Infosys Employees Get 75% Avg Bonus for Sept Qtr

Payout follows strong earnings show, but a tad lower than last time; IT firm stresses on high performance work culture

KR Balasubramanyam

Bengaluru: Infosys, the country's second-largest IT firm, on Friday issued performance bonus letters to eligible employees for the quarter to September, handing an average 75% of their eligible or target bonus on the back of a sustained strong performance during the period.

The payout, however, was a tad lower than the last time, sections of the Bengaluru-headquartered company's employees told ET.

Employees at job level 4 received an average 80% (outstanding performance), 75% (commendable performance) and 75% (met expectations) bonus. The payout percentage tapered for lower job levels, though the average payout ranged from 70.5% to 85%, according to people familiar with the matter.

Performance Watch

Sections of employees said they have got a 5-7% lower bonus than for the last quarter. The average payout in the June quarter stood at 80%, while individual employees received bonuses in the range of 75-95%.

Employees at job levels 4, 5 and 6, who make up the bulk of the 228,000-strong workforce, have received the bonus. They were assessed at 'outstanding', 'commendable' and 'met expectations' levels. A fourth category of non-applicable employees also received payouts. These levels cover software engineers to team leaders and senior managers. The management said it will credit the payment

along with the November salary. "Thank you for being an integral part of the Infosys journey," the company said in an email to employees. Infosys did not respond to an email seeking comment.

The bonus percentage, however, differed on the basis of individual performance and contributions during the quarter, the company said in its email. The management shared performance bonuses with delivery managers for allocation to employees within their delivery units based on individual performance. "In line with our organizational goals on building high performance work cultures, we have continued to drive performance differentiation while closing bonus payouts as well," said a company email sent ahead of the release of individual letters.

Emirates to Put Starlink on Aircraft in Big Win for SpaceX

Emirates is planning to use SpaceX's Starlink to upgrade the onboard Wi-Fi in its fleet, according to people familiar with the matter, even though the service isn't currently approved by the government.

The Dubai-based airline—the world's most profitable—has a widebody fleet of about 250 jets and more than 300 on order from Boeing Co. and Airbus SE.

The agreement is set to be announced at the Dubai Air Show starting Monday, the people said, asking not to be identified because the negotiations are private.

Winning business with Emirates would be an important endorsement for Elon Musk's product because the carrier is the biggest international airline and is globally recognized for its premium service. For now, though, the

United Arab Emirates isn't among the countries that authorize the use of Starlink, according to the company, so the deal would require the government to reverse that policy. The internet service also isn't certified for Emirates' marquee jet: the double-decker A380.

Qatar Airways was the first carrier in the region to offer Starlink, beginning last year.

The Gulf's No. 2 airline is making the product available in its Boeing 777 models and has started retrofitting Airbus A350 jets.

SpaceX has pitched Starlink to Gulf Air and Flydubai, and closed a deal with Saudi Arabia's flagship airline Saudia, Bloomberg reported in August. Bloomberg.

BBC Apologises to Prez Trump

The British Broadcasting issued a formal apology to Donald Trump on Thursday over the misleading edit of the US president's speech in a documentary program late last year, but rejected his demands for compensation. BBC Chairman Sanjay Shah sent a personal letter to the White House "making clear to President Trump that he and the corporation are sorry for the edit of the President's speech on 6 January 2021. Bloomberg
