Subject: Intimation of Government Initiatives and Foreign Investment in Minerals Recovery and Lithium-Ion Battery Recycling

Dear Sir/Madam,

I am writing to inform you about significant developments that are expected to positively impact the industry. The Central Government has recently taken initiatives to promote sustainable practices and investment in critical minerals recovery.

Notably, Japan has recently announced an investment of \$400 million in minerals recovery, lithium-ion battery recycling, and related areas. This development is expected to boost the growth of the industry and positive impact in the e-waste and Li-ion batteries recycling.

In this context, Eco Recycling is poised to play a pivotal role in driving innovation and sustainability in the sector. As a prominent player, our company is well-positioned to leverage these initiatives and contribute to the growth of the industry.

I believe that this information would be of interest to the investors and stakeholders. I request you to take note of these developments and their potential impact on the market.

Thank you for your attention to this matter.

Sincerely,
Shashank Soni

Eco Recycling Ltd
Director
