Sub: Intimation under Regulation 47 of SEBI (LODR), 2015 for newspaper advertisement of standalone unaudited financial results for the second quarter and half year ending on 30<sup>th</sup> September, 2021

Dear Sir/Madam,

## Ahead of VGGS, Gujarat to launch new policies

GANDHINAGAR: To attract investors and boost positive sentiments ahead of the upcoming Vibrant Gujarat global summit scheduled in January 2022, the Gujarat government is set to announce around half a dozen new policies in key sectors like energy, IT/IeS, electronics, and agri-business. Chief minister Bhupendra Patel is likely to announce these policies soon. The government is also expected to approve important long-pending demands made by industries. The state's Information Technology & IT-enabled Services Policy 2016 will lapse shortly. So, the government is working on a new policy that will have a larger ambit. It is likely to cover emerging technologies like blockchain, artificial intelligence and robotics. Compared to the 2016 policy where incentives were given to create IT & IeS accommodating properties, the new policy will focus on providing easy entry-and-exit plug-and-play infrastructure on lease. The policy is also expected to offer manpower-related incentives to attract talent and boost the sector's growth. Similarly, the current policy for the electronic industry is also coming to an end this month. To draft the new policy, the state government is consulting large, medium, and small electronic companies to understand their needs and is also studying policies of other states. Like the IT/IeS policy, the government intends to provide incentives to nurture manpower required for the industry. Meanwhile, the state agriculture department has prepared a draft for the new agri-business policy which has proposed to reduce investment criteria from Rs 50 lakh to Rs 35 lakh. It has also proposed reduction of interest subsidy from 7.5% to 7%. This decision has been taken to match the state's industrial policy which offers cost benefits only up to Rs 35 lakh and 7% interest subsidy. Although financial benefits have been reduced in the proposed policy, it is expected that considering higher demand, more applications will be admitted and more industries will be given incentives," said sources.

The energy & petrochemicals department is also working on three key policies namely wind power generation, waste to energy, and small hydel power generation to double power generation from these three sectors.

## Gujarat woman booked for cyberbullying

AHMEDABAD: The owner and employee of a printing and book stall have lodged a complaint against a woman from Kutch for allegedly posting photos of the two online and making obscene comments on it. The female employee told police that the accused used to frequent the book stall and was in contact with the owner. "Then, one day, I got a call from a woman, saying that she had made a fake profile on social media, uploaded our photographs on it and made obscene comments. She also told me that she would file a rape complaint against the two of us if we went to the police," the employee said. The owner, police, "When she got to know about it, she called and identified herself. She confessed to the crime but again threatened to lodge a rape complaint against the owner," the employee said. Following this, the two decided to lodge a complaint against the woman with Meghnanagar police on Thursday. The female employee told police that the accused used to frequent the book stall and was in contact with the owner.
