# BJP wants expansionary economic policy ahead of general election

REUTERS  
New Delhi, January 16

THE BJP is in favour of an expansionary economic policy and does not consider the government's plan to keep the fiscal deficit to 3.3% of GDP as 'sacro-sanct', a party spokesman told Reuters.

Ahead of a general election that must be held by May and after a string of losses in recent state polls, the government run by the Bharatiya Janata Party (BJP) has announced several stimulus measures for the countryside where millions of farmers are grappling with low crop prices. Other fiscal moves have been aimed at helping small businesses.

The measures are likely to be a drain on finances in Asia's third biggest economy, though the Modi administration is expected to get the Reserve Bank of India to agree to transfer an interim dividend of ₹300-400 billion (\$4-5.2 billion) to the government by March, Reuters reported last week quoting sources.

Weak consumer spending and the fragile farm sector have a ready-made drag on economic growth, creating a headache for PM Narendra Modi as he struggles to meet ambitious job-creation targets.

India lost 1.1 million jobs last year, with around 8.5% in rural areas, according to inde-

pendent think tank the Centre for Monitoring Indian Economy. "Expansionary" costs surged for small businesses. Those costs were boosted by the launch of a national sales tax in 2017 and the economic impact of an earlier ban on high-value currency notes.

"There's a demand, there's a debate... all my colleagues are saying what's the need of keeping the fiscal deficit in check when there is a distress in a particular sector," said Gopal Krishna Agarwal, the economic affairs spokesman for the BJP, referring to the farm sector.

"Even think tanks associated with us are talking in this sense. Very few people domestically are talking about fiscal prudence. Only foreign think tanks are talking fiscal prudence, fiscal prudence. I strongly believe an expansionary policy can then off the party," he said in an interview on Tuesday night.

India's 10-year benchmark bond yield rose 4.50 basis points to 7.53% after the news, its highest since January 8, but worries about the fiscal deficit. The rupee also weakened to ₹71.25 to the dollar from its previous close of ₹71.03.

Agarwal, a chartered accountant who is a director at state-run Bank of Baroda and a member of a government committee on small and medium-sized businesses, said Modi was aware of his party colleagues' thinking but that no final deci-

sion had been taken. DS Malik, a spokesman for the ministry of finance, did not respond to calls and emails seeking comment. Finance minister Arun Jaitley, who is in the United States for a medical check-up, said in a Facebook post on Tuesday that India's "fiscal discipline during the past five years has been amongst the best as compared to any preceding period".

Agarwal said the government understands that farmers are in distress and that directly transferring money to their bank accounts was an option to help them out. He said the government was, however, trying to figure out how to distribute

sure any such transfer programme was effective and did not just benefit those with land.

The government is studying a programme launched by Odisha under which farmers with landholdings of up to 5 acres would get cash assistance to buy seeds, pesticides, fertilisers and pay for labour. Sharecroppers, who cultivate rented land, will also get the benefits,

which include life insurance coverage. Agarwal said Modi and many financial institutions were not in favour of waiving farm loans, as done by states.
