5. Description and Rationale for the Scheme:

5.1 Description

The proposed Scheme of Arrangement envisages the transfer of Special Steel Undertaking of VISA Steel Limited to VISA Special Steel Limited under Section 9-1 and other applicable provisions of the Companies Act 1956 (hereinafter referred to as the "Act") with effect from the Appointed Date ("the Appointed Date")

5.2 Rationale

VSL has business interests in Special Steel Ferro Chrome and Coke. The said businesses are distinct and separate having different risk and rewards. Each of the businesses carried on by VSL by itself and through its subsidiaries and affiliate companies have significant potential for growth. The nature of risk and competition involved in each of these businesses is distinct from others. Also there are differences in the manner in which each of these businesses are required to be managed.

VSL had entered into a Memorandum of Understanding (MoU) with the Government of Odisha on 26 December 2022 for setting up an Integrated Steel Plant which object has been achieved by setting up . MTPA Special Steel Undertaking. In view of the implementation of VSL's obligations under the MoU being achieved and keeping in view substantial value addition within the State of Odisha as per the terms of the MoU the Government had agreed to assign appropriate priority in the matter of recommending VSL's application for iron ore mines under Mines and Minerals (Development and Regulation) Act 1957 and Mineral Concession Rules 1961 for mineral concession to meet its requirement subject to adequate progress in implementation of the project envisaged in the MoU and a substantial portion of the requirement was to be met through the OMC. Pursuant to the

MoU the State Government would also consider assigning appropriate priority to the VSL's project for allocation of iron ore area to meet its raw material needs to the extent of about 2 years of requirement of the Plant

VSL had applied for Prospecting Licences and Mining Lease over several areas in Odisha which are under consideration by the State Government Due to delay in grant of prospecting licence and/or mining lease and non availability of iron ore at viable prices the Company suffered losses and restructured its loan under Corporate Debt Restructuring (CDR) mechanism wherein additional funds are required to be infused

The Special Steel business has good potential to grow In order to provide the management with an opportunity to explore the business potential to the fullest achieve economies of scale and to enhance shareholder value it is considered appropriate and desirable to carry on the Special Steel undertaking in a step down company and thereby create distinct corporate identity in the manufacturing of Special Steel products The transfer will result in creation of a separate company engaged in special steel business which will facilitate in inducting foreign and/or Indian joint venture partner/strategic partners/investors as also entitled under MoU with the Government of Odisha and bring greater focus to the operation of Special Steel business

Hence with a view to evolve a structure for more effective concentration and focused attention in the business of Special Steel the Company is intending to transfer on a going concern basis the Special Steel undertaking of VSL to VSSL
