, sales & support functions will continue to operate.

3. Current Measures Undertaken to Raise Funds

The Board of Directors is actively pursuing multiple strategic avenues to secure the necessary funding to resume operations in the future. The key measures currently underway include:

- **Asset Monetization:** Actively engaging with potential buyers for the divestment of non-core assets and surplus real estate to infuse liquidity.
- **Debt Funding:** Exploring opportunities for raising Debt funding including loan for exporters
- **Lease Rental Discounting**
- **Government Scheme under India Semiconductor Mission:** Applying for applicable central and state government schemes for Assembly, Test, Mark & Packaging units once the scheme is opened to avail capex subsidy which will assist Company's growth and turn around.
- **Strategic Alliances** for Capital infusion

We are exploring all the possible means including sale of surplus land. We are hopeful that one or more of these initiatives will materialize, enabling the Company to restart operations at the earliest possible date.

4. Material Impact

This event is considered material under the SEBI LODR Regulations. The suspension of manufacturing is expected to have a significant impact on the Company's revenue and profitability for the ensuing quarters until operations resume. The Company will assess the exact financial impact and make appropriate disclosures in its quarterly financial results.

We request you to take the above information on record and kindly acknowledge the receipt of this letter.

Thanking you,

Yours faithfully,

For SPEL Semiconductor Limited

P. Balamurugan
Head Operations & Whole-Time Director
