Sir

Subject: Clarification on news published in The Hindu, Business Line

This is with reference to the clarification sought by the Exchanges based on news item published in The Hindu, Business Line, on 09/09/2021.

In this context, it may be noted that for a refining Company like MRPL, application for patents is a routine function and is in the ordinary course of business to protect its interests. Further certain R&D is undertaken with no immediate commercial interests envisaged. Mere grant of patents is not going to have an immediate material impact on the Company and without commercialisation it only provides a privilege to MRPL. In the event case, the patent has been developed as part of a wide R&D effort without any immediate commercial motive and is outside the immediate and extended commercial lines of business of the company and hence assessed that this would have no impact on the share price of the Company.

Trust the matter is clarified.

Thanking You,
Yours faithfully,
For **MANGALORE REFINERY & PETROCHEMICALS LIMITED**

K B Shyam Kumar
Company Secretary
