14. The Board of Directors considered and approved to incorporate a special purpose vehicle by the name of 'Kings Maritech Ecopark Limited.' The project aims to develop 126 acres of company's own land in Tuticorin into a 100% self-sustainable Ecofriendly Techpark for Mariculture production showcasing the most advanced and environmentally, socially and economically sustainable technologies for mariculture production systems.
15. The Board of Directors considered and approved to convert the outstanding amount due to promoters into unsecured loan.
16. The Board of Directors reviewed the Business Operations & Prospects of the Company.
 - Mr. Balagopalan Veliyath, Executive Director briefly explained the business operations. He said that the company has achieved a turnover of Rs. 10.35 crore during the quarter under review. Apart from repeat orders from our existing clients, we have had enquiries for new tie-ups and fresh business. He also explained that the company is working on a strategic shift in marketing the products. The new crop in the farm has been launched in around 30 ponds utilising Symbiotic Technology and the same is being monitored under the collaborative agreement with with Dr. J. Jayalalitha Fisheries University, Nagapattinam for developing a standard technology for pond based RAS for Vannamei farming and pond culture of commercially important marine products. The shrimp stocking has been started and seeds have been released to the ponds for the crop.
 - Mr. Baby John Shaji, Joint Managing Director explained that despite the challenges due to onset of COVID-19, the Proof of Concept for precision aquaculture along with NEC Corporation Japan is progressing satisfactorily. He said that the results of PoC experiments is as per expectations and the final results can be expected in the next 30 days. Mr. Baby John Shaji, Joint Managing Director also shared the videos and images of the same.
 - Mr Shaji Baby John explained the new project of KINGS MARITECH ECOPARKS LIMITED in detail. It is intended to showcase the role aquaculture and mariculture

production systems can play in improving food security, doubling farmers incomes, improving livelihoods in our coastal areas, combating global warming and climate change while earning precious foreign exchange. The project master plan includes specific solutions to address all these issues. Talks are on with Multi National Corporations and Ethical Funds focussing on ESG projects to participate in this innovative model project and many of them have evinced keen interest to participate in this project.

12. Other items with the permission of the Chair.

The presentation and the meeting ended at 5.30 p.m.

CS Leena Yezhuvath
Company Secretary & Compliance Officer
