# Management Discussion & Analysis (H1 FY26)

*Storage Technologies and Automation Ltd (STAL)*

## Overview

H1 FY26 was a mixed period for STAL. While revenues registered steady growth and gross margins improved year-on-year, profitability was significantly impacted by delayed project execution, prolonged deployment of manpower and equipment, and an unusually high cost base in the first half. Several large installation jobs ran beyond their original timelines, pushing both revenue recognition and margin contribution into the second half of the year. Despite these temporary pressures, the underlying business fundamentals remain strong, and management expects performance to improve materially in H2 FY26 as execution accelerates.

## Standalone Performance

### Revenue & Gross Profit

Revenue from Operations for H1 FY26 stood at **₹470.53 Mn**, an increase of **7.9% YoY**. Growth was supported by ongoing project execution across racking, structural and automation segments. However, the pace of execution was slower compared to H2 FY25 due to extended turnaround times at customer sites.

Gross Profit rose **11.8% YoY** to **₹137.01 Mn**, with gross margins improving to **29.1%** from 28.1% in H1 FY25. Sequentially, margins were lower than **36.0% in H2 FY25**, primarily because key billing milestones could not be completed within the half-year, deferring margin-heavy deliveries to H2.

### Operating Expenses & EBITDA

Operating costs were elevated in H1 FY26. Employee expenses increased to **₹65.12 Mn**, largely driven by prolonged retention of contractual manpower and additional hiring to support multiple installations running in parallel. These costs are temporary and expected to taper off as the affected projects reach closure.

Other expenses increased to **₹68.64 Mn**, mainly due to:

- significantly higher machinery rental expenses from extended equipment deployment,
- increased transportation costs linked to higher tonnage dispatches, and
- elevated outsourced execution activity across several installations.

As a result of these temporary cost escalations, **EBITDA dropped to ₹3.25 Mn**, compared to ₹40.36 Mn in H1 FY25. EBITDA margin stood at **0.7%**, versus 9.3% last year. The moderation is timing-led, and management does not expect these levels to persist.

## Depreciation, Finance Costs & Profitability

Depreciation increased to **₹10.26 Mn**, reflecting investments made in manufacturing and execution capability. Finance cost remained relatively stable at **₹9.44 Mn**, supported by tighter working-capital management.

Consequently, **EBIT for the period was -₹7.00 Mn**, and **PAT was -₹15.50 Mn**, compared to a profit of ₹12.45 Mn in H1 FY25. PAT margin stood at **-3.3%**. The Company expects a meaningful recovery in profitability in H2 as delayed billing milestones are completed and temporary cost pressures subside.

## Operational & Business Highlights

- Revenue contribution from international markets improved, with the Company seeing increased activity and interest across key Middle Eastern geographies.
- Billing momentum is expected to strengthen in H2 as several delayed installation jobs move into completion and certification stages.

## Outlook

The Company remains confident of achieving approximately **₹1,200 Mn in revenue for FY26**, backed by improving execution momentum and a strong project pipeline.

The large installation project that carried most of the cost overhang in H1 is expected to be completed in H2 FY26, enabling normalisation of contractual manpower costs, machinery rentals and outsourced execution expenses. This is expected to provide a cleaner cost base and improved visibility for the remainder of the year.

For FY26, management is targeting an **EBITDA margin of 7-9%**, supported by:

- normalisation of the temporary H1 cost spike,
- stronger billing and execution activity in H2,
- better operating leverage

Management remains optimistic that the second half will mark a clear improvement in both revenue and profitability, setting a stronger foundation for FY27.

We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of the Statement consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and

consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the Master Circular issued by the Securities and Exchange Board of India under Regulation 33(8) of the Listing Regulations, to the extent applicable.

The Statement includes the results of the following entities:
