Subject: Titan Intech Limited signed an MoU with with the Andhra Pradesh Economic Development Board (APEDB) to establish a state-of-the-art Integrated Display Electronics Manufacturing Facility in the Amaravati Capital Region. This agreement positions Titan Intech as a key driver in India's next-generation display technology and advanced electronics manufacturing landscape.

Dear Sir/Madam,

In compliance with Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we hereby inform that Titan Intech Limited has entered into a Memorandum of Understanding (MoU) with with the Andhra Pradesh Economic Development Board (APEDB) to establish a state-of-the-art Integrated Display Electronics Manufacturing Facility in the Amaravati Capital Region. This agreement positions Titan Intech as a key driver in India's next-generation display technology and advanced electronics manufacturing landscape.

Key Highlights of the MoU

INVESTMENT HIGHLIGHTS

- Total planned investment of approximately ₹250 crores over phased development.
- End-to-end capability creation across high-value display and controller technologies.
- Strategic technical partnership with a leading South Korean OEM to accelerate technology transfer, process maturity, and global benchmarking.
- Project located on a 20-acre industrial parcel earmarked for high-growth electronics clusters.
- Employment creation: 200 direct and 300 indirect jobs, strengthening the regional talent ecosystem.
- Strong alignment with Government of India's Atmanirbhar Bharat and electronics indigenisation policies.

STRATEGIC ADVANTAGE FOR INVESTORS

- Expanding presence in the fast-growing Display Electronics and Intelligent Visualization Systems market.
- Entry into high-margin verticals: Mini/Micro-LED backlight modules, advanced controllers, 2D/3D video engines, and driver electronics.
- Captive EMS (Electronics Manufacturing Services) facility enhances value capture, operational control, and cost efficiency.
- Enables Titan Intech to participate in global supply chains for panels, displays, infotainment systems, professional AV, simulation, and industrial visualization markets.

- Supported by APEDB through facilitation of land, incentives, single-window clearances, and ecosystem linkages.
- Strengthens Titan Intech's IP base and technology roadmap with South Korean R&D collaboration.

TECHNOLOGY CAPABILITIES UNDER THE PROJECT

- Advanced Display Controllers for LCD/LED/mLED
- 2D/3D Rendering, Video Processing and Low-Latency Engines
- Data-Distribution and Intelligent Driver Electronics
- LCD, LED and Mini/Micro-LED Backlight Modules
- Integrated Captive EMS Unit for Assembly, Testing and Calibration

LEADERSHIP STATEMENT

Mr. Rudraraju Kumar Raju, Managing Director of Titan Intech Limited, commented:

"This MoU marks a transformational step in our evolution. The Amaravati facility will position Titan Intech at the forefront of high-value display electronics manufacturing. With cutting-edge technology, strong government collaboration, and global partnerships, we are building a platform that supports India's innovation, self-reliance, and export potential."

ALIGNMENT WITH NATIONAL PRIORITIES

This initiative directly advances India's Atmanirbhar Bharat goals by:

- Building domestic capacity in strategic display electronics
- Reducing import dependence on high-value components
- Creating a robust supply chain ecosystem within India
- Supporting advanced manufacturing and R&D-led industrial growth

Titan Intech's Amaravati project is expected to become a major anchor for the display electronics ecosystem in India, attracting ancillary units, talent, and global partnerships over the coming years.

You are requested to kindly take the above information on record.

Yours faithfully,
For Titan Intech Limited

Mangala Sachin Savla
Company Secretary
